AX322NM

Amerex's CARBON DIOXIDE (CO₂) PORTABLE FIRE EXTINGUISHERS effectively fight Class B flammable liquid fires and are electrically non-conductive with a clean, non-contaminating, and odorless gas. They are perfectly safe for use on clothing, equipment, valuable documents, and food. FM approved. USCG approved with bracket listed on the UL label.

FES2

FMRGC

The **FireTech™ FIBERGLASS STAND** is designed for use with **FGC26 Fiberglass Cabinet**. Its red finish perfectly matches the cabinet and it comes with four pre-drilled holes for permanent attachment to docks or other locations. There are also mounting holes and hardware for attaching the cabinet. Sand can be added as well, for temporary placement. Measures 27¹/₂" tall with a 15¹/₂" x 15¹/₂" base and 8¹/₄" x 11³/₄" top surface.

| P/N | DESCRIPTION |
|--------|---|
| → FES2 | Fiberglass Cabinet Stand For FGC26 Cabinet |

The **Original Firemate™** is a stackable, **PORTABLE FIRE EXTINGUISHER STAND** that's made of tough HDPE plastic. The stand holds 5, 10, or 20 pound extinguishers and its wide base resists tipping. OSHA compliant. Red.
NOTE: Fire extinguisher not included.

MSG2

SPRINKLER GAUGES are manufactured to exact standards, with only the finest materials, for maximum performance year in and year out. Designed for wet or dry sprinkler systems. UL listed and FM approved.

Metal-Backed **GAUGES** (4")

| P/N | DESCRIPTION |
|--------|---|
| → MSG1 | Air Gauge, 0–80 (Water Retard to 250 psi) |
| → MSG2 | Water Gauge, 0–300 psi |
| → MSG3 | Air/Water Gauge, 0–300 psi |

SGIL

Help your customers comply and show the AHJ that sprinkler gauges have been tested/replaced (within the 5 year period by NFPA 25) with the **SPINKLER GAUGE INSTALLATION LABEL**. Label

includes spaces to record the installation date (which is different from the manufacturer date) and the date to test or replace the gauge.

| P/N | DESCRIPTION |
|--------|--|
| → SGIL | Sprinkler Gauge Installation Label, Roll/300 |

SGVK

The **SPRINKLER GAUGE VALVE KIT** is perfect for sprinkler systems without 3-way valves or ones that need replacing. **SGVK** comes with three 1/4" nipples (2 1/2", 4", and 6"), a 1/2" x 1/4" reducing bushing, a brass 2-way valve, and a 1/4" plug. **TWGV25** allows gauge replacement without shutting off the water.

| P/N | DESCRIPTION |
|---------|--|
| → SGVK | 3-Way Gauge Valve Kit |
| → SGKP_ | 3-Way Gauge Valve Kit w/ Plastic Gauge |
| → SGKM_ | 3-Way Gauge Valve Kit w/ Metal Gauge |
| → BP47 | 1/4" x 1/2" Black Bushing |

HDVTS18

The **HEAVY-DUTY VALVE TAMPER SEALS** are both deterrents and indicators of the unauthorized opening or closing of the sprinkler system valves. They meet the installation requirements of NFPA 13 and inspection requirements of NFPA 25 for sprinkler systems too. (Attach seals to valves in a manner that the valves cannot

be operated without breaking the seals.) Each seal is stamped with a 7-digit serial number that can be recorded to show who performed the installation, inspection, or maintenance. **IMPRINT SEAL** is available with 3-lines, 8 characters per line. Minimum 3,000. Matted in strips of 10 for ease-of-use. Sold in boxes of 1,000.

NOTE: When seals are used, valves should be inspected weekly.

| P/N | DESCRIPTION |
|--------------|--|
| → HDVTS18 | Heavy-Duty Valve Tamper Seals, 18" |
| → SSPHDVTS18 | Imprint Heavy-Duty Valve Tamper Seals, 18" |

*INCLUDES NUT AND BOLT CONNECTION

The **Gold-Plus BATTERY TESTER** is designed to test the most common 6V (1.2AH to 12AH) and 12V (1.2AH to 100AH) lead acid batteries. Quick and easy to use, it displays DC voltage and AH capacity in seconds. Simply choose the battery type and then press "Test". No confusing conversion rates to worry about either—you get the battery's DC voltage followed by the actual AH capacity. This method is also significantly more accurate than measuring voltage and internal resistance. Plus the **Gold-Plus** does not deplete the battery like conventional load testers.

| P/N | DESCRIPTION |
|------------|-----------------------|
| → BACTPLUS | 6V/12V Battery Tester |

Kidde's front-loading 120VAC **CO/PHOTOELECTRIC SMOKE ALARM**, with 9V battery backup, offers protection against both fire and carbon monoxide in a single unit. It also issues audible warnings—"Fire! Fire!" or "Warning! Carbon Monoxide!". A front-loading battery tray makes replacement simple too. Battery included.

| P/N | DESCRIPTION |
|------------|---------------------------|
| → 21007624 | Combo Photoelectric Alarm |

Custom-imprinted **SELF-INKING STAMP KIT** comes complete with everything you need—stamp, ink, and dry cartridge. Easily stamps standard and coated cardstock. Stamp also features clear positioning window for accurate positioning and replaceable ink cartridges. **STAMP1** offers 2,500 impressions and **STAMP2** 8,000 impressions per bottle of ink. Signed proof must be received before order is processed. Allow one week for delivery.

| P/N | DESCRIPTION |

Energizer® Max® ALKALINE BATTERIES are designed for long-lasting performance in a broad spectrum of devices. They also have a long shelf life—10 years—so they're fresh when needed. And no added mercury means they can go out with the garbage.

| P/N | DESCRIPTION |
|----------|--------------------------------|
| → E91BP4 | Max AA Alkaline Battery, Pkg/4 |
| → E93BP2 | Max C Alkaline Battery, Pkg/2 |

66118

The **Stylus Pro™ PENLIGHT** features **C4®** LED technology for blindingly bright light; compact, durable construction; optimum beam output; and a tailswitch for single-handed operation. It's also corrosion-resistant, water-resistant, shockproof, and o-ring sealed with an unbreakable lens. Comes with two AAA alkaline batteries. Black.

| P/N | DESCRIPTION |
|---------|---------------------|
| → 66118 | Stylus Pro Penlight |

66318

Streamlight's proprietary **Micro Optical System (MOS)** is the magic behind the blinding white light of their **MicroStream® PENLIGHT**. Its 30,000-hour high-flux LED provides up to 28 lumens. Plus it's tough, thanks to an aircraft aluminum housing with an internal polymer liner and shockproof switch. It's also o-ring sealed and comes with an unbreakable polycarbonate lens. Uses one AAA alkaline battery (included). Black.

| P/N | DESCRIPTION |
|---------|----------------------|
| → 66318 | MicroStream Penlight |

TUFPAL31E

For the toughest demands in portable lighting, the **Energizer® Hard Case® Professional® LED AREA LIGHT** features wide-angle LEDs that deliver a broad area of light. It also has two mounting options—magnet mount or solid surface mount. To operate, simply push the lens. Comes complete with three AA **Energizer Max®** batteries. Black.

| P/N | DESCRIPTION |
|-------------|------------------------------|
| → TUFPAL31E | Hard Case Pro LED Area Light |

Waypoint™ SPOTLIGHTS feature a pistol grip and trigger switch that make them easy to point and shine powerful light on an exact spot. IPX4 rated and water resistant, these spotlights have an integrated stand for hands-free lighting. They're tough, too, thanks to high-impact housings. Other features include **C4®** LEDs, unbreakable lenses, and light weight, which make the **Waypoint Spotlight** a "go-to" piece for tool box, tool belt, and more. Batteries sold separately.

| P/N | DESCRIPTION |
|---------|--|
| → 44900 | Waypoint Pistol Grip Spotlight w/ 12V Cord & Polymer Storage Mount, Yellow |
| → 44902 | Waypoint Pistol Grip Spotlight w/ 12V Cord & Polymer Storage Mount, Black |

44900

Featuring dual power sources, the **Energizer® SOLAR FOLD-ING LANTERN** operates on solar energy (charges even in low light) or on three D-cell alkaline batteries. What's more, in addition to solar charging. And it's flexible, folding out for 180° or 360° of bright light. Runs up to five hours (solar) or 165 hours (alkaline batteries). Orange.

| P/N | DESCRIPTION |
|-------------|-----------------------|
| → SOLRE35BP | Solar Folding Lantern |

SOLRE35BP

Ductmate® DUCT ACCESS DOORS are UL1978 listed and meet NFPA 96 standards. Easy to install, no welding, drilling or special tools needed saving installation time. Available in a variety of sizes and includes a self-adhesive template for the duct opening to be used. Consists of two layers of 11 gauge steel (S.S. also available) and a high temperature ceramic board rated to 2,300°.

NOTE: For steel duct use only!

1 FIRE EXTINGUISHERS & CHEMICAL

AMEREX® FIRE EXTINGUISHERS

Ideal for use in offices, warehouses, homes, and more, **Amerex's ABC DRY CHEMICAL FIRE EXTINGUISHERS** use a monoammonium phosphate dry chemical to insulate Class A fires by melting and clinging to the heated surface. They also smother and break the chain reaction on Class B fires and are non-conductors of electricity. Units have a 2½ to 20 lb capacity range. USCG approved with bracket listed on the UL label.

Perfect for kitchens, garages, boats, and vehicles, **Amerex's BC DRY CHEMICAL FIRE EXTINGUISHERS** contain a siliconized sodium bicarbonate based dry chemical, making them suitable for combating flammable liquid and pressurized gas fires. They're also electrically non-conductive, and the chemical, by nature, will not bake to hot surfaces, allowing for easy clean-up. These units are available in a range of sizes from 2½ to 20 lb capacity. USCG approved with bracket listed on the UL label.

Twice the Flow Rate of Standard Models!

Specially designed for commercial and industrial applications that handle, transport, process, or store large quantities of flammable liquids and gases, these **Amerex HIGH FLOW PORTABLE FIRE EXTINGUISHERS** are the perfect choice. Especially for spills on flat, horizontal surfaces with combustible/non-combustible materials and potential obstacles to fighting a fire. They are made with the same hardware and valve components as **Amerex's** standard models but with twice the flow rate. USCG approved with bracket listed on the UL label.

An environmentally safe replacement for Halon, **Amerex's HALOTRON I® FIRE EXTINGUISHERS** contain a "clean agent" hydrochlorofluorocarbon discharged as a rapidly evaporating liquid that leaves no residue. Pressurized with argon gas, and EPA approved as an HCFC blend agent, **Halotron I** extinguishes Class A and B fires and will not conduct electricity. Models **AX386T**, **AX397**, and **AX398** are USCG approved with bracket listed on the UL label.

Amerex® HALON 1211 FIRE EXTINGUISHERS feature solid-steel cylinders with all-metal valves and use all-recycled gas in accordance with the Montreal Protocol. **Halon 1211** is a liquefied gas, pressurized with nitrogen, which discharges as a vapor, causing no cold or static shock and no impairment of the operator's vision. This clean agent quickly penetrates difficult-to-see and hard-to-reach areas and leaves no residue. USCG approved with bracket listed on the UL label, except for model **DDPAX344T**.

