Extrusion Guide

This section includes commonly used extrusions for Besam equipment and is divided by equipment header, frames/transom, door vertical rails, door horizontal rails and thresholds. Extrusions are available for currently manufactured varieties of Besam equipment.

Glossary of finish terms:

- CL = clear
- DB = dark bronze
- BK = black
- MF = mill

Refer to your most recent extrusion price list for per order charges for cut and prep.

Information Required for Extrusion Orders*	
All Extrusions <ul style="list-style-type: none"> - Extrusion part # - Extrusion description - Finish - Length - Build to the following project # (if applicable) - Prepped/Unprepped 	Door Carriers – UniSlide/ICU <ul style="list-style-type: none"> - Include carriage wheels (y/n) - Single slide/bi-part - Hand <ul style="list-style-type: none"> o If telescopic, leaf #1 or #2 - FBO/FSL - Carrier width
Jamb Tubes/Slick Tubes <ul style="list-style-type: none"> - Threshold undercut (y/n) <ul style="list-style-type: none"> o If yes, threshold type 	Glass Stop <ul style="list-style-type: none"> - With/without vinyl
Rails <ul style="list-style-type: none"> - Type of ball catch - Type of lock prep - Clips in bottom rail (y/n) - Supply lock on rail - Hand - Active leaf/sidelite - FBO/FSL 	UniSlide Cover/Sensor Plank Cap <ul style="list-style-type: none"> - Prepped for 5-position switch in cover (y/n) - Prepped for UltraView sensor in cover (y/n)
* You may use the class 3 extrusion order form or follow this sheet as a guide.
