

GDI IVD™ Intake Valve Cleaner

Groundbreaking technology reaches intake valves at **150X more concentration** than any premium fuel system additive on the market.

The **first** product PROVEN to clean damaging deposits from intake valves on all gasoline powered engines, without top-engine disassembly.

PROVEN to remove up to 46% of carbon buildup on intake valves in the first hour after use

- ▶ Excellent **GDI (gasoline direct injection)** valve deposit removal
- ▶ Dissolves and lifts deposits from **ALL TYPES** of gasoline powered engines
- ▶ Delivers concentrated PEA (polyether amine) detergency directly to the valves

- ▲ Increases Power and Torque
- ▲ Stabilizes Rough Idle
- ▲ Solves Rough Starting Problems
- ▲ Reduces Emissions
- ▲ Improves Fuel Economy
- ▲ Safe on Turbos and Intercoolers
- ▲ Unique Dual-Action Spray System
- ▲ Use Every 10,000 Miles

Easy to use – Spray past the MAF sensor through the air intake

Deposits form in every fuel system, but the amount and how quickly they form depends on the quality of fuel and oil you use, your driving style and engine type. GDI (gasoline direct injection) engine intake valves are prone to rapid deposit buildup because they never get cooled or washed with fuel. Deposits form in as few as 5,000 to 10,000 miles, restricting proper airflow and increasing operating temps. **SYMPTOMS** include hard starts, rough idle, poor acceleration, reduced fuel economy, excess emissions and power loss.

CRC

1-TANK Power Renew® Display FREE with Purchase of 4 Cases

This easy-to-assemble display will maximize your floor space, attract attention and increase product sales. Sturdy, corrugated construction promotes durability and allows you to restock again and again with CRC 1-TANK POWER RENEW.

- Pre-packed floor display ships complete with 4 cases (24 bottles) of CRC 1-TANK POWER RENEW
- Includes Gasoline Formula #05815 (3 cases) & Diesel Formula #05816 (1 case)
- Easy to assemble — step-by-step, diagrammed instructions included
- Eye-catching display for increased profits at your store or shop

www.crc1tank.com

PROVEN RESULTS after the FIRST use!

Gasoline

- ▲ 97% Total Power Recovery
- ▲ 100% Misfire Recovery
- ▲ 99% Injector Flow Improvement
- ▲ 5.7% MPG Increase

Diesel

- ▲ 100% Power Restoration
- ▲ 99% Injector Flow Improvement
- ▲ 100% Deposit Removal

Get back the power, performance and MPG you've been missing!

Fuel quality differs from pump to pump and, over time, contaminants will cause carbon deposit buildup throughout the fuel system. Carbon deposits harden on intake valves, piston heads, cylinder walls and injectors and lead to decreased MPG, hesitation, stalling, pre-ignition, loss of power and excess exhaust emissions. Today's engines are so finely tuned that even microscopic deposit formations can cause performance issues. Using 1-TANK POWER RENEW will provide a complete fuel system cleanup.

Mass Air Flow Sensor Cleaner

The **ORIGINAL** Mass Air Flow Sensor Cleaner

A dirty Mass Air Flow (MAF) sensor may cause difficult starting, poor acceleration, pinging, rough idle, excess emissions, wasted fuel and power loss. CRC developed Mass Air Flow Sensor Cleaner specifically to clean all of the soils found on the sensors including dust, pollen, soot and air filter oil that can burn onto the hot wires causing faulty read-outs and decreased engine performance.

- Unique precision cleaner specifically developed for cleaning the sensitive components of mass air flow sensors
- Plastic safe formula backed by proven test data to safely and easily clean MAF sensors without damaging sensitive components
- Include MAF sensor cleaning as part of every air filter service

- ▲ PLASTIC SAFE
- ▲ Increases Horsepower
- ▲ Leaves No Residue
- ▲ Reduces Rough Idle
- ▲ Improves Fuel Economy
- ▲ Decreases Hesitation & Pinging
- ▲ Proven Dynamometer Results!

Do not use on vehicles with a Karman Vortex air flow sensor (e.g. Toyota Supra Turbos, Mitsubishi and most Lexus vehicles)

Brake, carburetor or air intake cleaners can damage sensitive MAF components.

Stop using aggressive chemicals like brake, carburetor and air intake cleaners to clean dirty mass air flow sensors! These aggressive cleaners can do serious and expensive damage to sensitive MAF components, especially plastic. CRC Mass Air Flow Sensor Cleaner is the only product backed by proven test data to safely and easily clean MAF sensors without damaging the wires or plastic housing.

Mass Air Flow Sensor Cleaner & Throttle Body & Air-Intake Cleaner

SINGLE USE TWIN PACK: Everything you need to remove harmful dirt and gum accumulation from a vehicle's air intake system.

MASS AIR FLOW (MAF) SENSOR CLEANER

- ▲ PLASTIC SAFE
- ▲ Increases Horsepower
- ▲ Leaves No Residue
- ▲ Reduces Rough Idle
- ▲ Improves Fuel Economy
- ▲ Improves MPG
- ▲ Decreases Hesitation & Pinging
- ▲ Proven Dynamometer Results!

THROTTLE BODY & AIR-INTAKE CLEANER

- ▲ Cleans power-robbing gums and varnishes from throttle body and air intake systems
- ▲ Eliminates hesitation and rough idling
- ▲ Safe for use on coated throttle bodies

CRC MASS AIR FLOW Sensor Cleaner

A dirty MAF sensor hot wire can cause many problems including difficult starting, poor acceleration, pinging, rough idling, excessive emissions, wasted fuel, and power loss. CRC recommends cleaning the sensor every time the air filter is cleaned or replaced.