Brooks is proud to offer Amerex® HIGH-PERFORMANCE DRY CHEMICAL EXTINGUISHERS. These units feature superior vertical and horizontal range with a high 240 psi operating pressure. Select Fast Flow models offer high flow rates, fast discharge, quicker knockdown, and increased operator protection. Select Compliance Flow models offer longer range and higher UL ratings. Cylinders are made of painted, galvanized drawn steel with protective rubber foot rings and feature all-metal valve construction and gauge guards. Extinguishers come with a standard wall bracket and a 12-year warranty. USCG approved with bracket listed on the UL label.

1 FIRE EXTINGUISHERS & CHEMICAL

RP257

Designed ideally for use on combustible metal fires, **Amerex's CLASS D DRY POWDER FIRE EXTINGUISHERS** are fitted with a "soft-flow" extension applicator to keep operator away from extreme heat and toxic fumes caused by burning material. The applicator can be quickly removed (to provide a straight stream of chemical) when greater range, a narrow discharge pattern, or a lobbing effect is required. Comes with a special corrosion-resistant yellow (Class D) color-coded paint finish. FM approved.

Amerex's NON-MAGNETIC STORED PRESSURE DE-IONIZED WATER MIST FIRE EXTINGUISHER

is the ultimate extinguisher for Class A fires where potential Class C (electrical) hazards exist. The fine spray produced from its unique misting nozzle provides protection against electrical shock and greatly enhances the cooling and soaking characteristics of the agent. It also reduces scattering of burning materials. This unit uses de-ionized water, making it the best choice for hospital environments, protecting valuable books and documents, telecommunication facilities, and "clean room" manufacturing facilities. It's easy to use, maintain, and service too. Charge sold separately (extinguisher comes empty).

1 FIRE EXTINGUISHERS & CHEMICAL

Amerex's FFFP WHEELED FIRE EXTINGUISHER

contains a premixed **FFFP** (Film Forming Fluoroprotein) alcohol-resistant foam. **FFFP** is highly effective on Class B fuel fires and a penetrating/wetting agent on fires involving Class A materials. Unit features quality hardware throughout, including a unique agent cylinder fabricated entirely of stainless steel—no interior coatings are necessary. Meets NFPA requirements for hospital helicopter pad protection. USCG approved. Call the Sales Department for quantity pricing.

NOTE: All prices quoted are FOB factory unless shipped from stock. All nitrogen cylinder operated wheeled extinguishers are shipped with the "DRY CHEMICAL" agent in pails. Most wheeled units are available in a stationary configuration. Inquire about special quantity pricing.

Square Threaded Valves Install/Remove Fast!

Badger™ ADVANTAGE MULTI-PURPOSE EXTINGUISHERS are made to handle easier and be recharged quicker, thanks to a larger neck opening. The square thread design allows the valve to be removed and installed quickly. Heavy-duty plated steel siphon tubes are threaded for a more secure connection, and the polymer hose strap won't scratch the cylinder. Larger pull pin and handles are easy to operate—even with work gloves. Depending on the extinguisher size and fire type, **Advantage Fire Extinguishers** can be used in vehicles, homes, schools, offices, and more.

Badger's CARBON DIOXIDE (CO₂) FIRE EXTINGUISHERS give fast, safe, and effective protection against fires involving electrical equipment and flammable liquids. They are generally suited for use indoors, making them ideal for today's office environments. The cylinders are manufactured from lightweight high-grade aluminum. They are highly effective, easy to use, and leave no messy residue to clean up. USCG approved with bracket listed on the UL label, except for **25078B**.

Badger's UNIVERSAL ULTRA FOAM EXTINGUISHERS are effective on Class A common combustibles as well as both hydrocarbon and polar solvent types of Class B flammable liquids, so they eliminate the application guesswork associated with other foams. The unique synthetic base of **Universal Ultra Foam** does not have any offensive odors, is non-toxic, environmentally friendly, biodegradable, and extremely simple to use and clean up.

Badger™ BRIGADE CARBON DIOXIDE (CO₂)

CARTRIDGE OPERATED UNITS are the industry's most effective fire extinguisher of their kind. Available in ABC, BC, or PK, these units use carbon dioxide expellent gas and feature deep-drawn seamless steel construction (with corrosion-resistant cylinders) for maximum performance. USCG approved with bracket listed on the UL label. For use down to -40°F.

When high-hazard fires demand a fast one-person response and exceptional performance, **Badger's WHEELED STORED PRESSURE DRY CHEMICAL EXTINGUISHERS** give you the power you need. Long-range discharge gives control over ordinarily out-of-reach fires and allows the operator to keep a safe distance from the fire source and smoke. The 50 lb unit provides cost effective, reliable fire protection, while the 125 lb models are USCG approved.

Badger's WHEELED REGULATED RELEASE and DIRECT RELEASE DRY CHEMICAL EXTINGUISHERS are recommended for chemical or petroleum plants, storage facilities, airports, warehouses, construction sites, equipment depots, and other high-hazard locations where dry chemical is the preferred agent. Highly mobile, these units permit a single operator to extinguish fires that would normally require several operators with large portables.

Badger's WHEELED CARBON DIOXIDE (CO₂) EXTINGUISHERS provide excellent protection for certain flammable liquids and energized electrical equipment. They can be operated by a single person, and the squeeze-grip control valve design allows for easy use. They are generally reserved for indoor use where wind and drafts will not disperse a discharge pattern. Carbon dioxide is a clean agent and leaves no residue.

FIREBOY FIRE EXTINGUISHERS

Fireboy® HR-227 CLEAN AGENT FIRE EXTINGUISHER SYSTEMS

are the cleaner, safer, and more effective alternative to dry chemical portable fire extinguishers. They leave no residue or powdery mess behind and have a quicker fire-out time. When 175°F (79°C) is reached, the extinguisher will automatically discharge, releasing the clean agent gas to totally flood the entire space, smothering the fire. For occupied and unoccupied areas and most all marine applications. Approved for Class B fires.

If fire breaks out aboard a diesel-powered vessel, continued operation may remove the agent, creating the possibility of re-ignition, but not with **Fireboy® AUTOMATIC SHUTDOWN SYSTEMS**. They respond automatically when a **Fireboy** system discharges. Available in three different model series, providing shutdown capability for up to eight different engines. All systems are solid state for greater reliability and come with an integrated alarm horn, charged/discharged lights, and an override switch for restart or control of auto shutdown.

RECHARGE CHEMICAL

Our **UL CLASSIFIED UNIVERSAL DRY CHEMICAL** is ideal for use in many manufacturers' fire extinguishers, per NFPA 10. This dry chemical agent consists of a carefully controlled range of particle sizes blended with a flow-promoting and anti-caking chemical for smooth delivery. Each particle is also silicone coated for optimum moisture repellency and minimum friction during discharge.

FIRE EXTINGUISHER CABINETS AND STANDS

Brooks' MARK SERIES FIRE EXTINGUISHER

CABINETS better fit today's extinguisher sizes. Cabinets feature injection molded ABS plastic construction, so they're dent-, rust-, and corrosion-proof. Each cabinet comes with a brass lock, a plastic cover, and a screen-printed pictogram on the side. With no glass to break, there's no breaker bar to lose. And since they're light and nest easily together, freight charges are a fraction of what metal cabinets can cost. Choose from three sizes: **Mark I Jr. Cabinets** for extinguishers with a maximum height of 16³/₄"; **Mark II Jr. Cabinets**, 20"; and **Mark II Cabinets**, 24". See sizing chart below for dimensions. Priced per cabinet.

MARK I JR. CABINET. Maximum extinguisher height, 16³/₄".

FireTech™ FIRE EXTINGUISHER CABINETS work well indoors or out, thanks to their high-impact polystyrene construction and ultraviolet inhibitors that keep the color from fading, regardless of the weather or environment. Each cabinet includes an injection-molded frame, a scored break front, plastic cam lock with key, and a break-front striker. All **FireTech** parts are interchangeable with **CATO Chief Cabinets**.

2 CABINETS, ACCESSORIES, & COVERS

FGC35R, FGC26

A major step up in fire extinguisher storage and protection, **FireTech™ FIBERGLASS CABINETS** are designed to ward off salt air, chemicals, moisture, dust, insects, temperature extremes, and other harmful elements. These durably constructed cabinets feature a door-sealing method that shuts out most anything and an easy-view window and corrosion-resistant handle for extra convenience. All cabinets come standard with a full-length stainless steel hinge, rivets, and latches for added peace of mind. Comes in UV-resistant high-visibility red.

| P/N | A HEIGHT | B WIDTH | C DEPTH | MAX EXTR. HEIGHT | EACH |

FGC10

The **FireTech™ FIBERGLASS STAND** is designed for use with **FGC26 Fiberglass Cabinet**. Its red finish perfectly matches the cabinet and it comes with four pre-drilled holes for permanent attachment to docks or other locations. There are also mounting holes and hardware for attaching the cabinet. Sand can be added as well, for temporary placement. Measures 27¹/₂" tall with a 15¹/₂" x 15¹/₂" base and 8¹/₄" x 11³/₄" top surface.

FES2

The **FireTech™ ABS EXTINGUISHER CABINET** protects extinguishers or life safety equipment from the harshest of environments. The clear door allows easy inspection, while the door-swing preference (left or right) and gasket provides long-term weather protection. A quick-release catch ensures rapid access to what's inside too.

FT101

Make moving fire extinguishers from job site to job site easy with this portable **FIRE EXTINGUISHER STAND**. It holds a 5, 10, or 20 lb dry chemical extinguisher and has a 16" x 16" base with a molded-in handle for ease of movement. There's also a large 2 1/2" fill hole for the addition of sand (up to 35 lbs). Constructed from red powder coated steel and predrilled for a fire extinguisher wall hook. **NOTE:** Sand and wall hook are not included.

The **ACADEMY, AMBASSADOR, and COSMOPOLITAN SERIES CABINETS**, manufactured by **J.L. Industries**, are some of the finest cabinets available. They are made of aluminum with a clear anodized finish (**Academy**) or steel with electrostatic white epoxy primer finish (**Ambassador**) or all stainless steel (**Cosmopolitan**). All cabinets include a continuous hinge door and acrylic front with squared edge construction. (The 3" trim model has rolled edge construction).

Three different acrylic door styles are stocked too: **Full Acrylic**, **Full Acrylic with Saf-T-Lok**, and **Contemporary V. Full Acrylic** and **Contemporary V** models are equipped with zinc-plated pull handles and roller catches, while the **Full Acrylic with Saf-T-Lok** models use pull handles with keyed-alike cylinder locks and flexible cams.

NOTE: Remember to add the wall material thickness to your wall depth when determining the cabinet you need. Not responsible for acrylic breakage during shipping.

