Notes

- Bradley mirrors are overall sizes. Ex. Model 780-1824 measures overall 18"w x 24"h. **Always specify width first.** Height must be between 12" and 72".
- Bradley mirrors are not field interchangeable from horizontal to vertical or vice versa. Ex. Model 780-1824 will mount only 18"w x 24"h, not 24"w x 18"h.
- SHIPPING WEIGHT - To determine approximate shipping weight use a multiplier of 6.25 lbs. Per square foot. Formula: W" x H" divided by 144 x 6.25 = weight.
- Mirrors over 30"w include two (2) hangers.
- MIRROR WEIGHT - Mirror with one hanger max weight 75 lbs. Mirror with two (2) hangers max weight 200 lbs. To find raw mirror weight, use calculation of W" x H" divided by 144 x 5 = weight.

Due to special packaging requirements, all parcel-sized shipments of mirrors will be subject to a \$5.00 per mirror surcharge. The fee for insurance on parcel-sized shipments will be included in the amount added for delivery.

Tempered, Laminated, Plexiglass, and Stainless Steel provide extra security from broken glass and, as a result, may differ in color and reflectivity from standard mirrors. These mirrors will not be accepted for return because of distortion.

HOW TO MEASURE A GRAB BAR

All Grab Bar Configurations are specified using centerline to centerline dimensions

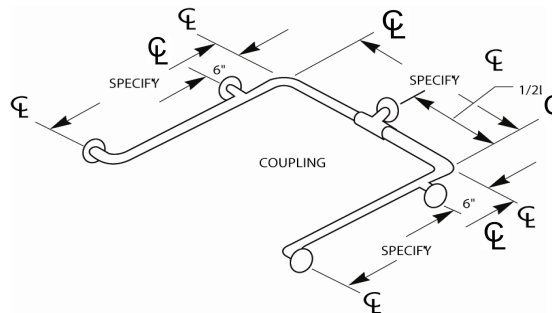

DO NOT SPECIFY THIS DIMENSION

If wall dimensions are given:

- To obtain length of side bars, take clearance (11/2") plus 1/2 of diameter of Grab Bar Series plus an additional 2" and subtract from side wall dimension
- To obtain back bar dimension, take clearance (1 1/2") plus 1/2 of diameter of Grab Bar Series and subtract twice from back wall dimension

Example: 812 Series. If wall dimensions are 30" x 58" x 30", bar dimensions would be 25 3/4" x 53 1/2" x 25 3/4".
