

Wheeled Dry Chemical

Cartridge Transfer Models 125lb and 150lb

Badger's wheeled dry chemical extinguishers are recommended for locations such as chemical or petroleum plants and storage facilities, airports, warehouses, construction sites, equipment depots, and other high-hazard locations where dry chemical is the preferred agent.

Highly mobile, these units permit a single operator quick access to extinguishing of fires that would normally require several operators with large hand portables.

Features

- Three sizes available
- Available with Multipurpose, Regular or Purple K Dry Chemical.
- Designed for single person operation
- Available with 16 inch standard tires for smooth paved surfaces or 36 inch optional steel spoke wheels for rougher terrain
- Far-reaching 50' hose with 360° swivel joint
- Welded tubular-steel frame protects cylinder and valve
- Tow ring (optional) for vehicle towing
- Corrosion resistant red epoxy finish
- External 110 cubic foot nitrogen cylinder
- Constant discharge rate of dry chemical from start to finish

UL listed
Six year warranty
