DISTRESSED FINISHES:

Not all hardware is available Distressed.
The rugged tumbling process would damage some components.
In cases where distressing is not possible,
the equivalent non-distressed finish will be provided.

412 = 112

402 = 102

452 = 152 Antique Nickel with Matte lacquer (151 has gloss lacquer)

Hardware NOT available distressed includes:

- > All mortise locks, cylinders, latches, strikes
- > Certain levers & handleset trim
(noted on those pages)

*HAND-RELIEVED FINISH VARIANCES:

(038, 050, 060, 112, 151, 412, 452)

Product finishes which are HAND RELIEVED may vary in luster, hue and appearance as a result of handcrafted variances in the final finishing step.

POLICY & SPECIFICATIONS

> **Period Reproductions** - numerous designs have been authentically reproduced from period artifacts to accurately refurbish historic buildings.

> **American National Standards Institute** - to ensure maximum performance and durability, Baldwin products meet and exceed all specifications and template details as established by the American National Standards Institute. (Standard ANSI A117/ANSI A156)

Certain proprietary products have been specially developed by Baldwin for the physically handicapped in accordance with the most advanced requirements of the American National Standards Institute. (Standard ANSI A117)

> **Freight and Expedited Freight** - orders over \$1000 receive freight prepaid by Baldwin. Baldwin will utilize standard ground transportation unless otherwise indicated. In addition to ground freight Baldwin offers 3 types of expedited freight at the customers cost. Next Day, Two Day & 3 Day. To request expedited freight just indicate which of the 3 options you prefer. On orders under \$1000 and orders that request expedited freight, the cost of shipping will appear on your invoice.

> **How do I Request Same Day Shipments?** - to receive same day shipment on any of your orders please verify that the items are in stock. This can be done by checking Baldwin Express or calling Baldwin Customer Service. If the item is available, contact Baldwin Customer Service to make us aware that your order is being sent and that it needs to be shipped that day. Orders must be received at Baldwin prior to 11:30 a.m. EST and should be sent to the attention of the Customer Service Representative that you notified. Please note "ship today" on the order and if you want to use expedited freight. i.e. - Next day, Second day, etc.

> **Minimum Order Size** - due to cost of order processing and fulfillment the minimum dollar amount for an order placed directly with Baldwin Customer Service is \$250. Customers will be instructed to either increase the size of their order or they will be directed to pull inventory from one of our wholesale partners.

> **Baldwin Lead-time Policy** -

ORDERING

All Baldwin product numbers have a minimum of seven (7) digits. The first four (4) digits indicate the product, e.g. 1040 is a 4" square corner Mortise Hinge. The next three (3) digits indicate the finish, e.g. 150 is Satin Nickel. Therefore, 1040.150 indicates a 4" square corner Mortise Hinge in Satin Nickel finish. In addition to the seven (7) base numbers, a suffix of from one (1) to four (4) digits or letters are sometimes used. These characters are placed to the right of the finish; e.g. 1040.150.I indicates (1) one individual 4" square corner Mortise Hinge, whereas 1040.150 indicates a pair of hinges.

HANDING OF CREMONE BOLTS

8105, 8106, & 8107.xxx Right Hand or Left Hand, 7 or 8 ft. units.

SOLID FORGED BRASS CONSTRUCTION

CASE SIZE: 1.75" x 6.25" (44 x 159mm)

BOLT DIMENSIONS: STANDARD 7 FT. LENGTH

Top Rod: .625" x 40.875" (16 mm x 1.04m).

Bottom Rod: .625" x 38.875" (16 x .99 m)

STANDARD 8 FT. LENGTH

Top Rod: .625" x 52.875" (16mm x 1.34)

Bottom Rod: .625" x 38.875" (16mm x .99m)

THROW: When engaged: both bolts extend .75" (19mm) into jamb and sill.

GUIDES: 1.5" (38mm) wide. Decorative covers are available at an additional charge. Please consult price list.

FASTENERS: Case is surface mounted with 4 No. 8 x 1.25" Oval Phillips Head Screws for added strength and durability.

STRIKES: Furnished with 3 Strikes, one Universal, one Angle, and one Mortise to meet various door conditions.

SPINDLE: 1.375" (35mm) in length. (NO. 81054) A straight spindle must be ordered when trim is ordered for the exterior side of the door.