2 CABINETS, ACCESSORIES, & COVERS

CABINET ACCESSORIES

FireTech™ Economyline, Decorline, and Classic Series fire extinguisher cabinet **ACCESSORIES** include replacement cabinet covers, glass clips, and break front tools. The clear replacement covers are grid-scored for faster and easier access to fire extinguishers. Injection-molded polystyrene covers are screen-printed so respondents know exactly where to strike in case of fire. (See-through scored covers are much easier to break than un-scored versions.)

Master Lock® is a name synonymous with quality padlocks. The keyed-alike **BREAKAWAY STEEL PADLOCK** has a 1 3/4"-wide laminated steel body for superior strength and comes with two keys and a steel shackle for superior cut resistance. A warded locking mechanism helps minimize jamming caused by dirt and grime. And it's rustproof. Inside shackle height is 13/16".

RACKS AND REELS

Brooks semi-automatic **PIN RACKS** offer all the quality and performance you need for a hanging rack and single jacket hose. Each one comes pre-loaded with movable pins and an automatic release mechanism that keeps water out of the hose until the last fold is removed. Red.

NOTE: Pin rack length is measured from center of nipple opening to end of hose clip.

Accommodates Up To 100' Of 2½" Fire Hose

These **FireTech™ HOSE HANGERS** are constructed of aluminum alloy and conveniently accommodate 100' of lined or unlined hose, up to 2½". The top shoulder is spring loaded so that water pressure or a single pull is sufficient to release the hose. It also stores hose close to walls or columns to minimize damage as well as allowing for fewer bends in the hose, prolonging its life. Mounting instructions included.

| B250 | 2 1/2" NST | |
| U250 | 2 1/2" Universal | |
| B250G | Gasket for B250 | |

Our **ALUMINUM BREAK CAPS** serve the same function as the brass and plastic caps, but instead of screwing or pushing/pulling on and off, they are easily broken with a hydrant/spanner wrench. Caps attach to inlets courtesy of two eye bolts that slip over pin lugs.

| P/N | DESCRIPTION | EACH |
|------|-----------------------|------|
| ABCA | 2 1/2", Silver, Pkg/2 | |
| ABCR | 2 1/2", Red, Pkg/2 | |

The most economical way to protect fire dept. connection inlets is with **PLASTIC BREAK CAPS**. Choose either the **PAC**, which uses an adjustable bar that threads onto any hose thread or the **PBC2**, which uses eye bolts to secure the cap via the inlet's pin lugs. Both fit 2 1/2" inlets and are easily broken with a hydrant/spanner wrench. Red.

| P/N | DESCRIPTION | EACH |
|------|---------------------------------------|------|
| PAC | Adjust-A-Plug | |
| PBC2 | Plastic Break Cap w/ Eye Bolts, Pkg/2 | |

HOSE VALVES

These precision-made **GATED WYE LEADER LINE SIAMESE** come with ball valves built into the body so that either lead can be used independently of the other. **Gated Wyes** feature 2 1/2" NST female swivel inlets and 1 1/2" male outlets in two different threads. Other features include a cast brass body, painted red with polished-chrome trim and rocker lug swivels.

NOTE: Not recommended for charged pre-connected hose lines!

| P/N | DESCRIPTION | EACH |
|---------|---------------------------|------|
| 611 | Gated Wye, NST (Outlets) | |
| 611NPSH | Gated Wye, NPSH (Outlets) | |

Engineered for trouble-free operation, these **ANGLE HOSE VALVES** are designed for use with hose storage devices and hydrants. Each valve has a 300 lb rating and is UL listed and FM approved. Constructed of cast brass with red or silver handwheels.

| P/N | DESCRIPTION | EACH |
|------|---|------|
| 411 | 1 1/2" NPT(F) x 1 1/2" NPT(F) Valve, Red | |
| B411 | 1 1/2" NPT(F) x 1 1/2" NPT(F) Valve, Silver | |
| 412 | 2 1/2" NPT(F) x 2 1/2" NPT(F) Valve, Red | |
| 413 | 1 1/2" NPT(F) x 1 1/2" NST(M) Valve, Red | |
| B413 | 1 1/2" NPT(F) x 1 1/2" NST(M) Valve, Silver | |
| 414 | 2 1/2" NPT(F) x 2 1/2" NST(M) Valve, Red | |
| B414 | 2 1/2" NPT(F) x 2 1/2" NST(M) Valve, Silver | |
| 415 | 1 1/2" NPT(F) x 1 1/2" NPSH(M) Valve, Red | |

3 FIRE HOSE, NOZZLES, BRASS, & HOSE VALVES

Some of the finest **PRESSURE REDUCING ANGLE HOSE VALVES** you'll find in the industry. Can be adjusted to restrict pressures up to 175 lbs and come with locking pin devices that restrict full opening by untrained personnel. Pin may be removed by fire personnel for unrestricted operation in emergencies. UL listed. Cast brass construction with red handwheels.

| P/N | DESCRIPTION | EACH |
|-----|-------------------------------------|------|
| 421 | 1 1/2" NPT(F) x 1 1/2" NPT(F) Valve | |
| 422 | 2 1/2" NPT(F) x 2 1/2" NPT(F) Valve | |

Firefighters' Top Pick

The **Cobra™ Classic™ FIREFIGHTING HOOD**, from **PGI**, is the top pick by firefighting professionals because it offers serious protection without sacrificing comfort. The hood accomplishes this by blending **Nomex®/Lenzing FR®** for superior flame and heat resistance with a **Comfort-Plus®** liner for unbeatable breathability, comfort, and moisture wicking properties. Flat stitched seams won't bunch or dig into your skin either. There's also an extra-heavyweight elastic face opening that stretches to a full 16" for easy donning and a snug fit—with or without an **SCBA** mask. Coverage extends to lower neck. UL classified to NFPA 1971. One size. White.

| P/N | DESCRIPTION | EACH |
|------|-------------------|------|
| BZ33 | Firefighting Hood | |

From **Bullard®**, one of the biggest names in **FIREFIGHTING HELMETS**, comes the **Firedome®**—life saving thermoplastic head protection for optimum impact and penetration resistance. They're very reliable under repeated heat exposure, and every helmet comes standard with the **Sure-Lock®** ratchet headband suspension for easy adjustment and superior comfort. Optically correct face shields are standard as well. Yellow. Certified to NFPA 1971 Standard on Protective Ensembles for Structural Fire Fighting, 2013 Edition.

| P/N | DESCRIPTION | EACH |

| PXY | Thermoplastic Fire Helmet | |

StrikeTeam XTO™ GOGGLES are designed with wildland firefighting and technical rescue operations in mind, but they are an ideal choice for numerous other situations requiring dependable eye protection. They come with tons of premium features, too—**Speed-Clip™** quick strap adjustment, face padding, and replaceable lenses with tear-off covers. And speaking of lenses, they're virtually indestructible, thanks to polycarbonate construction. They're also fog-free with full-filter ventilation. Goggles will fit over most eyeglasses and are ANSI Z87.1+ and NFPA 1500–2007 compliant.

LBB10

Black Diamond® RUBBER FIRE BOOTS offer incredible comfort with stitched-down linings that don't pull out. And with their non-slip heels, they offer a better, more accurate fit, because the foot remains in place while working and walking. Plus the midsoles are coated with 9.5mm felt, which takes it easy on the feet. Other standard features include steel toes and shanks for added protection and lug outsoles for a better purchase on all types of terrain. Boots are also open cell foam insulated and meet or exceed NFPA 1971, ANSI Z41, and CSA Z195 requirements.

MUNICIPAL HAND TOOLS

Very handy to have around, our **HOSE HOOK** is a multi-purpose tool that carries hose rolls and fits up to 5" hose. It doubles as a wrench for rocker and pin lug fittings (up to 2¹/₂") as well as 4" and 5" storz fittings. It also opens foam bucket lids, drains hose, and holds doors open. Comes with a bracket for apparatus mounting too.

| P/N | DESCRIPTION | EACH |
|-----|-------------|------|
| HH1 | Hose Hook | |

Designed for today's fire department connections, these popular **WRENCHES** cover a variety of sizes in both storz and threaded adapters (pin or rocker lugs).

| P/N | DESCRIPTION | EACH |
|------|---|------|
| STW | Storz x Universal Spanner (Alum) Fits 4"-6" Storz & 1½"-3" Rocker Lugs | |
| STH | Storz Spanner Wrench Holder | |
| W570 | Universal Spanner Wrench (Alum) Fits 1½"-3" Pin/Rocker Lugs | |
| W580 | Standard Hydrant/Spanner Wrench (Steel/Ductile Iron) Fits 1½"-6" Pin/Rocker Lugs | |
| W575 | Heavy-Duty Hydrant/Spanner Wrench (Steel/Ductile Iron) Fits 1½"-6" Pin/Rocker Lugs | |
| K48 | Hydrant/Spanner Wrench Holder (No Tools) | |
| AFS | Folding Pocket Spanner Wrench (Plastic) Fits Pin/Rocker Lugs Thru 4" | |

RESCUE TOOLS include the **Res-Q-Rench**, which is five tools in one: universal spanner, pry tool, window punch, seat belt cutter, and gas shut-off. There's also the **Res-Q-Me** that shatters tempered glass and cuts through safety belts in seconds.

| P/N | DESCRIPTION | EACH |
|------|---|------|
| RQR | Res-Q-Rench (Plastic) Fits 4", 5" Storz & 1½", 2½" Rocker Lugs | |
| RST1 | Res-Q-Me Tool | |

The **89 RESCUE TOOL**, from **Channellock®**, has a spanner wrench that works on storz and rocker lug couplings (up to 6"). There's also a tool steel punch to shatter safety glass, a pry bar for doors and windows, a gas shutoff, and hardened steel edges that easily shear through soft metal. And its narrow profile helps it work wonders in tight places.

LOCKOUT/TAGOUT

Safety **LOCKOUT HASPS** provide a safe, proven method of locking out energy sources. Two models are available: the red heavy-duty nylon style or the aluminum scissors type. The nylon model is flexible, unbreakable, dielectric, and heat and cold resistant. The aluminum models have rubber-dipped handles and are available with two different jaw-opening sizes. Both models accommodate up to six padlocks.

| P/N | DESCRIPTION | EACH |
|------|-------------------------------|------|
| MS01 | Lockout Hasp, Nylon | |
| 0G80 | Lockout Hasp, 1" Aluminum | |
| 0G82 | Lockout Hasp, 1 1/2" Aluminum | |

We carry a full range of **BALL** and **BUTTERFLY VALVE LOCKOUTS**, including **BS03D**—the largest ball valve lockout available. All are made of strong polypropylene plastic, which is highly resistant to cracking and abrasion. Fully dielectric and resistant to extreme temperature changes (-50°F–360°F). Ball valve lockout **BS01** can be used to lock valves in the open or closed position. Red.

| P/N | DESCRIPTION | EACH |
|-------|-----------------------------------|------|
| BS01 | Ball Valve Lockout, 3/8"–1 1/4" | |
| BS02 | Ball Valve Lockout, 1 1/2"–2 1/2" | |

| BS04D | Universal Butterfly Valve Lockout | |

ML480

Ideal for tight spaces and insulated pipes, **Master Lock® ROTATING GATE VALVE LOCKOUTS** come in various diameters to fit over different size valve handles. They can be locked to protect against accidental opening and feature tough yet lightweight dielectric **Zenex™** thermoplastic construction, which easily withstands chemicals and temperature extremes. Their unique, patented rotating design is also what makes it easy to fit them in tight spaces. Hi-vis safety labels come in English, French, and Spanish, and the center knockout can be removed to fit over a rising stem gate valve.

| P/N | DESCRIPTION | EACH |
|-------|--------------------------------|------|
| ML480 | Gate Valve Lockout, 1"-3" Dia | |
| ML481 | Gate Valve Lockout, 2"-5" Dia | |
| ML482 | Gate Valve Lockout, 4"-6½" Dia | |

MLS3910

The **Master Lock® PRESSURIZED GAS VALVE LOCKOUT** fits most pressurized gas valve handles up to 3" in diameter. This patented product is designed to work with the valve guard in place too. It also works with multiple lockout hasps and accepts any **Master Lock** or **American Lock®** safety padlocks.

| P/N | DESCRIPTION | EACH |
|---------|---|------|
| MLS3910 | Pressurized Gas Valve Lockout (Lock Not Included) | |

WHEEL VALVE LOCKOUTS

V-Safe® WHEEL VALVE LOCKOUTS consist of two half moons that completely cover the valve handwheel. Made of strong dielectric polypropylene plastic, making them highly resistant to cracking, abrasion, and extreme temperature changes (-50°F-360°F). Easily modified for rising-stem-type valves too. Red.