CRC Mass Air Flow Sensor Cleaner cleans dust, pollen, soot, and air filter oil that can burn onto the hot wires causing faulty read-outs and decreasing engine performance. Most brake, carb, and air intake cleaners are harmful to plastics, rubber o-rings and painted parts causing them to become brittle and weak. CRC Mass Air Flow Sensor Cleaner is PLASTIC SAFE and leaves no residue.

CRC THROTTLE BODY/AIR-INTAKE Cleaner

Dirt and gum accumulation in your throttle body can restrict and cause your throttle plate to stick. The result is decreased performance, stalling and poor airflow.

CRC Throttle Body & Air Intake Cleaner cleans gum and varnish for easier starting and smoother engine performance.

Concentrated Cetane Boost

CRC Concentrated Cetane Boost raises the cetane number of diesel fuel by up to 7 points for faster acceleration, increased MPG & MAX Power!

High-performance diesel engines operate best on fuel with a cetane number of 50 or higher, but most pumps only offer a cetane rating of about 45, with some as low as 35 numbers.

Instant results! This high-performance, alcohol-free diesel additive provides more complete combustion for better performance and drivability.

- Reduces ignition lag-time allowing fuel to ignite earlier in the cycle for more complete combustion
- Contains 100% active additive; no solvents or alcohol
- Reduces the need for downshifting during high-load conditions

- ▲ Boosts cetane (fuel ignitability) up to 7 numbers
- ▲ Increases power for towing
- ▲ Maximizes fuel economy
- ▲ Reduces engine wear
- ▲ Reduces white smoke, emissions and objectionable odors
- ▲ Provides superior cold-temperature starting
- ▲ Reduces misfiring during warm-up and in cold weather

Higher cetane means more efficient combustion!

Most diesel fuel offered in North America has a cetane rating of 40-45, but high-performance diesel engines run best with a cetane number of 50 or higher. If the cetane number in your fuel is too low you could see excess white smoke, reduced power, increased oil sludge, decreased fuel economy and increased overall engine wear. Use **CRC Concentrated Cetane Boost** with every fill up for more complete combustion, fewer emissions, increased performance, faster acceleration and increased MPG.

Use in all diesel engines. Compatible with biodiesel and all types of exhaust emission systems such as diesel particulate filters (DPFs.)

This diesel fuel additive complies with the federal ultra-low sulfur content requirements for use in diesel motor vehicles and non-road engines.

Part No.	Package Type	Net Wt.	Units/Case
05916	Bottle	16 fl oz.	12
Unit Dimensions		Case Dimensions	
7.88"H x 2.13"W x 3.5"D		8.5"H x 7.4"W x 12.6"D	

For best results with up to a 7 point cetane increase, add 1 oz. of CRC Cetane Boost per 5 gallons of diesel fuel (one bottle to 80 gallons).

FiberLock™

HEAD GASKET & BLOCK REPAIR

**EASY,
POUR & GO
FORMULA!**

Reparador de bloque y junta de culatas

K&W® FIBERLOCK™ Head Gasket & Block Repair is easy to use and permanently repairs cracks in head gaskets, engine blocks, intake gaskets, cylinder heads, heater cores, freeze plugs and radiators – **THE ULTIMATE SOLUTION** for all coolant leaks!

FIBERLOCK provides DIYers and installers with an alternative to performing time-consuming and costly repairs.

FIBERLOCK is compatible with **ALL** types of antifreeze and attacks leaks using three unique technologies:

MILITARY-STRENGTH FIBERS

Proprietary lightweight fibers with a high strength-to-weight ratio make an interlocking web-like weave over the breach, ensuring a permanent, multi-layer, impenetrable repair.

Military-Strength Fibers

FIBERLOCK contains sodium silicate reinforced with military-strength proprietary fibers with a high strength-to-weight ratio to make an interlocking web-like weave over the crack or breach ensuring a **PERMANENT, multi-layer, impenetrable** repair.

NANO-TECHNOLOGY

A = A typical block repair product attempting to adhere to a metal surface, but the particles are too large leaving room for leaks.
B = K&W® FIBERLOCK™ with nanoparticles making a stronger more solid bond to the metal and its own particles.

Nanotechnology

FIBERLOCK features nanoparticles so small they reach into cracks and crevices other products can't. This makes the molecular bond of the repair stronger and more solid when permanently hardened to the surface area.

COOL-X™ CONDITIONER

COOL-X™ Conditioner circulates in the cooling system for lower operating temperatures and improved heat transfer long after the repair is made.

Cool-X™ Conditioner

Cool-X™ Conditioner circulates in the cooling system for lower operating temperatures and improved heat transfer long after the repair is made.

Salt Terminator® Engine Flush, Cleaner & Corrosion Inhibitor

Saltwater, salt air and road salt can lead to rust, corrosion, vehicle damage and costly repairs. SALT TERMINATOR dissolves destructive salt debris that can't be removed by water alone and leaves a protective coating, guarding against future salt corrosion. Regular maintenance with SALT TERMINATOR can help extend the life of vehicles, trailers, tools, gear and equipment. When used as a motor flush, SALT TERMINATOR also cleans and protects internal marine engine components, extending the life of outboards, sterndrives, jet boats and personal watercraft. Great for cleaning and protecting trailers and flushing trailer brakes too.

Not just for salt corrosion! Freshwater will also corrode internal engine components.

- Spray on SALT TERMINATOR to clean and protect virtually any surface.
- The SALT TERMINATOR Mixer automatically dilutes the concentrate and siphons it through a standard garden hose.
- No scrubbing or rinsing required!