FEATURES: Often used as an elegant and functional addition to a pair of french doors with very narrow stile conditions. A typical application requires active cremone bolts mounted on each leaf of a pair of doors with no exterior access. Specify cremone bolt less knob (LK) or less lever (LL), and order knob or lever minus rose (MR) of choice as a separate item.

SPECIAL CONDITIONS: When specified, most trim as illustrated in Section F is available for the exterior side to latch door. Indicate knob or lever to be furnished. Straight spindle must be purchased separately. In addition, for doors larger than 8ft. see Cremone Bolt extension packets below.

PACKED: One in a box with three strikes and the appropriate fasteners.

Cremone Bolts are available in two sizes, one for doors up to and including 7 ft. (2.13m) and one for doors between 7 feet and 8 feet in height, at an additional cost. A 42" centerline above the finished floor is considered standard with our Cremone Bolts.

NOTE: Always specify hand of door as Knob/Lever trim will turn only in one direction. See diagram on pg. J/10 for handling details. To enable greater job site flexibility, exact sizing of Cremone Bolts can be accomplished in the field. For doors larger than 8ft. in height, the addition of a Cremone Bolt extension packet is necessary. See table below.

ORDERING INFORMATION: The final suffix numbers will indicate the following:

Digit #1 of the suffix will indicate hand of the unit: either right (R) or left (L)

Digit #2 of the suffix will indicate length: either 7' or 8'

Digits #3 & #4 of the suffix will indicate a cremone bolt less knob (LK) or lever (LL).

ORDERING EXAMPLES, KNOB/FUNCTION: Order cremone bolt and separate line item for knob:

8105.XXX.R7LK: Standard design 7' Cremone bolt right hand less knob

5000.XXX.LMR: 1 each 5000 knob minus rose

ORDERING EXAMPLES, LEVER/FUNCTION: Order cremone bolt and separate line item for lever:

8105.XXX.L7LL: Standard design 7' Cremone bolt right hand less lever

1 each 5125 lever left hand minus rose: 5152.XXX.LMR

Nos. 8105, 8106 & 8107.XXX.R7/8R/LK are furnished with guides less knobs or levers.

FEATURES: Dustproof strike is ideal for concrete installations. Large size plate and the spread of screw holes have better holding power in concrete slabs. This dustproof strike can be used for installation in metal thresholds by removing the face plate. To install, drill 1" (25mm) diameter hole and tighten lock nut. To lock the strike for pedestrian traffic, insert a coin in slot and turn clockwise. To convert for flush bolt use, turn counterclockwise.

PACKED: Solid brass locking type dustproof strike with face plate, machine screws and expansion shields.

NOTE: For use with 0600 Flush Bolt only.

4015 – Wall Type Flush Bumper SOLID FORGED BRASS —CONVEX DESIGN

SIZE: Diameter: 1" (25mm). Projection: .562" (14mm).

FEATURES: Compact designed bumper permits installation in areas where larger bumpers are not suitable due to size or projection. Fasteners are totally concealed underneath durable rubber insert.

PACKED: 20 in a box, individually poly-bagged with appropriate fasteners.

4273.xxx – Wall Type Flush Bumper CONCEALED SCREW ATTACHMENT—CONCAVE DESIGN

SIZE: Outside diameter: 1.75" (44mm). Projection: 1" (25mm).

FEATURES: Concave type rubber permits knob of button type lock to strike bumper without engaging lock mechanism. Special design protects lock mechanism from damage.

PACKED: 50 in a box; individually poly-bagged with wood and masonry fasteners in a dispensing type carton.

4252.xxx – Wall Type Flush Bumper CONCEALED SCREW ATTACHMENT—CONVEX DESIGN

SIZE: Outside diameter: 1.75" (44mm). Projection: 1" (25mm).

FEATURES: Engineered for commercial/residential installations, this compact and contemporary designed bumper features completely concealed fasteners for an unobtrusive and screw-less appearance. Supplied with wood and masonry fasteners, it is furnished unassembled to facilitate the substitution of fasteners. Designed for ease of installation, the bumper is attached onto a heavy gauge metal back plate through a threading application. For a fully theft proof installation, the use of a strap wrench for tightening or several drops of Loctite Grade A is recommended.