STORAGE

Sure-Grip® EX SAFETY STORAGE CABINETS, by **Justrite®**, are redesigned with a padlockable handle, reflective labeling, and safety shelving. They're made to store flammable liquids safely. The three-point lock has a fail-safe closing mechanism, dual vents with flame arresters, leveling feet, and a 2" leakproof sill in the base. Some units come with a fusible link-actuated door that's self-closing at 165°F. 30 gal cabinets have one shelf; larger cabinets have two. FM, OSHA, and NFPA approved. Yellow.

Heavy-Duty Flammable Fuel Storage

TYPE I SAFETY CANS, from **Justrite®**, are an economical choice for flammable liquids. All have a self-closing, leak-proof lid to prevent ruptures from pressure build-up and control vapors and spills. Sidewalls are strengthened with high-grade coated steel for “bumper guard” protection. To avoid misuse and reduce the potential for incompatible mixtures, different color cans differentiate liquids and are affixed with warning labels that have an extra-large ID zone for user labeling of contents. Meets OSHA and NFPA requirements and are certified by FM, UL, and ULC. Carb compliant TUV certified.

CHOOSING THE RIGHT SAFETY CAN

Red is used, and OSHA accepted, for flammable liquids. **Blue** is often used to store kerosene. **Yellow** cans usually store diesel fuel, and **Green** cans are mostly used to store oil.

Justrite® FLAMMABLE WASTE STORAGE CABINETS

are designed for temporary on-site storage of flammable or combustible wastes. Features double-wall construction, adjustable leveler feet, three-point door lock with key, and a 2" leakproof sill. Cabinets are designed for vertical storage of any 55 gal drum equipped with a **Justrite** pump. Each cabinet comes with a single shelf. NFPA and OSHA approved. White.

FA216083

Incineration-safe, these **DISPOSABLE BIOHAZARD BAGS** are double sealed at the bottom to help prevent breakthroughs.

Plus each bag is printed with the universal biohazard symbol and "INFECTIOUS WASTE" in English/Spanish. Bags hold 7–10 gal each.

The **SHARPS BIOHAZARD CONTAINER** is the ideal solution for biohazard containment. Easily holds bio bags and syringes. Container is puncture resistant, leak-proof, and nestable. It also comes with a needle remover and translucent lid that seals shut when full. OSHA compliant.

BURN RELIEF

Water-Jel® FIRE BLANKETS and **WRAPS** offer a one-step system for emergency first aid on a burn victim. Available in three sizes, wraps cover a victim's limb or torso, while the blankets completely cover a person, up to 6' tall. **Water-Jel** fire blankets are 100% worsted wool and thoroughly saturated in a cooling gel. They protect against heat and flame, put out the fire, stop burn progression, and cool the skin.

HSAEDBAS

HSAEDBAS IN CASE

DEFIBRILLATORS

HeartSine's Samaritan® Pad AED was designed especially for use in public areas, providing a sophisticated defibrillator for adult or pediatric use inside a lightweight and easy-to-operate system.

Battery and electrode pads are incorporated into an "all-in-one" **Pad-Pak™**, sharing a single expiry date. Designed for the minimally trained rescuer, the semi-automatic **Samaritan PAD** has both visual prompts along with voice/icon prompts for easy instruction.

Includes **Samaritan Defibrillator**, adult pad-pak, storage/carrying case, data port, quick instruction card, user manual, and CPR poster. Medical Authorization Form included with sale of each unit.

NOTE: Good Samaritan laws provide limited immunity for AED owners.

Simple To Operate With Real CPR Help®!

Zoll's® **AED PLUS® PACKAGE** is easily operated by almost anyone, thanks to its **Real CPR Help®** software with audio and text prompts. There's also a visual bar gauge on the screen to show each depression as it's taking place. The **AED Plus Package** lasts for five years, once it's installed, so there's no maintenance or testing needed. Ingress protection rating is IP55 for dust and water, meaning it's okay to place it in almost any environment. The system is powered by ten lithium batteries (included).

REPLACEMENT SPRINKLER HEADS

Globe® GL SERIES SPRINKLERS feature a low-profile yet durable design, utilizing a frangible 5mm glass ampule as the thermo-sensitive element. This actuating assembly is hermetically sealed, containing a precise amount of fluid. When heat is absorbed, fluid expands, shattering the glass at the prescribed temperature and discharging the water in an approved pattern (depending upon deflector style.) **Globe Sprinklers** are aesthetically pleasing, making them a great choice in any building, wherever standard spray sprinklers are specified. They're also available in different styles, orifices, temperature ratings, and finishes to meet varying design requirements. UL listed and FM approved.

The **HEAVY-DUTY VALVE TAMPER SEALS** are both deterrents and indicators of the unauthorized opening or closing of the sprinkler system valves. They meet the installation requirements of NFPA 13 and inspection requirements of NFPA 25 for sprinkler systems too. (Attach seals to valves in a manner that the valves cannot be operated without breaking the seals.) Each seal is stamped with a 7-digit serial number that can be recorded to show who performed the installation, inspection, or maintenance. **IMPRINT SEAL** is available with 3-lines, 8 characters per line. Minimum 3,000. Matted in strips of 10 for ease-of-use. Sold in boxes of 1,000.

NOTE: When seals are used, valves should be inspected weekly.

| SLT | Line Tester, 1" NPT | |

Solid brass **TEST & DRAIN VALVES**, from **Brooks**, meets all the requirements for inspecting and testing a wet-pipe sprinkler system. A chrome-plated ball and **PTFE** seats ensure easy operation and positive shut-off.

| P/N | DESCRIPTION | EACH |
|---------|---|------|
| STDV1 | 1" Test & Drain Valve, 1/2" Orifice | |
| STDV125 | 1 1/4" Test & Drain Valve, 1/2" Orifice | |

SGV100

SAV200

STRAIGHT GLOBE VALVES are made with a **PTFE** seat for improved sealing. 200 WOG. Cast brass.

| P/N | DESCRIPTION | EACH |
|--------|------------------|------|
| SGV50 | 1/2" Globe Valve | |
| SGV100 | 1" Globe Valve | |

Commonly used in a sprinkler system at the riser, this **GLOBE ANGLE VALVE** is ideal for trim and drain applications. It can also be used on both alarm valves and shotgun-type risers. The soft seat design, utilizing **NBR** material, provides positive sealing (up to 200 psi). Valve is female by female with NPT threads. Cast brass.

| P/N | DESCRIPTION | EACH |
|--------|----------------------|------|
| SAV200 | 2" Globe Angle Valve | |

411

413

HOSE VALVES

Engineered for trouble-free operation, these **ANGLE HOSE VALVES** are designed for use with hose storage devices and hydrants. Each valve has a 300 lb rating and is UL listed and FM approved. Constructed of cast brass with red or silver handwheels.

| P/N | DESCRIPTION | EACH |
|------|---|------|
| 411 | 1 1/2" NPT(F) x 1 1/2" NPT(F) Valve, Red | |
| B411 | 1 1/2" NPT(F) x 1 1/2" NPT(F) Valve, Silver, Domestic | |
| 412 | 2 1/2" NPT(F) x 2 1/2" NPT(F) Valve, Red | |
| 413 | 1 1/2" NPT(F) x 1 1/2" NST(M) Valve, Red | |
| B413 | 1 1/2" NPT(F) x 1 1/2" NST(M) Valve, Silver, Domestic | |
| 414 | 2 1/2" NPT(F) x 2 1/2" NST(M) Valve, Red | |
| B414 | 2 1/2" NPT(F) x 2 1/2" NST(M) Valve, Silver, Domestic | |
| 415 | 1 1/2" NPT(F) x 1 1/2" NPSH(M) Valve, Red | |

421

423

Some of the finest working **PRESSURE REDUCING ANGLE VALVES** you'll find in the industry. Valves can be adjusted to restrict pressures up to 175 lbs and come with locking pin devices that restrict full opening of valve by untrained personnel. Pin may be removed by fire personnel for unrestricted operation in emergencies. UL listed. Cast brass construction with red handwheels.

| P/N | DESCRIPTION | EACH |
|-----|-------------------------------------|------|
| 421 | 1 1/2" NPT(F) x 1 1/2" NPT(F) Valve | |
| 422 | 2 1/2" NPT(F) x 2 1/2" NPT(F) Valve | |
| 423 | 1 1/2" NPT(F) x 1 1/2" NST(M) Valve | |
| 424 | 2 1/2" NPT(F) x 2 1/2" NST(M) Valve | |

Heavy-duty **GATE VALVES**, from **Brooks**, are designed for use on pump test headers and dry systems as a fire hose connection. Valves feature a straightway pattern and come with caps and chains. Other features include solid wedge discs with tapered seats and a 300 lb rating. Models **433** and **434** are UL listed and FM approved. Model **B433** is UL listed only. Cast brass construction with red handwheels.

| P/N | DESCRIPTION | EACH |
|------|---|------|
| 433 | 2 1/2" NPT(F) x 2 1/2" NST(M) Valve | |
| B433 | 2 1/2" NPT(F) x 2 1/2" NST(M) Valve, Domestic | |
| 434 | 3" NPT(F) x 2 1/2" NST(M) Gate Valve, Rising Stem | |

SINGLE HYDRANT GATE VALVES are used on fire hydrant outlets for a slow and precise control of flow (throttling). Solid brass valves feature metal-to-metal seats and non-rising stems with an aluminum crank handle or red handwheel. They come standard in a straightway pattern and with a 300 lb rating.

| P/N | DESCRIPTION | EACH |
|------|---|------|
| 443 | 2 1/2" NST(F) x 2 1/2" NST(M) Valve w/ Swivel | |
| B443 | 2 1/2" NST(F) x 2 1/2" NST(M) Valve w/ Swivel, Domestic | |