Hundreds of Applications Including:

- ▲ Marine
- ▲ Automotive
- ▲ RV
- ▲ Powersports
- ▲ Heavy Trucking
- ▲ Construction
- ▲ Utility Service
- ▲ Hardware
- ▲ Home

Removes heavy salt deposits without leaving behind a spotty residue like other similar products.

CRC is committed to developing safe, environmentally responsible products. The SALT TERMINATOR formula is biodegradable, contains no ozone depleting chemicals, no carcinogens, no hazardous air pollutants, no nonyl phenols, no heavy metals, no phosphates, and no butyl.

**AEROSOL FORMULA
IS PERFECT FOR
HARD-TO-REACH AREAS**

Rust Converter

INSTANTLY NEUTRALIZES RUST

CRC Rust Converter instantly changes rusted surfaces into primed, paintable surfaces!
Non-flammable formula contains no known carcinogens like other competitive products.

- Prevents future rusting by sealing out moisture and other outside elements.
- No more sanding and scraping! Simply remove loose rust and apply product.
- Fast-drying coating. Second coat may be applied in 20 to 30 minutes.
- Excellent primer. Treated surfaces may be used as a finish coat, or painted over with an oil-based paint.

Converts Rust to a Tough Black Primer in One Easy Step

AEROSOL:

Spray on any rusted metal surface. Rust will instantly be converted to a black primer.* Protective coating helps prevent future rust and may be painted if desired.

BULK LIQUID:

Provides the same great performance as the aerosol product. Brush on the fast-drying, milky-white vinyl/acrylic coating to stop rust in its tracks.

Use on cars, truck frames/beds, boats and trailers, railings, fences, iron or steel furniture, equipment, tools and more. Hundreds of applications for Automotive, Marine, RV, Powersports, Heavy Trucking, Construction, Utility Service, Hardware and Home.

Brākleen®

BRAKE PARTS CLEANER – WITH POWER JET™ TECHNOLOGY

Meets All State & Federal VOC Regulations

CRC Brākleen® is the best non-chlorinated product on the market, specifically formulated to meet VOC restrictions nationwide! This powerful formula removes brake fluid, grease, oil and other contaminants fast and effectively. Use on all brake related parts including rotors, cylinders, drums, linings, brake shoes, calipers, clutch discs and disc brake pads. Safe for ABS, disc and drum brakes. Use Brākleen® 05050 and 05054 where compliance calls for a Low VOC, chlorine-free product.

NEW!
Power Jet™
Spray Nozzle

The Strongest Name in Brake Parts Cleaner Just Got STRONGER!

CRC Brākleen® utilizes Power Jet™ technology. This new spray nozzle produces a burst of product that forcefully breaks away contaminants, while the formula cleans and degreases instantly. The strength behind the Power Jet™ spray nozzle means faster work, requiring less product per job. The ergonomically-designed Power Jet™ spray nozzle is easier to press, giving the user a quick, precise shot of product where needed.

More Essential Brake Maintenance Products

Disc Brake Quiet

Forms a water resistant, high temperature film that instantly absorbs vibrations and quiets disc brake noise. For use on the back of non-shimmed disc pads.

- 05016 4 fl. oz. tube
- 05017 9 oz. aerosol
- 05115 .5 fl. oz. carded

De-Squeak™ Brake Conditioning Treatment ▲

Spray on rotors and drums on every brake job to eliminate and prevent brake noise. Metallic formula fills microscopic imperfections on rotor surfaces for smoother braking and aiding in the friction mating/break-in process.

- 05080 11.25 oz.

Synthetic Brake & Caliper Grease

Synthetic grease prevents caliper binding, vibration and corrosion. Contains molybdenum, PTFE and graphite for an extreme temperature range of -40°F to 400°F. Use on every brake job!

- SL3301 2.5 oz. tube in display
- SL3302 1/3 oz. carded packets
- SL3303 12 oz. tub
- SL33011 2.5 oz. carded tube

BRAKE LUBRICATION AND NOISE SUPPRESSION

Lubricate all metal-to-metal contact points. Synthetic grease will not freeze, melt or wash out, like silicone-based greases.

Synthetic Brake & Caliper Grease

Clean and lubricate all shoe landings. This will ensure smooth operation of the shoes. Lubricate all parking brake hardware and shoe adjusters to prevent binding & corrosion.

Select the appropriate grease based on usage: daily driver, late-model spec, high performance or 4-wheel drive.

Wheel Bearing Grease

bearing

wheel hub

Synthetic Brake & Caliper Grease

To prevent corrosion build-up, lubricate the underside of the rotor hat or the hub facia.

bolt & washer

brake pads

caliper

Synthetic Brake & Caliper Grease

Lubricate backs of all shimmed disc pads. This will prevent corrosion and brake noise.

Disc Brake Quiet

Use on all non-shimmed disc pads.

brake shoe guide

adjuster assembly

rotor

bearing

washer

nut

Wheel Bearing Grease

Clean and repack bearings at every brake job. Do not mix different grease bases.

Freeze-Off® Super Penetrant

Super penetrant breaks through corrosion, gums and varnishes.

Bräkleen®

Thoroughly clean brakes BEFORE disassembly. This will allow for proper inspection.

▲ This product is Extremely Flammable. Do not apply while equipment is energized.

Silaramic[®] Brake System Grease

Pure silicone dry-film lubricant fortified with a high concentration of a unique ceramic lubricant. Protects brake systems under the most extreme conditions and braking temperatures.