PACKED: 50 in a box; individually poly-bagged with appropriate fasteners in a dispensing type carton.

MORTISE HINGES – SPECIFICATIONS

*Height of hinge is always first dimension not including tip.

FEATURES: Extruded brass, full mortise hinges are machined for precise installation and smooth movement. Knuckles are milled to a clearance of .010" (.25mm) to minimize vertical wear. Each hinge is beveled on the inside leaf to obtain a tight fit when viewing the hinge in a closed position, and furnished with stainless steel, rust-proof pins for added durability.

PIN DESIGN: Each pin is manufactured from precision ground Type 302, stainless steel material to prevent corrosion. The pin "floats" within the barrel of the hinge, yet is held in a stationary position. Pins can be removed by unthreading each finial and tapping the pin upward from the bottom of the barrel.

FINIAL DESIGN: Hinge finials are specially designed to thread into the top and bottom of the hinge barrel, preventing the pin from rising out of the hinge barrel. All tips are completely interchangeable to facilitate stocking and eliminate excessive inventories. Finials can be purchased separately in sets of four only. Hinges are furnished standard with button design finials.

FASTENERS: All full mortise hinges are supplied standard with appropriate size wood screws as noted on chart. Wood screws are fully threaded to the head and have an undercut head for secure installations.

BEVELED EDGE: Each Baldwin hinge is beveled on the inside leaf to obtain a tight fit when the hinge is in a closed position.

EXTRUSION: Hinges manufactured from solid brass extrusions have two inherent properties: exceptional strength and precision tolerances. Baldwin's extruded hinges are machined from a solid brass bar to exact tolerances to ensure an even wear between each knuckle. The result is a QUALITY hinge which can withstand above average door weights and stresses with maximum vertical and lateral wear performance.

TEMPLATE: All full mortise hinges illustrated within this section are designed in accordance with the most current specifications established by the American National Standards Institute (ANSI).

APPLICATION: Baldwin full mortise hinges are classified as STANDARD WEIGHT for installation on doors up to 1.75" (44mm) in thickness.

NUMBER OF HINGES: Use three hinges on doors up to and including 7.5 feet (2.3m) and one additional hinge for each additional 2.5 feet (.76m) or fraction thereof.

NON-REMOVABLE PINS (NRP): Hinges can be obtained with non-removable pins to prevent removal of hinge pins when the door is in a closed position. This special application is used when the hinge barrel is exposed to the exterior side of a building (Reverse Bevel Door Conditions). A stainless steel set screw is inserted into the barrel from the inside of the hinge (Emblem Mark Side), which intercepts a groove milled on the pin. (Not available on Hinge No. 1030). Furnished at an additional charge. Specify as follows: 1 pr 1040.030 NRP Hinge - 4" x 4" = 1040.030.NRP

METAL DOOR APPLICATION: Machine screw packets are available to accommodate mortise hinge installation for metal doors.

- > All hinges have a slight offset leaf which provides clearance of .062" (1.57mm) when leaves are closed and parallel.
- > All hinges have template screw hole locations for use on either wood or hollow metal doors and frames.
- > Pins are manufactured from precision ground, stainless steel material.
- > All finials are threaded into the barrel of the hinge to prevent pin from rising.
- > Finials are completely interchangeable with all full mortise hinge sizes.
- > Furnished standard with solid brass Phillips head wood screws, undercut, fully threaded to the head.
- > Inner leaf is beveled to ensure the tightest possible fit and enhance hinge appearance.
- > Available with a Non-Removable Pin (NRP) feature (except No. 1030).

FEATURES: See Mortise Hinges information on previous pages. Equipped with two non-detachable ball bearings to withstand greater load capacity and increase hinge life. Each hinge is beveled on the inside leaf to obtain a tight fit when viewing the hinge in a closed position. Furnished with stainless steel, rust-proof pins for added durability.

PACKED: One per box, each hinge poly-bagged with fasteners. Supplied with #12 x 1.25" F.H. Phillips wood screws.