VALVE REPLACEMENT PARTS. Red handwheels fit **Giacomini** valves; silver handwheels fit **Powhatan**.

| P/N | DESCRIPTION | EACH |
|--------|--|------|
| PHW15 | Handwheel for Powhatan 1 1/2" Valve | |
| PHWN15 | Handwheel Nut for Powhatan 1 1/2" Valve | |
| GHW15 | Handwheel for Giacomini 1 1/2" Valve | |
| PHW25 | Handwheel for Powhatan 2 1/2" Valve | |
| PHWN25 | Handwheel Nut for Powhatan 2 1/2" Valve | |
| GHW25 | Handwheel for Giacomini 2 1/2" Valve | |
| GHWN | Handwheel Nut for Giacomini Valve | |
| GSRS15 | Rubber Seal for 1 1/2" Giacomini Angle Valve | |
| PSRS15 | Rubber Seal for Powhatan 1 1/2" Angle Valve | |
| PSRS25 | Rubber Seal for Powhatan 2 1/2" Angle Valve | |

FIRE DEPARTMENT CONNECTIONS

This quality line of **STRAIGHT DOUBLE CLAPPER SIAMESE** is designed to help fire departments augment a building's water supply, typically at a structure's wall. Each connection comes with two 2 1/2" NST inlets and one 4" NPT outlet as well as twin female swivels. Capacity: 500 gpm. UL listed and FM approved. Cast brass.

| P/N | DESCRIPTION | EACH |
|--------|--------------------------------------|------|
| 613 | "Auto Spkr" Siamese | |
| 613PCD | "Auto Spkr" Siamese, Polished Chrome | |
| 623 | "Standpipe" Siamese | |

The **90° DOUBLE CLAPPER SIAMESE** is designed to assist fire departments in supplementing existing water supplies and features two 2 1/2" NST inlets and one 4" NPT outlet for a total capacity of 500 gpm. Siamese come standard with dual female swivels. UL listed and FM approved. Cast brass.

| P/N | DESCRIPTION | EACH |
|-----|---------------------|------|
| 614 | "Auto Spkr" Siamese | |
| 624 | "Standpipe" Siamese | |

An economical choice in wall-mountable siamese connections, this **STRAIGHT SINGLE CLAPPER SIAMESE** features a single clapper that swings back and forth, saving material and manufacturing costs. Also comes with two 2½" NST inlets, one 4" NPT outlet, and dual female swivels. Capacity: 500 gpm. UL listed and FM approved. Cast brass.

| P/N | DESCRIPTION | EACH |
|-----|---------------------|------|
| 612 | "Auto Spkr" Siamese | |

Another economical choice, but in a free-standing siamese connection, this **90° SINGLE CLAPPER SIAMESE** utilizes a single "swing" clapper. Each connection features two 2½" NST female swivels inlets and one 4" NPT female outlet. Capacity: 500 gpm. UL listed and FM approved. Cast brass.

| P/N | DESCRIPTION | EACH |
|-----|---------------------|------|
| 622 | "Auto Spkr" Siamese | |

Whether it's horizontal or vertical 4" pipe, we have a **CONCEALED SIAMESE** to fit. Available straight or angled, each of these connections come with two 2½" female NPT inlets and one 4" female NPT outlet and feature double drop clappers. Capacity: 500 gpm. UL listed. Cast brass.

| P/N | DESCRIPTION | EACH |
|-------|-------------------------|------|
| 641 | Straight Siamese | |
| 616D* | Angled Siamese | |
| | *WHILE QUANTITIES LAST! | |

Our **STRAIGHT HYDRANT** is an excellent choice where an auxiliary water supply is needed for the fire department typically on the roof of a building. Unit comes with two 2½" male NPT outlets and one 4" female NPT inlet. Capacity: 500 gpm. Cast brass.

NOTE: Use Angle Hose Valves to control water supply (see page 107).

| P/N | DESCRIPTION | EACH |
|-----|------------------|------|
| 633 | Straight Hydrant | |

Our **90° HYDRANT** is another excellent choice for providing auxiliary water supplies to the fire department, also typically on the roof of a building. Unit features two 2½" male NPT outlets and one 4" female NPT inlet. Capacity: 500 gpm. Cast brass.

NOTE: Use Gate Valves to control water supply (see page 107).

| P/N | DESCRIPTION | EACH |
|-----|-------------|------|
| 634 | Hydrant | |

Designed so fire departments can supplement water supplies in residential sprinkler systems, this **SINGLE INLET CONNECTION** comes with everything you need to make the connection—one 1½" male NST inlet, one 1½" female NPT outlet, and a cap and chain. Cast brass.

| P/N | DESCRIPTION | EACH |
|-----|--------------|------|
| 685 | Single Inlet | |

AUTO-SPRINKLER/STANDPIPE ESCUTCHEONS

Our selection of Fire Department Connection (FDC) **WALL ESCUTCHEONS** is made of durable red aluminum or plastic and measures approximately ¼" thick.

| P/N | DESCRIPTION | EACH |
|--------|---|------|
| FDC507 | "Auto Spkr", 4½" x 9⅝", Plastic | |
| FDC508 | "Auto Spkr", 4½" x 9⅝", Aluminum | |
| FDC509 | "Fire Dept. Conn.", 3⅞" x 7⅞", Aluminum | |

| 667 | "Auto Spkr", Polished | |
| 667PCD | "Auto Spkr", Polished Chrome | |
| 668PCD | "Standpipe", Polished Chrome | |

SPRINKLER ACCESSORIES

AUTOMATIC STRAIGHT BALL DRIP VALVES keep water out of standpipe and sprinkler connections. Cast brass.

| P/N | DESCRIPTION | EACH |
|-----|----------------|------|
| 471 | 1/2" Ball Drip | |
| 472 | 3/4" Ball Drip | |

These **FULL-PORT 1/4-TURN BALL VALVES** come with a chrome-plated ball and **PTFE** seats, so they open easy and close tight. UL listed and FM approved. Cast brass. NPT.

| P/N | DESCRIPTION | EACH |
|-------|-------------------|------|
| BV75 | 3/4" Ball Valve | |
| BV100 | 1" Ball Valve | |
| BV150 | 1 1/2" Ball Valve | |

System Sensor® WFD Series WATERFLOW DETECTORS are compatible with schedule 10-40 steel pipe, sizes 2"-8", and can be mounted in a vertical or horizontal position. Each detector features a sealed retard, visual switch activation, and a computer-designed paddle for optimum performance. UL listed and FM approved.

| P/N | DESCRIPTION | EACH |
|-------|-----------------------------|------|
| WFDT | 1" T-Tap Waterflow Detector | |
| WFD20 | 2" Waterflow Detector | |
| WFD25 | 2 1/2" Waterflow Detector | |
| WFD30 | 3" Waterflow Detector | |
| WFD40 | 4" Waterflow Detector | |
| WFD50 | 5" Waterflow Detector | |
| WFD60 | 6" Waterflow Detector | |
| WFD80 | 8" Waterflow Detector | |

Brooks offers two types of **System Sensor® ALARM PRESSURE SWITCHES**—the **EPS10** series and the **EPS40** series. Both switches feature a sensitivity adjustment wheel, a reinforced diaphragm that resists pressure spikes, and two conduit entrances. The **EPS102** is designed for use in wet, dry, deluge, and pre-action automatic sprinkler systems, while the **EPS402** is designed for use in dry pipe systems or pressure tanks and water pressure supplies of automatic water control valves.

| P/N | DESCRIPTION | EACH |
|--------|---------------------------------------|------|
| EPS102 | Pressure Switch, 4-20 psi, (2) SPDT | |
| EPS402 | Pressure Switch, 10-100 psi, (2) SPDT | |

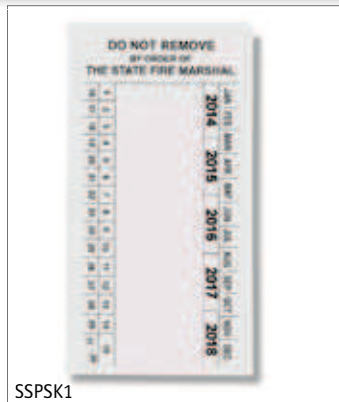

Monitors In Any Position.

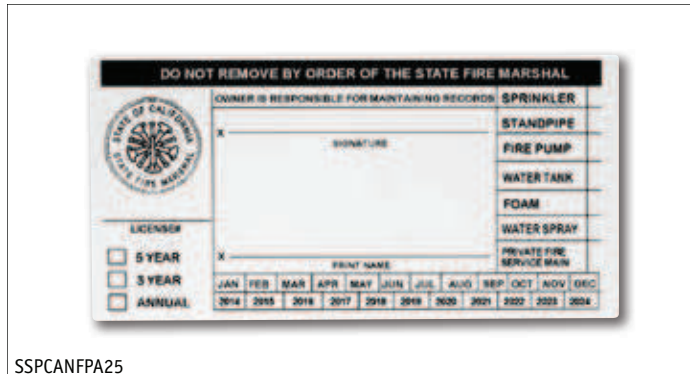

System Sensor® electric **SUPERVISORY SWITCHES** are used to monitor the open position of PIB, OS&Y, and other type valves. Each feature a NEMA 3R-rated enclosure that's also tamper resistant. UL listed and FM approved.

| P/N | DESCRIPTION | |
|-------|---|--------------|
| PIBV2 | Supervisory Switch for Post Indicator/Butterfly Valve | SEE PAGE 120 |
| TS | Supervisory Switch for OS&Y/Pressure Reducing Valve | SEE PAGE 120 |
| PSP1 | Supervisory Switch for Non-Rising Stem Gate Valves/Ball Valves/Angle Valves | SEE PAGE 120 |

Custom-imprinted **SPRINKLER SERVICE TAGS** come with your company name or logo. Printed on one side with black ink on coated 13-pt stock. Reinforced eyelets are standard with optional metal eyelets and/or wire. Printed the 10th and 25th of each month, with delivery six to eight weeks from deadline. We must receive your final signed proof by the 10th and 25th of every month. Years are automatically changed every October. Minimum order is 4,000 tags per design or color ordered. Tags are sold and priced per 1,000. Choose your color: Yellow (Y), Red (R), Green (G), and White (W). **NOTE:** It is the customer's responsibility to be sure the tag design meets all local and state regulations. (Georgia requires Green). No imprint on back side.

| P/N | DESCRIPTION | L X H | |

FIRE ALARM CONTROL PANELS – CONVENTIONAL

Fire-Lite's MS2F and MS4F FIRE ALARM CONTROL PANELS bring the latest in microprocessor technology to conventional fire controls. They are compatible with the **i3™** smoke detectors, from **System Sensor®** (see page 119), which provide such advanced features as drift compensation, maintenance alert, and freeze warning. Automatic synchronization of audio/visual devices is provided using the **System Sensor, Wheelock, or Gentex** protocol.

| P/N | DESCRIPTION |
|------|--|
| MS2F | FACP, 2-Zone, Style B, 24V, 1 Style Y NAC |
| MS4F | FACP, 4-Zone, Style B/D, 24V, 2 Style Y/Z NAC |