Proven to OUTPERFORM ordinary caliper and brake system greases

- Superior additive package provides lasting protection against friction, wear and corrosion
- Excellent protection in both wet and dry conditions; will not wash out or melt
- Ideal for use on ceramic brakes which operate at extremely high temperatures

- ▲ Protects Against Uneven Pad Wear
- ▲ Prevents Rust and Corrosion
- ▲ Reduces Brake Noise and Vibrations
- ▲ Lasts the Life of the Pads and Shoes
- ▲ Compatible with Brake System Rubber and Plastics, Including Nitrile

Extreme Temperature Range:
-50°F to 3,000°F (-46°C to 1649°C)

USAGE: Use on all brake systems and brake components, calipers, caliper hardware, mating surfaces and backing plates, bushings, holes, pins, inserts, anchors, bolts and boots.

CRC SILARAMIC DRAMATICALLY REDUCES METAL-TO-METAL CONTACT BETWEEN OPPOSING SURFACES AND REDUCES NOISE

NON-BOUNDARY LUBRICANT

EXTREME LOADS

Hydrodynamic lubrication failure and lack of noise reduction

SILARAMIC[®] BRAKE SYSTEM GREASE

EXTREME LOADS

SILARAMIC prevents metal-to-metal contact under conditions of high loads and dampens noise.

SAE J2521 TEST RESULTS

Test evaluated brake pad wear and braking noise – no lubrication versus SILARAMIC applied to all moving hardware and back of brake pads

- ▶ **SILARAMIC** reduced the High Frequency of Noise in the 14 kHz to 17 kHz range by 93%.
- ▶ **SILARAMIC** extended the life of the brake pads. During testing, the inboard brake pad had 49% less wear, and the total reduction in wear of inboard and outboard brake pads was 30%.

Test

Test Method

Typical Results

Dropping Point	ASTM D-2265	None
Flash Point	ASTM D-92	550°F
Pour Point	ASTM D-97	-50°F
Rust Preventative Test	ASTM D-1743	Pass
Corrosion (50 hrs. 5% Salt Spray)	ASTM B-117	No Rust
Bleed % (24 hrs. @ 212°F)	FS 791-321-2	.2
Water Washout @ 100°F, % Loss	ASTM D-1264	0.25

Freeze-Off® Super Penetrant

The latest in penetrant technology! CRC FREEZE-OFF Super Penetrant is a unique formula that uses Freeze-Shock Action to FREEZE, PENETRATE and LOOSEN rusted and corroded mechanisms.

Upon contact, FREEZE-OFF immediately drops the temperature of the area in direct contact with the spray. The freezing effect cracks the rusted surface, allowing FREEZE-OFF to reach deeper and work more effectively than other penetrants to loosen corroded nuts, bolts, hinges, locks and more!

- Freezes and cracks rust for deeper penetration and faster results
- Dissolves rust, gums and corrosion
- Lubricating film displaces water and prevents corrosion

- ▲ Automobiles
- ▲ Agricultural equipment
- ▲ Household items
- ▲ Plumbing fixtures
- ▲ Boats
- ▲ Watersports equipment
- ▲ Sporting goods

CRC FREEZE-OFF OUTPERFORMS THE COMPETITION!

Freeze-Off® Super Penetrant Display

FREE with Purchase of 4 Cases

This easy-to-assemble display will maximize your floor space, attract attention and increase product sales. Sturdy, corrugated construction promotes durability and allows you to restock again and again with CRC FREEZE-OFF.

- Pre-packed floor display ships complete with 4 cases (48 cans) of CRC FREEZE-OFF
- Easy to assemble — step-by-step, diagrammed instructions included
- Eye-catching display for increased profits at your store or shop
- FREEZE-OFF freezes and cracks rust for deeper penetration and faster results

Great for freeing frozen or rusted parts on:

- ▲ Automobiles, trucks, motorcycles
- ▲ Agricultural equipment
- ▲ Household items
- ▲ Plumbing fixtures
- ▲ Boats
- ▲ Watersports equipment
- ▲ Sporting goods

1-TANK Power Renew® for Gasoline

Treat your engine to 1-TANK POWER RENEW and get back the power, performance and MPG you've been missing!

Most fuel additives on the market need to be used with every fill up in order to deliver the claims on the bottle. CRC 1-TANK POWER RENEW contains the highest concentration of Polyether Amine (PEA) detergency on the market to provide unbeatable one-tank cleanup with proven test results!

PROVEN RESULTS after the FIRST use!

Robust one-tank cleanup in 100% of tested high-mileage vehicles.

- ▶ **97%** Total Power Recovery - **PROVEN!**
- ▶ **100%** Misfire Recovery - **PROVEN!**
- ▶ **99%** Injector Flow Improvement - **PROVEN!**
- ▶ Average **5.7%** MPG Increase - **PROVEN!**

Money Back Guarantee!

INTENSIVE Fuel System Cleanup Lasts 4,000 Miles!

Why is a Complete Fuel System Cleanup Needed? Fuel quality differs from pump to pump and, over time, contaminants in fuels will cause carbon deposit buildup throughout the fuel system. Carbon deposits harden on intake valves, piston heads, cylinder walls and injectors and lead to decreased MPG, hesitation, stalling, pre-ignition, loss of power and excess exhaust emissions. Today's engines are so finely tuned that even microscopic deposit formations can cause performance issues.

Single Use Funnel for easy access to CAPLESS GAS TANKS, Ships Complete with Counter Display!

Real Tests • Real Data • Real Results

CRC 1-TANK POWER RENEW attacks and removes carbon deposits from all areas of the fuel system after just one dose.