BALL BEARINGS: Each hinge is designed with two anti-friction ball bearing assemblies which are non-detachable. The balls inside each chamber are constructed from through-hardened, chrome alloy steel material to ensure a longer hinge life. The bearing races are machined from alloy steel which is then hardened and electroplated with a rust-resisting zinc-chromate finish. Our testing indicates that although this electroplate finish provides rust protection, when exposed to weather elements of exterior, the steel will eventually rust. The location of each assembly increases the vertical load capacity and greatly reduces both vertical and lateral wear of the hinge. As a result, all factors which normally contribute to hinge failure are significantly reduced. BALL BEARING HINGES ARE RECOMMENDED FOR DOORS EQUIPPED WITH DOOR CLOSERS AND/OR RECEIVING AVERAGE FREQUENCY SERVICE.

APPLICATION: STANDARD WEIGHT BALL BEARING hinges are designed for medium weight doors receiving average traffic in residential and light commercial construction. Ball bearing hinges are ALWAYS recommended for doors equipped with door closers. For further details on applications, consult Hinge Chart.

ORDERING INSTRUCTIONS: Extruded full mortise ball bearing hinges are available with four types of decorative finials: Ball, Urn, Acorn, and Steeple. Hinges are supplied with a button finial standard. The four styles of decorative finials must be ordered at an extra charge.

IMPORTANT: Baldwin Hinges are extruded from the finest quality brass and individually machined to close tolerances. The leaves from each half pair are NOT INTERCHANGEABLE with those of any other half pair. To ensure smooth operation and prevent binding, DO NOT MIX hinge leaves during installation.

CONDITIONS OF SALE

TERMS: 2%/10 Days, Net/30

SHIPMENTS: U.S. customers - F.O.B. Charlotte, NC or Reading, Pa. Full freight allowed on purchase orders of \$1,000 net invoice value, sent through routing of our selection. Delivery is made to curb or dock side only. Freight allowed shipments to Alaska will be prepaid to Seattle, to Hawaii will be prepaid to San Francisco, and to Puerto Rico will be prepaid to Miami. Upon delivery to the transportation company, shipments become the property of the purchasers, who assume full risk for loss or damage in transit.
International Customers - Orders of \$1,000 net invoice value will ship FCA to city specified on the commercial invoice. Orders of less than \$1,000 net value will ship EXW. Exceptions will be subject to the INCO terms stated on the commercial invoice. Canadian customers should contact their sales reps for variations to these terms.

CLAIMS: All claims, whether referring to errors in prices, or in filling orders or for defective goods, must be submitted IN WRITING within 30 days after receipt of shipment. Tracing of all lost shipments must be submitted IN WRITING within 30 days or the liability and risk is placed on the purchasers. All issued documents by a carrier confirming receipt of a shipment must be honored by the purchasers.

RETURNED GOODS: Returned goods will not be accepted unless authorized in writing by Baldwin within 120 days of invoice date. A minimum 25% handling charge and freight will be charged on all stock items returned in original condition. Special and custom products are not returnable for credit. An 80% handling charge will be imposed on products damaged. No credit will be given for items returned without written authorization, nor will the items be returned to the customer. Authorized returns become void after a period of 30 days from issue date of the Returned Goods Authorization. All credit returns must be shipped to us, FREIGHT PREPAID.

ORDERS: Orders of less than \$250.00 net will automatically incur a \$15.00 surcharge. Most orders for stock items will be shipped within four (4) weeks from receipt of order. To expedite customer orders, items unavailable from stock at time of shipment will be back-ordered unless otherwise noted by customer. Quantities of a particular item will be rounded to the next full box quantity without incurring any obligations for credit. We reserve the right to decline the whole or part of orders in which the price, finishes or quantity of goods is not satisfactory to us. We reserve the right to discontinue items or change specifications at any time without notice and without incurring any obligations. The corporation cannot be liable for extended delivery dates which may result in the cancellation of an order.

CANCELLATIONS: While Baldwin will attempt to comply with customer's telephone or written change orders and/or cancellations, we cannot guarantee that they can be accomplished before shipment. Appropriate handling charges on returns will be exercised if the order has been shipped before processing a change order request.

PRICES: The price list in effect on the date customer order is received will determine billing price. Orders requiring delivery in excess of three (3) months will be billed at prices in effect at time of shipment, unless quoted to the contrary in writing by our company.

Orders being held by Baldwin because of account credit status may be repriced to the price in effect the day the order is released by the Baldwin Credit Department.