MS4F

Smaller facilities, like banks, grocery stores, restaurants, strip malls, etc., can benefit from **Fire-Lite's 5-ZONE and 10-ZONE PANELS**, which bring the latest technology to conventional panels. A built-in keypad, with 80-character LCD display, makes it fully programmable without the need for an external programmer. There's a built-in **Digital Alarm Communicator Transmitter (DACT)**, and they're compatible with **System Sensor® i3™** smoke detectors, providing advanced features, like drift compensation, maintenance alert, and freeze warning. The **Notification Appliance Circuit (NAC)** synchronization protocol has the ability to silence audible alarms, while the strobes continue to flash, using just a single pair of wires.

| P/N | DESCRIPTION |
|---------|-------------------------------------|
| MS5UDF | FACP 5z 2NAC CL B w/ DACT |
| MS10UDF | FACP 10z 2NAC CL B w/ DACT |
| ANN80F | 80-Character LCD Serial Annunciator |

MS5UDF, MS10UDF w/ ANN80F

FIRE ALARM CONTROL PANELS – RELEASING

For commercial, industrial, and institutional buildings that require releasing service, **Fire-Lite's 6-ZONE PANELS** (for single and dual applications) are more than up to the task. The **DDPMRP-2001F** is for deluge and pre-action applications, while the **DDPMRP-2002F** handles the agent releasing applications. Both panels are compatible with **System Sensor's i3™** detectors and transmit a maintenance trouble signal to the **FACP** when it needs cleaning. There's also a supervisory 'freeze' signal when the ambient temperature falls below the detector rating (approximately 45°F). Panels are also compatible with input devices, like two-wire or four-wire smoke detectors, pull stations, waterflow devices, and tamper switches.

| P/N | DESCRIPTION |
|-------------|-------------------------------------|
| DDPMRP2001F | 6-Zone FACP, Deluge & Pre-action |
| DDPMRP2002F | 6-Zone FACP, Agent Release |
| ANN80F | 80-Character LCD Serial Annunciator |

DDPMRP2001F

FIRE ALARM CONTROL PANELS – ADDRESSABLE

This addressable **FIRE ALARM CONTROL PANEL (FACP)**, by **Fire-Lite® Alarms**, supports up to 50 addressable devices and includes a built-in **Digital Alarm Communicator/Transmitter (DACT)** in the same circuit board, making it both compact and cost effective. The **MS9050UDF** may be connected to an 80-character fire annunciator for remote annunciation and control of system functions, including **System Acknowledge, Signal Silence, Drill, and Reset**. The **FACP** also features audio/visual device synchronization using **System Sensor®, Wheelock, and Gentex** protocol.

| P/N | DESCRIPTION |
|-----------|-------------------------------------|
| MS9050UDF | Fire Alarm Control Panel w/ DACT |
| ANN80F | 80-Character LCD Serial Annunciator |

MS9050UDF w/ ANN80F

This combination **FIRE ALARM CONTROL PANEL** and **DIGITAL ALARM COMMUNICATOR/TRANSMITTER** is a cost-effective addressable control panel with many powerful features. It operates in **LiteSpeed™** mode, giving it a quicker response time, so panels with the maximum 198 devices can report an incident fast—under 10 seconds. And there's selectable strobe synchronization for **System Sensor®, Wheelock, and Gentex** devices.

| P/N | DESCRIPTION |
|-------------|---|
| MS9200UDLSF | Intelligent Addr. FACP w/ Built-In Communicator |
| LCD80F | 80-Character LCD Remote Annunciator |
| SBB3F | Surface Mount Backbox for LCD80F |

MS9200UDLSF

The **Fire-Lite® MS9600LSF ADDRESSABLE FIRE ALARM CONTROL PANEL** supports up to 318 addressable devices on each of two signaling line circuits (second **SLC** optional) and offers **LiteSpeed™**, a patented technology that polls 10 devices at once, allowing a fully loaded panel to report an incident and activate the notification circuits in under 10 seconds, using standard twisted unshielded wire. The panel supports the low-cost **ANN-BUS**, legacy **ACS** annunciation devices for retrofit applications and a host of other features, including built-in **NAC** synchronization. Easily installed, programmed, and maintained, the **MS9600LSF** is ideal for use in schools, assisted living facilities, office buildings, malls, etc.

| P/N | DESCRIPTION |
|-------------|---|
| MS9600LSF | Addr. FACP, 1-2 SLC up to 318 pts/SLC, 24V |
| DDPSLC2LSF | SLC Expander Increases Capacity from 318 to 636 pts |
| DDPDACTUD2F | Optional DACT for Remote Monitoring |
| ANN80F | 80-Character LCD Serial Annunciator |

MS9600LSF

ADDRESSABLE DETECTORS AND ACCESSORIES

Fire-Lite's 300 SERIES ADDRESSABLE, LOW-PROFILE, PLUG-IN SMOKE DETECTORS use a state-of-the-art sensing chamber with communications to provide open area protection. They are used exclusively with **Fire-Lite's Addressable Fire Alarm Control Panels**. Since these detectors are addressable, they will help emergency personnel quickly locate a fire during its early stages, potentially saving precious rescue time and reducing property damage. Two LEDs on each sensor will light to provide a local visible sensor indication. Remote LED annunciator capability is available as an optional accessory (**RA100Z**).

| P/N | DESCRIPTION |
|------------|--|

SD355F

The **Fire-Lite® D355PLF ADDRESSABLE DUCT SMOKE DETECTOR** features a pivoting housing that fits both square and rectangular footprints and mounts to round or rectangular ductwork. This unit senses smoke in the most challenging conditions, operating in airflow speeds of 100 to 4,000 feet per minute, temperatures of -4°F to 158°F, and a humidity range of 0% to 95% (non-condensing). A plug-in sensor head offers improved false alarm immunity and simple installation, testing, and maintenance. An improved cover design isolates the sensor head from the low-flow feature for simple maintenance.

ADDRESSABLE MODULES AND ACCESSORIES

Fire-Lite's 300 Series ADDRESSABLE MONITOR and CONTROL MODULES provide an interface to conventional **Initiating Device Circuits (IDC)** and **Notification Appliance Circuits (NAC)**. Modules are addressed with easy-to-use rotary code switches and are used exclusively with **Fire-Lite's Addressable Fire Alarm Control Panels**. And since these modules are addressable, they provide the flexibility to meet the requirements of most installations.

| P/N | DESCRIPTION |

VLF500

The **Xtralis® VESDA® LaserFocus® DETECTOR** is a very early warning smoke detector, designed to protect small business-critical environments of less than 500 m² (5,000 sq. ft.). The detector works by continually drawing air through sampling holes in a pipe network. The air is filtered and passed into a detection chamber where extremely small amounts of smoke are detected, while rejecting dust and other sources of false alarms.

VIC020

The **Xtralis® VESDA® VIC020 MCC (MULTI-FUNCTION CONTROL CARD)** is an interface card for the range of **Xtralis VESDA VLF** smoke detectors. Installing a **VLF MCC** into a **VLF** detector provides a cost-effective solution for customers who need enhanced connectivity, fault detection, monitoring, and annunciation of alarms and faults. The principal benefits include improved **FACP** connectivity. The **VLF** is fitted with two alarm relays in its standard form. With an extra two relays, the **Multi-Function Control Card** allows reporting of all four alarm levels on dry relay outputs.

SMOKE DETECTORS AND ACCESSORIES

System Sensor's i3™ Series PHOTOELECTRIC SMOKE DETECTORS are founded on three principles: installation ease, intelligence, and instant inspection. Installation ease is redefined by the simple **Stop-Drop 'N Lock** plug-in base. Intelligent features, such as **Drift Compensation** and **Maintenance Alert**, simplify testing and maintenance. Instant inspection of the detector's condition is accomplished by wide-angle red and green LED indicators.

| P/N | DESCRIPTION |
|---------|--------------------------------------|
| 2WB | Smoke, 2-Wire, 12/24V |
| 2WTB | Smoke w/ Heat, 2-Wire, 12/24V |
| 4WB | Smoke, 4-Wire, 12/24V |
| 4WTB | Smoke w/ Heat, 4-Wire |
| SENSRDR | i3 Smoke Detector Sensitivity Reader |

→ **More SYSTEM SENSOR PRODUCTS Available - Call for Pricing.**

This **12/24V CARBON MONOXIDE DETECTOR**, from **System Sensor®**, provides early warning when its electrochemical sensing technology measures carbon monoxide levels in the air. Plus with **RealTest™** technology, the CO gas sensing cell can be tested using a carbon monoxide gas agent. It will alert occupants by sounding and flashing a temp-four, 85 dB signal alarm. The **CO1224T** is specifically designed for system operation and is fully listed to UL 2075, offering a code-required trouble relay.

| P/N | DESCRIPTION |
|---------|-------------------|
| C01224T | System CO, 12/24V |

DUCT SMOKE DETECTORS AND ACCESSORIES

The **System Sensor® InnovairFlex™ 4-WIRE PHOTOELECTRIC DUCT SMOKE DETECTOR** features a pivoting housing that fits both square and rectangular footprints and mounts to round or rectangular ductwork. This unit senses smoke in the most challenging conditions, operating in airflow speeds of 100 to 4,000 feet per minute, temperatures of -4°F to 158°F, and a humidity range of 0% to 95% (non-condensing). A plug-in sensor head offers improved false alarm immunity and simple installation, testing, and maintenance. An improved cover design isolates the sensor head from the low-flow feature for simple maintenance.

| P/N | DESCRIPTION |
|-----------|---|
| D4120 | Duct Smoke, Photo, 4-Wire, 24V/120VAC or 24V |

| WFD50 | 5" Waterflow Detector | |
| WFD60 | 6" Waterflow Detector | |
| WFD80 | 8" Waterflow Detector | |

System Sensor® field-adjustable **PRESSURE SWITCHES** feature the **EPS102**, designed for use in wet, dry, deluge, and pre-action automatic sprinkler systems. The **EPS402** is designed for use in dry pipe systems, pressure tanks, and water pressure supplies of automatic water control valves.

| P/N | DESCRIPTION | EACH |
|--------|---|------|
| EPS102 | Alarm Pressure Switch, 4–20 psi | |
| EPS402 | Supervisory Pressure Switch, 10–100 psi | |

Electric **SUPERVISORY SWITCHES**, from **System Sensor®**, help prevent tampering and incorrect setting of valve controls.

| P/N | DESCRIPTION |
|-------|--|
| PIBV2 | Supervisory Switch Post Indicator/Butterfly Valve |
| TS | Supervisory Switch OS&Y/Pressure Reducing Valve |
| PSP1 | Supervisory Switch Non-Rising Stem Gate Valves/ Ball Valves/Angle Valves |

MANUAL PULL STATIONS AND ACCESSORIES

Fire-Lite's BG12 Series is a cost-effective, feature-packed non-coded series of **MANUAL FIRE ALARM PULL STATIONS** designed to meet multiple applications with the installer and end-user in mind. The **BG12 Series** features a variety of models, including single- and dual-action versions. Innovative design, durable polycarbonate construction, and multiple mounting options make the **BG12 Series** simple to install, maintain, and operate.