DEEP CLEANS:

- ▲ Indirect AND Direct Fuel Injectors – just one inefficient injector will affect overall engine performance and MPG
- ▲ Intake Valves
- ▲ Combustion Chambers
- ▲ Emissions Control Systems
- ▲ Carburetors
- ▲ Intake Ports
- ▲ Cylinder Heads
- ▲ Piston Tops
- ▲ The ENTIRE fuel system

Restores fuel system to LIKE-NEW:

- ▲ Reduces engine knock, ping and run-on
- ▲ Restores lost engine performance
- ▲ Reduces the need for higher octane fuels
- ▲ Intensive deposit cleanup allows for easier cold starts, faster acceleration and better airflow
- ▲ Works in gasoline and ethanol blends
- ▲ Features G2P® TECHNOLOGY for cleaner emissions!

1-TANK Power Renew[®]

DIESEL FORMULA

Treat your diesel engine to 1-TANK POWER RENEW and get back the power, performance and MPG you've been missing!

Most diesel additives on the market need to be used with every fill up in order to deliver the claims on the bottle. After the first use, CRC 1-TANK POWER RENEW delivers a powerful SHOCK to your dirty diesel fuel system resulting in unbeatable one-tank cleanup that lasts up to 4,000 miles!

PROVEN RESULTS after the FIRST use!

Robust one-tank cleanup in 100% of tested high-mileage vehicles.

- **100%** Power Restoration – **PROVEN!**
- **99%** Injector Flow Improvement – **PROVEN!**
- **100%** Deposit Removal – **PROVEN!**
- Cleans **INSIDE** the injectors and prevents internal diesel injector deposits (IDID).

UNBEATABLE performance in deposit removal!

Why is a Complete Fuel System Cleanup Needed?

Diesel quality differs from pump to pump and, over time, contaminants in diesel will cause carbon deposit buildup throughout the fuel system. Carbon deposits harden on intake valves, piston heads, cylinder walls and injectors and lead to decreased MPG, hesitation, stalling, pre-ignition, loss of power and excess exhaust emissions. Today's engines are so finely tuned that even microscopic deposit formations can cause performance issues.

Money Back Guarantee!

Real Tests • Real Data • Real Results

CRC 1-TANK POWER RENEW attacks and removes carbon deposits from all areas of the fuel system after just one dose — proven by exceeding the industry standard XUD-9 and new CEC DW10 engine tests.

Intensive 1-TANK POWER RENEW Restores fuel system to LIKE-NEW in just ONE TANK!

- The most powerful diesel system cleaner available.
- Increases MPG.
- Restores lost engine performance and boots power.
- Intensive cleanup for easier cold starts, faster acceleration and better airflow.
- EXCELLENT cleanup and prevention of sticky injectors frequently found in modern common rail (CRDI) systems.
- Beyond the nozzle cleaning of conventional products, 1-TANK POWER RENEW cleans INTERNAL deposits (IDID) from today's complex diesel injectors.
- Works in diesel and biodiesel blends up to B20.
- Features G2P® TECHNOLOGY for cleaner emissions!

POWER THAT LASTS!
Clean up lasts months! You won't need any other fuel additive again!

1-TANK Power Renew™

COMPLETE DIESEL SYSTEM CLEANUP IN ONE TANK

3X More Potent than Leading Brands!

Treat your engine to **1-TANK Power Renew™** and get back the power, performance and MPG you've been missing!

CRC Diesel 1-TANK POWER RENEW is a concentrated one-tank cleanup that delivers a powerful SHOCK to your dirty fuel system. Made with the maximum available chemistry it's the most powerful diesel fuel system cleaner on the market!

Carbon deposits can build up and harden on intake valves, piston heads, cylinder walls and injectors leading to decreased MPG, hesitation, stalling, loss of power and excess exhaust emissions.

1-TANK POWER RENEW features G2P® technology for aggressive deposit and emissions cleanup. This breakthrough formula provides MAXIMUM deposit removal and power restoration in just one tank of fuel — proven by *exceeding* the industry standard XUD-9 and new CEC DW10 engine tests.

Product Benefits

- Unparalleled one-tank cleanup
- Maximum power restoration and deposit control
- Helps increase MPG
- Helps your diesel engine run more efficiently
- Boosts power instantly
- Cleans injectors and prevents fouling
- Helps free sticky injectors
- Reduces exhaust emissions
- Works great in BIODIESEL blends
- EXCELLENT cleanup for the sticky injectors frequently found in modern common rail systems

Power that LASTS

Cleanup lasts months – no need for everyday fuel additives!

Chain Lube

CRC Chain Lube is an advanced, high-performance, synthetic lubricant providing excellent protection for chains, open gears and exposed metal surfaces subject to severe loading.

Sprays on like a liquid to penetrate deep; sets up like a grease for outstanding load-bearing protection

- Advanced anti-wear additives provide excellent protection for metal surfaces subject to severe loading
- Waterproof formula bonds to chain and wear surfaces
- Prevents corrosion, reduces load stress and extends chain life by reducing friction and wear that cause metal fatigue

- ▲ Safe on O-rings, X-rings and Z-rings
- ▲ Works excellent in wet conditions
- ▲ Won't fling off or wash out
- ▲ Dries fast; won't attract dirt
- ▲ Extends chain life
- ▲ Low odor
- ▲ Clean appearance

Extends Chain Life

Use as a lubricant and corrosion inhibitor on all types of drive chains, open gears, hoists, winches, pulleys, fork lifts, rollers, garage doors, bushings, seals, O-rings, X-rings, Z-rings and wire ropes.

Not for use in CA

DERMATONE® Sunscreen Products

Extreme temperatures and altitudes paired with sweat, water, dirt or worse can leave skin vulnerable without the right protection. **DERMATONE** Sunscreen Products are designed for the most rigorous conditions, offering waterproof, sweatproof, non-greasy, UVA, UVB and wind burn protection that endures the outdoors as long as you do.