TEMPLATES: Kick Plates and custom formed Push and Pull Bars are not made to template. If required, the actual products will be forwarded to the door manufacturer. Templates of catalog products are available upon request.

SPECIFICATIONS: Packing, weights, measurements, and design are subject to change without notice.

SPECIAL FINISHES: For availability and pricing of finishes other than those listed, consult the Hardware Technical Services Department.

SPECIAL FABRICATION: Items of Special Manufacture are not cancelable after a period of 72 hours from receipt of an order. A cancellation of this nature will result in a penalty charge equal to the total expenses incurred on the product. Delivery on orders of special fabrication cannot be guaranteed due to variables beyond our control. The corporation cannot be liable for extended deliveries on special orders and consequently, are not cancelable.

LIMITED LIFETIME MECHANICAL WARRANTY: Baldwin warrants that each Baldwin product shall be free from mechanical defects for a period of 3 years from time of purchase.

LIMITED LIFETIME FINISH™ WARRANTY: The Baldwin Lifetime Finish uses advanced finishing technology (physical vapor deposition) to create a finish highly resistant to the effects of weather and normal wear and tear. The Limited Lifetime Finish Warranty on Lifetime Finish™ products covers the original purchaser for as long as you own your home.

LIMITED FINISH WARRANTY: The finish on Baldwin products (excluding Lifetime Finish and living finish products) is protected by a durable topcoat designed to maintain the beauty and quality of the Baldwin product. The Baldwin Limited Finish Warranty covers the original purchaser for five years from date of purchase for interior use and one year for exterior use.

LIVING FINISHES: Due to the nature of Baldwin living finish products, they will wear over

time and may already have begun the process before reaching your home. No finish warranty is offered on living finish products, which are designed to age and improve over time. Living finishes include raw brass, oil rubbed bronze, stainless steel, and other non-lacquered or non-PVD finishes.

Refer to www.baldwinhardware.com for a complete warranty statement.

IMPORTANT! You must install Baldwin strikeplate or your warranty is void.

Except as expressly provided in this warranty to the contrary, (a) BALDWIN MAKES NO, AND DISCLAIMS ALL, WARRANTIES, REPRESENTATIONS AND GUARANTEES (WHETHER EXPRESS, IMPLIED OR STATUTORY), INCLUDING, BUT NOT LIMITED TO, ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, AND (b) BALDWIN SHALL NOT BE OBLIGATED OR LIABLE FOR LABOR OR OTHER COSTS RELATED TO INSTALLATION, REPAIR OR REPLACEMENT OR FOR LOSS OF, OR DAMAGE TO, ANY MATERIAL WHICH IS NOT SOLD BY BALDWIN. IN NO EVENT SHALL THE DURATION OF ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE BE LONGER THAN the lifetime of the applicable product or for as long as the original purchaser owns the product. This warranty is the only express warranty provided by Baldwin. No employee, representative or agent nor any other person has authority to assume or incur on behalf of Baldwin any obligation or liability in place of or in addition to this warranty.

Each of Baldwin's direct customers shall receive any claims and take delivery of any allegedly defective Baldwin products from the consumers and shall communicate and otherwise cooperate in a reasonable manner with Baldwin concerning the administration, processing and remedying of such claims, including, but not limited to, delivering repaired or replacement Baldwin products or, in the appropriate case, purchase price refunds to consumers. Please Note: The limited warranty on all locks or latches is void if used in combination with knobs, levers or trim of other than those manufactured by Baldwin and designated for use with the applicable locks or latches.

STANDARDS OF EXCELLENCE: Baldwin Hardware Corporation has produced a range of products in accordance to the HIGHEST AMERICAN STANDARDS OF QUALITY AND EXCELLENCE. All brass products are manufactured from the finest quality brass obtainable; however, these products are susceptible to indentation and imperfections due to the malleability of the material and the elements of human intervention when crafting the product. Although our internal safeguards protect us against shipping products of unacceptable quality, an imperfection or surface blemish may be considered the highest Quality Standard obtainable on a particular product. Baldwin is committed to producing each item to the most stringent guidelines and quality of human ability and excellence; however, all final decisions of Quality remain exclusively in the authorization of the Corporation. While Baldwin makes every effort to provide an accurate price list, we are not responsible for errors and/or omissions which may appear. Customers will be invoiced the actual price on all orders.