| P/N | DESCRIPTION |
|-------------|--|
| BG12F | Dual-Action, Terminal Block, Hex Key |
| BG12LF | Dual-Action, Terminal Block, Key Lock |
| BG12LOF | Dual-Action, Terminal Block, Key Lock, w/ Outdoor Rating |
| DDPBG12LRAF | Dual-Action Lexan, Agent Release w/ Abort Applications |
| SBI0F | Surface Mounting Indoor/Outdoor |

BG12F

Die-cast **ALARM MANUAL PULL STATION**, with **Fire-Lite's** steel back **MANUAL FIRE ALARM PULL STATIONS**, provides a single-action, normally open contact alarm initiating point for use with UL listed **Fire Alarm Control Panels (FACPs)**.

| P/N | DESCRIPTION |
|----------|---|
| BG8F | Single-Action, Aluminum, SPST |
| DDPBG2RF | Surface Box, Red, Tapped for 1/2" Conduit |

BG8F

Die-cast **ALARM MANUAL PULL STATION** features a steel back plate and 10A snap action switch. Measures 4 3/4"H x 3 1/4"W x 7/8"D. Meets UL, ULC, CSFM, and MEA requirements.

| P/N | DESCRIPTION |
|-------|--|
| MPS1 | Pull Station, SPST Pigtail |
| MPS2 | Pull Station, SPST w/ Terminal Block |
| MPS3 | Pull Station, SPST w/ Terminal Block & Key |
| MPS4 | Pull Station, DPDT |
| MPS5 | Pull Station, DPST w/ Terminal Block |
| MPSBB | Surface-Mount Backbox for Pull Station |
| GR1 | Hollow Glass Break Rod, 3" x 1/4" |

MPS2

For Additional Break Rods, See Page 122.

STI1100, MPS1

Alarm **PULL STATION PROTECTORS** are made of clear polycarbonate, with or without an 85 dB horn, and helps prevent false alarms and vandalism. Fits most pull stations.

| GR1 | Hollow Glass Break Rod, 3" x 1/4" | |
| GR2 | Solid Glass Break Rod, 3 1/8" x 5/32" Fits Many Popular Pull Stations | |

DH24120SC

The **DH Series FIRE DOOR HOLDERS** are made of durable die-cast metal and finished in high-luster powder-coated chrome. Their extremely low current draw saves on power supplies and backup batteries. Plus installation is easy, thanks to an adhesive template that assures proper alignment without secondary adjustments.

| P/N | DESCRIPTION |
|---------------|--|
| DH24120FC | Door Holder, 24V & 120VAC Semi-Flush Mount |
| DH24120SC | Door Holder, 24V & 120VAC Surface Mount |
| DDPDH24120RC | Door Holder, 24V & 120VAC Recessed Mount |
| DDPDH24120GC1 | Door Holder, 24V & 120VAC Ground Mount, Single Door |
| DHE4AC | Door Holder, 4" Adjustable Extension Rod |

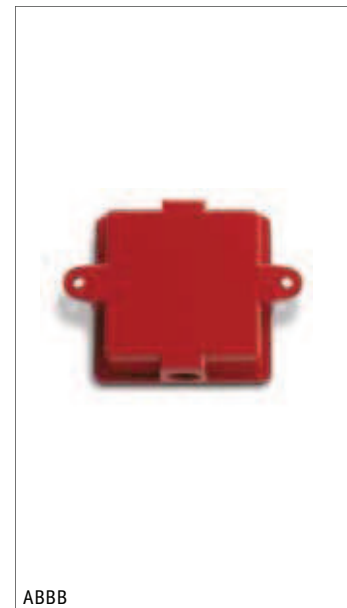

NOTIFICATION APPLIANCES AND ACCESSORIES

For horns, strobes, and horn/strobes with hi-tech features, including easy installation, choose **System Sensor's SpectrAlert® ADVANCE SELECTABLE OUTPUT NOTIFICATION DEVICES**. The plug-in design is simple to install. Just attach the universal mounting plate to a 4" junction box. Then connect the notification appliance circuit wiring to the **SEMS** terminals on the mounting plate. Finally, attach the horn, strobe, or horn/strobe to the mounting plate. The device will rotate into position and hold until it is secured with the capture mounting screw. **SpectrAlert Advance** products work on 12 or 24 volts. The horn is rated at 88+ dB. The **P2RHK120** model is UL listed for outdoor use and can operate in extreme temperatures (-40°F to 151°F), in wet or dry conditions. All **SpectrAlert Advance** sensors are electrically compatible with existing **SpectrAlert** products.

| P/N | DESCRIPTION |
|----------|---|
| P2RHK120 | 120VAC Outdoor Horn/Strobe w/ Box |
| P2R | 12 or 24V Horn/Strobe Selectable Output |
| P2RK | 12 or 24V Outdoor Horn/Strobe w/ Box Selectable Output |
| SR | 12 or 24V Strobe Only Selectable Output |
| HR | 12 or 24V Horn |

| BG457 | Wire Guard for 6", 8", or 10" Bells |
| ABBB | Weatherproof Backbox For Alarm Bells |

A Sound Choice.

The **DBchecker™** is a **SOUND LEVEL METER** that tests audible appliances for the public operating mode of an emergency voice/alarm system. Easy to use, it conforms to ANSI S1.4 Type 2, which is required by NFPA 72. Measuring levels range from 32 dB to 130 dB, at frequencies between 31.5 Hz to 8 kHz. Unit has two equivalent weighted sound pressure levels (A and C) and displays with a resolution of 0.1 dB on a four-digit LCD screen. 9 volt alkaline battery included.

| P/N | DESCRIPTION | EACH |
|------|-----------------------------|------|
| DB01 | DBchecker Sound Level Meter | |

Tests Smoke & Heat

The first of its kind, the **Testifire® DETECTOR TESTER** can create multiple stimuli simultaneously. Meaning now, only one tool is needed to test for smoke and heat. It's even eco-friendly, since the test capsules produce no global warming (GWP) or volatile organic compounds (VOC). Tester is UL certified.

| P/N | DESCRIPTION | EACH |

SOLO809

TRUTEST (DDPSOLO100)

INSPECTION, TESTING, AND MAINTENANCE PRODUCTS

Solo™ SMOKE and **HEAT DETECTOR TESTING TOOLS** offer a professional solution to NFPA 72 Inspection, Testing, and Maintenance requirements. The **SOLO808 Starter Kit** provides the equipment necessary to test smoke detectors on ceilings (up to 12'), while the **SOLO809** version increases ceiling access (up to 20'). The **DDPSOLO461 Heat Detector Testing Kit** has everything you need to successfully test heat detectors fast and easy, as does the **TRUTEST Sensitivity Tester System**, which measures the real sensitivity of smoke detectors (as required by the National Fire Code). **SOLOA4 Aerosol** uses a nonflammable, ozone-friendly, and low-residue formula to provide UL listed and manufacturer-endorsed simulated smoke. For hand-held applications, choose **CHEKKIT**, which uses the same detector-friendly formula.

| P/N | DESCRIPTION | EACH |
|------------|---|------|
| SOL0808 | Starter Kit (Includes 330, 108, FTS2, & Carry Bag) For Testing up to 12' | |

Use Hand Held or With Dispenser

FireTech™ CANNED SMOKE is ideal for checking the functionality of smoke alarms in the widest possible range. It offers efficient testing in a simple-to-use format—hand-held or with use of a dispenser. Plus it provides more tests per can, with fast detector activation. It's also silicone free with no CFCs and uses low GWP propellant. UL/ULC listed.

| P/N | DESCRIPTION |
|------|-------------------------------|
| FTS2 | Smoke Detector Tester, 2.6 oz |

FTS2

SMOKESABRE® is a major step forward in the design of smoke detector test aerosols. When extended, the patented design more effectively vaporizes the aerosol, providing better detector activation, while using less gas per test. Plus the **Sabre** prevents the aerosol from being sprayed too close to the detector, solving the issue of residue build up that plagues other brands of canned smoke.

SmokeSabre contains no silicone, is UL listed, and uses a bio-degradable plastic, making it both recyclable and eco-friendly.

| P/N | DESCRIPTION |
|------------|-----------------------------|
| SMOKESABRE | Smoke Detector Tester, 3 oz |

SMOKESABRE

CANNED AIR is non-flammable, non-residual, and non-abrasive with zero ozone depletion potential. It's also moisture-free and delivers over 80 psi of pressure. Great for cleaning smoke alarms, panels, and office equipment. Comes with plastic delivery tube for hard-to-reach places.

| P/N | DESCRIPTION | EACH |
|--------|---|------|
| AB2000 | Canned Air 2000, 10 oz, (Non-Flammable) | |

AB2000

255

SMOKE ALARM TESTER is great for testing both photo-electric and ionization alarms. Non-toxic, environmentally safe, and offers 100+ bursts. For high, hard-to-reach alarms, try the **DDPN30** with **DDPN59**.

NOTE: Maximum number of extensions is five (34').

| P/N | DESCRIPTION |
|--------|---------------------------------|
| 255 | Smoke Alarm Tester, 2.5½ oz |

| DB01 | DBChecker Sound Level Meter | |

Put any flame detector to the test with **Flamechecker™**. This microprocessor-based **FLAME SIMULATOR** can test ultraviolet, infrared, or combination flame detectors, per NFPA 72. **Flamechecker** provides a safer environment for testing, because it has no flame.

| P/N | DESCRIPTION | EACH |
|-------------|-----------------|------|
| DDPTFLAME01 | Flame Simulator | |

The **DUCT DETECTOR TEST TOOL** is a battery-operated device that tests the pressure and air sampling ability of duct detectors. Testing of this type should be done once a year, as required by NFPA 72, to make sure the duct detector is sampling the airstream properly. The **Ductchecker®** comes with sampling tube plugs and a hard case to protect the tool from damage. Alkaline 9V battery included.

| P/N | DESCRIPTION | EACH |
|--------|-------------------------------------|------|
| DUCT01 | Ductchecker Duct Detector Test Tool | |

Cellchecker™ LEAD ACID PULSE LOAD BATTERY TESTER provides a comprehensive test of a battery's state of charge and condition. With accurate pulse load testing, it tests the battery's ability to deliver current and to maintain voltage under load, not just voltage or internal resistance. The LED indicates percentages of remaining battery capacity too. With a fast test time (15 seconds), this tester is easy to use, battery safe (does not damage or drain the battery), and produces accurate results on new, partially discharged and stored batteries.

| P/N | DESCRIPTION | EACH |
|--------|---|------|
| CELL03 | Cellchecker Lead Acid Pulse Load Battery Tester | |

The **Gold-Plus BATTERY TESTER** is designed to test the most common 6V (1.2AH to 12AH) and 12V (1.2AH to 100AH) lead acid batteries. Quick and easy to use, it displays DC voltage and AH capacity in seconds. Simply choose the battery type and then press "Test". No confusing conversion rates to worry about either—you get the battery's DC voltage followed by the actual AH capacity. This method is also significantly more accurate than measuring voltage and internal resistance. Plus the **Gold-Plus** does not deplete the battery like conventional load testers.

| P/N | DESCRIPTION | EACH |
|----------|-----------------------|------|
| BACTPLUS | 6V/12V Battery Tester | |

Brooks' state-of-the-art **BATTERY ANALYZERS** help you perform all the necessary service on any fire alarm panel or accessory.