DERMATONE Sunscreen Products are fragrance free and won't degrade fly lines or fishing equipment.

Available in a variety of convenient packaging:

- ▶ MK91 NO-TOUCH Sunscreen Stick **SPF 50**
- ▶ MK92 Sunscreen Spray **SPF 30**
- ▶ MK93 Angler's Sunscreen Tottle Bottle with Carabiner **SPF 30**
- ▶ MK94 Angler's Sunscreen Lotion Tube **SPF 30**
- ▶ MK90 Medicated Lip Balm **SPF 23**

Perfect for:

- ▶ Golf
- ▶ Fishing
- ▶ Skiing
- ▶ Snowboarding
- ▶ Boating
- ▶ Swimming
- ▶ Every day use

DERMATONE is the official sunscreen of Army Bass Anglers & Artic Row

DERMATONE Medicated Lip Balm is a denser formula that offers superior coverage and longer-lasting protection. Tested in almost every imaginable environment, DERMATONE Medicated Lip Balm provides moisturizing lip protection against the chapping wind, biting cold and blazing sun. SPF 23 and cold sore relief with menthol and phenol. DERMATONE Medicated Lip Balm is available in a .15 oz. stick.

Power Lube®

MULTI-PURPOSE LUBRICANT

CRC's expertise with lubricants began back in 1958 with the development of the company's very first product, "CRC Corrosion Inhibitor." Fifty years later, CRC is still the most respected and trusted name among professional technicians.

CRC Power Lube® Multi-Purpose Lubricant is specifically formulated to meet today's vehicle and general shop requirements. Power Lube® quickly cleans, penetrates, lubricates and protects against corrosion. Power Lube® stops squeaks, loosens rusted parts and displaces moisture. And Power Lube® is odor-free.

Don't pay more for a trendy straw! Power Lube® is a superior product without unnecessary added packaging costs.

- Odor free
- Penetrates fast, stops squeaks
- Plastic safe, non-staining
Hit the hinges and door slides during regular maintenance for added customer satisfaction.
- Clings to metal for long-lasting lubrication and corrosion protection
The next time you pull a tire/wheel, hit the lugs with Power Lube to protect against corrosion and ensure easy removal of the nuts during the next rotation.

STA-PLEX™ Extreme Pressure Premium Red Grease

Infused with extreme pressure, anti-wear and anti-oxidation additives. Excellent for lubricating and protecting equipment from harsh elements, friction and corrosion. Withstands heavy loads for extended periods of time and resists throw-off.

- **Heavy Duty Formula.** NLGI Grade 2, aluminum complex grease extends operating service life of equipment.
- **Withstands High Temperature and Pressure.** Will not break down, harden or separate. Waterproof.
- **Penetrates to Form a Thick Film.** Penetrates deep then quickly thickens to form a long-lasting grease.
- **Excellent as a break-in lubricant** for bearings.

Use On:

- ▲ Roller Bearings & Chains
- ▲ Fifth Wheels
- ▲ Hitches, Hinges & Latches
- ▲ Cables & Pulleys
- ▲ Overhead Door Tracks
- ▲ Guide Rails
- ▲ Cams & Pistons
- ▲ Heavy Equipment

Reduces friction and vibration, while preventing corrosion!

Ideal for many automotive, heavy duty, marine, agricultural and industrial applications. Reduces wear, galling and scarring. Red color and smooth texture provide easy visual inspection of film coverage.

Di-Electric Grease

TECHNICIAN GRADE

Grasa Dieléctrica

CRC® Di-Electric Grease seals, protects & insulates indoor/outdoor electrical connections and bulbs with a quick, no mess application. This innovative Precision Tip Applicator allows for a thin stream of grease to be applied directly on the work area.

CRC® Di-Electric Grease prevents rust & corrosion by repelling moisture, rust, road salt, dirt and oils that can penetrate and harm electrical connections. Left unprotected, these connections may produce arcing, shorts and electrical fires.

Applications include: light bulb sockets, lamps, electrical connections, headlights/taillights, battery terminals, spark plug boots, trailer connectors, wire connectors, switches, fuses, circuit breakers, and much more!

Use CRC Di-Electric Grease at home, in your car, truck or boat and on equipment to ensure maximum performance!

Ice-Off®

WINDSHIELD SPRAY DE-ICER

Desprende el hielo

Melts ice, snow and frost from windshields on contact.

Thaws frozen locks.

Effective to sub-zero temperatures.

Helps prevent re-freezing.

Harmless to car finish.

Use on:

- Car and truck windows
- Locks and latches
- Wipers

Experience the POWER of CRC ICE-OFF with PowerJet®!

CRC ICE-OFF features POWERJET technology with a new spray nozzle that produces a burst of product to forcefully break apart ice and defrost windows instantly. The strength behind the POWERJET spray nozzle means faster results, and the ergonomically-designed nozzle is easier to depress and control, giving a quick shot of ICE-OFF right where it's needed.

QC-82™ Pro-Strength Degreaser

CRC QC-82 Pro-Strength Degreaser quickly and safely removes grease, grime, oil, rubber marks and other contaminants from all types of hard surfaces.

QC-82 Pro-Strength Degreaser cleans instantly, dries fast and leaves no residue.

- ▶ Quickly Breaks Down and Removes Grease, Oil, Tar, Rubber Streaks and Road Grime
- ▶ Safe for Clearcoats and Vinyl
- ▶ Leaves No Residue
- ▶ Spray On-Wipe Off – No Rinsing Necessary

Use On:

- ▲ Automotive Parts & Exteriors
- ▲ Motorsports Vehicles
- ▲ Maintenance Equipment
- ▲ Heavy Machinery
- ▲ Home & Garage
- ▲ Chrome
- ▲ Stainless Steel
- ▲ Metallic Parts

Safe on painted surfaces and plastics!

CRC QC-82 Pro-Strength Degreaser is a foaming water-based degreaser developed without free alkali, ammonia or caustics resulting in a mild pH, so it's safe on painted surfaces, plastics, vinyl and rubber. Although QC-82 has a mild pH, it's strong enough to breakdown grease, road grime, oil, rubber marks and other oil-based contaminants.

Inner Slide Lube

EXTENDS EQUIPMENT LIFE

CRC Inner Slide Lube lubricates and increases slide motion, extending forklift equipment life. Fortified with molybdenum disulfide and extreme pressure additives to resist pound-out and prevent destructive metal-to-metal contact. Designed for forklift inner slide rails. Protects against rust and corrosion.

Benefits:

- Molybdenum disulfide fortified to reduce friction and wear
- Extreme pressure additives resist pound-out under severe lubrication requirements
- Adheres to metal surfaces
- Prevents destructive metal-to-metal contact
- Eliminates galling

Technical Data:

- Appearance/Odor: Black color, Petroleum odor
- Physical State: Aerosol
- Flash Point: 20°F
- Boiling Point: 200 - 211°F
- Specific Gravity/Density: 1.17
- Solubility: Not soluble in water
- Vapor Density: BT 3.2 - 3.5
- Vapor Pressure: 45.0 mmHG

Motor Treatment

CARBON CLEAN-OUT – INTERNAL ENGINE AND CRANKCASE CLEANER

Tratamiento para motor

CARBON CLEAN-OUT

CRC MOTOR TREATMENT cleans and lubricates internal fuel and oil systems for a smoother running engine, increased MPG, restored power and reduced emissions.

Carbon, a byproduct of combustion, is typically expelled through the exhaust system but some can collect on built-up gum and varnish residue in your engine. Carbon deposits can harden on intake valves, piston heads, cylinder walls and injectors leading to decreased MPG, hesitation, detonation (knock), pre-ignition, stalling, loss of power and excess emissions. Carbon deposits in your engine are a serious problem.

ADD TO FUEL

CRC MOTOR TREATMENT cleans fuel injectors, carburetor jets, intake valves & pistons as you drive. Lubricates upper cylinders, cures hesitation and pings, restores power and pick-up, removes moisture and stabilizes fuel. Use for engine storage. Works in gasoline, diesel and ethanol fuels. For a more aggressive cleaning, CRC MOTOR TREATMENT can be added directly into the combustion chamber through a vacuum line.

SYN-GO® Technology leaves behind a synthetic lubricant for added protection against the drying effect of ethanol in fuels and lubricates the upper cylinders.

ADD TO OIL

Over time, prolonged idle, stop and go driving, dirt, moisture and extreme operating temperatures can cause sludge build-up in motor oil resulting in power and performance loss. CRC MOTOR TREATMENT liquefies built-up gum and varnish and releases carbon deposits cleaning sticky valve lifters, piston rings and PCV systems slowly, while you drive, to prevent chunks of sludge from clogging oil flow. Removes moisture from oil.

Use on:

- cars
- motorcycles
- lawn equipment
- trucks
- dirt bikes
- agricultural equipment
- boats
- RVs
- ATVs
- all 2-cycle, 4-cycle and rotary engines

VisiClear™ Display Cleaner

& ELECTRONIC SCREEN CLEANER

CRC VisiClear™ Display Cleaner & Electronic Screen Cleaner

safely cleans TFT, LCD, Plasma, CRT and Touch Screens.

This unique foam cleaner clings, won't drip, and is alcohol and ammonia free. Streak-free formula leaves no residue and dries fast.

Product may be applied with a clean microfiber cloth or sprayed directly onto the display surface.

Key Benefits

- Cleans without streaking surface
- Clings to surface, no drips, no runs
- Leaves no residue behind on screen
- Dries fast
- Alcohol & Ammonia Free (No solvents)
- Will not damage screen protective coatings

Use on:

- Plasma displays / LCD displays
- Touch screen displays
- Laptops and notebook computers
- Camcorders
- Cell phones and PDAs
- Copy machines
- GPS navigation systems
- CRT monitors

Removes:

- Fingerprints
- Nicotine film
- Dust and dirt

Top Engine Cleaner

ENGINE TUNE-UP & CARBON CLEAN OUT

Afinador y descarbonizador de motores

16" Extension Tube

Problem:

- Engine knock (detonation)
- Rough-idle
- Loss of power
- Pre-ignition stalling
- Reduced engine performance
- Excessive carbon build-up

Solution: CRC Top Engine Cleaner

Carbon, a byproduct of combustion, is typically expelled through the exhaust system but some can collect on built-up gum and varnish residue in your engine. Carbon deposits can harden on intake valves, piston heads, cylinder walls and injectors. Carbon deposits left untreated in your engine are potentially a serious problem, leading to reduced engine performance, increased fuel consumption, rough idling and engine knocking, pinging or run-on.

CRC TOP ENGINE CLEANER cleans and lubricates internal engine systems for improved engine performance, solves many rough-idle problems and increases MPG, restores power and reduces emissions.

Spray into Throttle Body

- Ensure vehicle is well ventilated. Exhaust will be extreme as internal motor is being cleaned. Do not treat vehicle in enclosed garage.
- With vehicle in park, run engine until normal operating temperature is reached. Idle engine.
- Locate throttle body and insert extension tube about 2 inches past the throttle plate.
- Increase engine idle to about 2,000 RPM and spray CRC Top Engine Cleaner directly into the Throttle Body until entire can is dispensed (about 2 to 3 minutes).
- Turn engine off and allow to heat-soak for 15-20 minutes.
- Restart engine and drive until white smoke is gone.
- For optimum results, changing the oil and oil filter after running a top end cleaner through your engine is recommended.