Use Individually Or Interconnected

Kidde HARD-WIRED SMOKE ALARMS can be operated as a single station or interconnected with up to 12 **Kidde** smoke alarms on one wiring system. 120VAC. Ten-year limited warranty.

| PN | DESCRIPTION |
|----------|---|
| 21006374 | Ionization, Basic |
| 21006378 | Ionization, 9V Battery Backup |
| 21006376 | Ionization, 9V Battery Backup, Front Loading Battery Door |
| 21006379 | Ionization, Exit Light, 9V Battery Backup |
| SM120X | Relay Power Supply Module |

NEW FEATURES

- Smart Button – one button does it all (Test and Hush).
- Smart Hush® – will temporarily silence nuisance alarms and will not allow hush to be activated unless unit is in alarm.
- Silent Hush® – will not chirp while in hush mode.
- Alarm memory with battery run down protection. Originating alarm flashes red LED, which will shut off to conserve the battery if AC power is not present and the battery voltage drops below 8V.
- Styling features non-yellowing, rigid PVC material.

The **BRK® PHOTOELECTRIC SMOKE ALARM** features a photoelectric smoke sensing chamber, an 85 dB horn, single button test/silence, a green LED power light, and a red LED that indicates the unit is in alarm. Unit includes patented **OptiPath 360 Technology™** for improved performance. Add the relay module for “Smart Interconnect” of **BRK CO** alarms. The **Form-C** contacts, once connected, automatically activates whenever the alarm sounds and will deactivate when the alarm shuts off. Meets UL 217, UL 2034, and UL 539 for accessories. Ten-year limited warranty.

Energizer® Advanced LITHIUM BATTERIES are 25% lighter and have up to two times longer storage life vs. alkaline. Operating in all temperature extremes (-40°F to 140°F), they can last up to 10 years as a backup in AC-powered smoke detectors. They also comply with ANSI 9V dimensional specs for alkaline and lithium batteries.

| MBA | Intermediate to Medium Base Adapter | 3 ³ / ₄ " | |

EXIT AND EMERGENCY LIGHTING TEST EQUIPMENT

The **Gold-Plus BATTERY TESTER** is designed to test the most common 6V (1.2AH to 12AH) and 12V (1.2AH to 100AH) lead acid batteries. Quick and easy to use, it displays DC voltage and AH capacity in seconds. Simply choose the battery type and then press "Test". No confusing conversion rates to worry about either—you get the battery's DC voltage followed by the actual AH capacity. This method is also significantly more accurate than measuring voltage and internal resistance. Plus the **Gold-Plus** does not deplete the battery like conventional load testers.

| P/N | DESCRIPTION | EACH |
|------------|-----------------------|------|
| → BACTPLUS | 6V/12V Battery Tester | |

For exit sign and emergency light service testing, **Brooks'** line of **BATTERY ANALYZERS** also check charging circuitry. Equipped with leads.

| P/N | DESCRIPTION | EACH |
|----------|--|------|
| BBA64 | 4 & 6V Analyzer (Up to 24AH) | |
| BBA612 | 6 & 12V Analyzer (Up to 24AH) | |
| BBAC | Compact Carry Case for Analyzer | |
| BBALEADS | Replacement Leads for Brooks Battery Analyzers | |

The **NON-CONTACT VOLTAGE PROBE** is designed for safety and limited troubleshooting with its three-way voltage alert—beeps, lights, and vibrates. It uses a non-contact method of AC voltage testing and determines if AC voltage is present without touching wires or opening lock nuts. Totally insulated, the **Voltage Probe** has no exposed metal or conductive parts and is CAT IV rated 1,000V.

| P/N | DESCRIPTION | EACH |
|---------|---------------------------|------|
| VP600SB | Non-Contact Voltage Probe | |

Brooks' MULTI-METER is a versatile and compact unit that will measure both AC and DC current and determine continuity of lamps. Unit also has a display locking feature.

VINYL SIGNS (SELF-ADHESIVE)

SELF-ADHESIVE VINYL SIGNS and **LABELS** are silk screened with UV inks, then clear laminated for durability and fade resistance. Mounting surface must be clean, dry, smooth, and non-porous. To mount these on a porous surface, such as brick or concrete block, use our **Sign On!** aerosol adhesive.

ALUMINUM SIGNS

ALUMINUM SIGNS are silk screened, then oven baked for added durability. They also have smooth, finished edges; rounded corners; and pre-drilled mounting holes. Ideal for mounting on porous surfaces, such as concrete block or brick.

RIGID PLASTIC SIGNS

RIGID PLASTIC SIGNS are screen printed with UV inks on both sides. Rigid, tough plastic (1/32" thick) with keyhole slots for easy perpendicular wall mounting.

FLORIDA TRUSS SIGNS, from **Brooks**, are made of engineer-grade prismatic material and available in .040 aluminum with radius corners and four mounting holes or vinyl peel and stick. Measuring 9" x 9" with the compliant 8" x 8" Maltese symbol, these signs are designed to comply with the requirements of Rule 69A-60.0081 of the Florida Fire Prevention Code. This rule requires that any structure that uses light-frame truss-type construction be marked with an approved symbol.

CUSTOM HYDROTEST/6-YEAR LABELS

Choices—just one of many benefits of ordering from **Brooks**. **HYDROTEST** and **6-YEAR MAINTENANCE LABELS** are a necessary reminder to keep your customer's equipment maintenance and inspections up to date. And the benefit is, we'll custom imprint these labels with your company name, address, and phone number so your customer knows who to call. Plus you choose the material—white or blue vinyl or silver metallic that shows "Void" when removed—as recommended in NFPA 10. Minimum order is 1,000 for vinyl and 500 for metallic labels. Sold and priced per 100. Delivery is four to six weeks.

Just Shake To Activate!

FireTech's EZ FILL SIPHON is not only easy but fast—transferring up to 3½ gallons of liquid per minute. The 6' clear hose is durable, flexible, non-toxic, and has a copper nipple that's anti-static and anti-spark for safety. Use to transfer liquids, including fuels, oils, water, paint, and more. To operate, make sure the liquid to be transferred is higher than the empty container. Submerge the **EZ Fill Siphon** and shake it to start the transfer.

FUNNELS, SCOOPS, AND AIR HOSE

These retracting **Brooks' AIR HOSE REELS** are long lasting, thanks to the top-quality materials that go into making them. The **AHR33** is constructed from impact-resistant polypropylene, plus there's 33' of ¼" polyurethane mesh hose. Includes a swivel bracket for wall or ceiling mounting. The **AHR49** is even tougher—made of steel that's covered in a corrosion-resistant powder coating for extra-long life. It comes with 49' of ⅜" rubber hose and includes a multi-position ratchet lock, tension adjustment, and a full-flow swivel that prevents leakage. A guide arm also cuts down on hose wear and tear, plus with nine adjustable positions the reel can be mounted on the ceiling, floor, or wall. 300 psi.

| P/N | DESCRIPTION | EACH |

This **3-WAY VALVE** provides an easy and safe method of venting pressure when charging dry chemical and other low-pressure fire extinguishers. After reaching the correct extinguisher pressure and installing the extinguisher's pull pin, a half turn of the three-way valve handle instantly bleeds off the pressure between the **3WV** and the extinguisher (with minimal loss of nitrogen) for safe removal of the quick disconnect (**QDC** or **QDC2**). Use the **4HN** nipple to attach the quick disconnect. Maximum pressure is 500 psi.

| P/N | DESCRIPTION | EACH |

VALVE HANDLE GRIP for holding squeeze-handle-type valves in the open position. Made in the USA.

| P/N | DESCRIPTION | EACH |
|-----|-------------------|------|
| VHG | Valve Handle Grip | |

NOTE: The above adapters and components are only a partial list of items and equipment needed to safely refill carbon dioxide cartridges and cylinders. These adapters and components should be purchased and used **only** by personnel who are thoroughly familiar with, and understand, the standards published in the Compressed Gas Association pamphlets G-6 and S-1.1, Code of Federal Regulations Title 49, Parts 100 thru 185, and who have received "hands-on" training under the direct supervision of someone experienced in cartridge refilling. If you lack the knowledge, training, or experience described above, **do not** attempt to refill carbon dioxide cartridges or cylinders. Instead, we recommend that you purchase either new cylinders and cartridges or have them refilled by an established service facility. **Failure to adhere to the above instructions could result in serious injury or death!**

HYDROTEST EQUIPMENT

LOW-PRESSURE HYDROTEST PUMP made of cast aluminum. Comes with stainless steel pistons and pressure gauge, with 0–1,000 psi rating. Order hose (**N10H**) and quick disconnect coupler (**QDC**) separately. Shipping weight is 12 lbs.

Certified Genuine

SSPTG1000

The **CERTIFIED TEST GAUGE** for hydrostatic testing of low-pressure cylinders (required by NFPA 10), meets test gauge requirements for both volumetric expansion and modified hydrostatic (proof pressure) testing of DOT-specified cylinders. An additional gauge should be used as a master gauge for a daily system check, as required by NFPA 10. Features 0–1,000 psi range, .25% accuracy (full scale), and 5 psi minor graduations. Externally adjustable dial measures 4½" with the gauge having a ¼" NPT lower connection that fits the **HTP** test pump. Gauge is calibrated and certified prior to shipment. **Brooks** can deadweight test and recertify your test or master gauges in our Charlotte, N.C. location. Send carefully packed gauges (with ALL adaptors removed), marked "GAUGE SHOP," to our Charlotte address. Your re-certified gauge will be shipped back within two business days of receipt (using the same method of shipment unless otherwise instructed). Not for high pressure testing!

WARNING: Not responsible for damage due to adaptors not being removed before shipping! Brooks cannot repair damaged gauges!

The Easy Way To Anchor

The **SnapToggle® ANCHOR** is a heavy-duty hollow wall anchor for use in walls, ceilings, or floors made from gypsum board, drywall with a steel stud, concrete block, and tile over drywall, etc. Its solid-metal channel secures the bolt and out holds wing toggles. The self-drilling **SnapSkrus®** anchors are the only version that locks symmetrically on the wall and ceiling for truly secure fastening. When activated with a screw, the **SnapSkrus** anchor opens with an audible “pop”, locking the anchor on the wall with much greater holding power than other self-drilling anchors.

| P/N | DESCRIPTION | EACH |
|---------|---|------|

Outperforms Shop Rags!

Wypall® WIPERS provide better absorption than a shop rag and come in different thicknesses for different jobs. And since they're disposable, they keep workers healthier and shops cleaner. **Wypall** uses **Hydroknit®** technology to combine excellent absorbing power in a lightweight wiper that is reusable. They also take up less space than rags and install anywhere with a **JUMBO ROLL DISPENSER**.