To prevent future carbon build-up and improve engine efficiency, use CRC Top Engine Cleaner every 5,000 miles.

Use on:

- cars • trucks • boats • ATVs
- RVs • motorcycles • dirt bikes
- lawn equipment • agricultural equipment • all 2-cycle, 4-cycle and rotary engines

CRC Magic Oil™ Lock Lube & De-icer

**LONG LASTING GRAPHITE FORMULA
FREES SEIZED & FROZEN LOCKS**

CRC MAGIC OIL™ LOCK LUBE & DE-ICER frees frozen or seized locks and mechanisms and loosens rusted parts. Small enough to fit anywhere from glove boxes and desk drawers to toolboxes.

Key Benefits

- Provides long lasting lubrication
- Lubricates lock cylinder
- Functional over a wide temperature range
- Reduces friction and wear
- No mess application
- Quick drying
- Frees frozen locks
- Frees seized or stiff mechanisms
- Excellent water resistance
- Lubricates without leaving a sticky residue
- Safe on all metal surfaces, does not stain

TECHNICIAN GRADE

Wire Dryer

DRIES WET IGNITION SYSTEMS FOR EASY STARTS

Seca los sistemas de encendido que estén en contacto con el agua para brindar un arranque fácil

CRC® Wire Dryer starts wet engines and instantly drives out moisture that can cause electrical failure and hard starting. Its waterproof film has a unique viscosity allowing for deep penetration in hard-to-reach systems to displace more water, faster.

Start wet engines & reduce wear...

In addition to driving out moisture and starting your engine, **WIRE DRYER** leaves a fine coating on ignition and electrical systems protecting against weather, rust and corrosion. **WIRE DRYER** reduces wear on starters, engines, distributors and batteries and ensures proper electrical current flow.

Ensure electrical current flow here...

WIRE DRYER can be used on all on and off-road equipment and vehicles. Cleans and protects:

- Distributors
- Ignition Coils
- Starters
- Electrical Contacts
- Batteries
- Spark Plugs
- Wiring Harnesses
- Leads, Cables & Wires

Restores electrical properties to water or flood damaged equipment!

Perfect for: Automotive, Marine, Heavy Duty, Farm & Household Applications!

5-Shelf Floor Display

RETAIL MERCHANDISING UNIT

**#05700
CUSTOMIZABLE
FLOOR DISPLAY**

Easy to assemble, customizable floor display will maximize your floor space, attract attention and increase product sales. You choose the display header graphics and the products you want to feature!

- Eye-catching floor display with full-color graphics gives a high-quality appearance
- Open shelving allows products to be visible from all sides
- Durable and sturdy PVC construction will stand up to store traffic and outlast traditional cardboard displays
- Small footprint conserves valuable floor space
- Assembled display dimensions: 16" width x 60" height x 14" depth
Header dimensions: 15.25" width x 11.75" height

Each shelf will accommodate these standard CRC product containers:

- 20 aerosol cans
- 20 small additive bottles (12 fl oz)
- 12 large additive bottles (32 fl oz)
- 20 PhaseGuard4® 8 fl oz bottles
- 12 PhaseGuard4® 16 fl oz bottles
- 9 PhaseGuard4® 32 fl oz bottles
- 12 round Marykate® quart bottles
- 9 Marykate® or HydroForce® trigger spray bottles
- 24 Sta-Lube® grease cartridges
- 9 Sta-Lube® grease cans
- 4 gallon containers (bottom shelf only)

PhaseGuard4® Stor & Go™

ETHANOL FUEL TREATMENT • CORROSION PROTECTION FOR SMALL ENGINES

Tratamiento para combustible etanol

Protección contra corrosión para motores pequeños

CRC PHASEGUARD4 STOR & GO Small Engine Formula provides the maximum protection available to prevent harmful phase separation of fuel that can lead to equipment failure. It protects tools and equipment from damage caused by ethanol fuel, cleans fuel system components, stabilizes fuel and restores power.

PHASEGUARD4 STOR & GO is *absolutely essential* for operation and storage of lawn mowers, snowblowers, chain saws, roto tillers, leaf blowers, garden tillers, lawn tractors, edgers, trimmers, brushcutters, chippers, augers, saws, atvs, snowmobiles, motorcycles, scooters and more.

PHASEGUARD4 STOR & GO comes packaged with 50 1 fl oz units per convenient display carton for retail placement at the sales counter. This product is a great consumer impulse buy and something virtually every homeowner needs!

1 fl oz STOR & GO packet treats up to 2.5 gallons in-use or for storage. May be used in all gas or gas/oil blends. (Not for use in diesel fuel.)

Counter Display Carton Holds 50 STOR & GO Packets for Easy Retail Sale

CRC Industries Product Technical Brief

CHOOSING THE RIGHT PRODUCT...

CRC Industries, Inc. recommends using CRC® Parts Washer Solvent, part number 05067 in your parts washer system to quickly and effectively clean parts. CRC also carries 1 gallon and 5 gallon bulk package Bräkleen® for cold parts dip cleaning.

Here are more details about these products...

Parts Washer Solvent

CLEANER/DEGREASER

CRC® Parts Washer Solvent is a superior immersion parts cleaner that quickly and effectively removes grease, oil, dirt and other contaminants from metal and non-metal parts. This Zero VOC formula contains no chlorinated solvents and will not harm working parts. Specifically formulated as a low vapor pressure solvent, this cleaner meets VOC regulations related to parts washer solvents.

Part No.	Package Type	Net Contents	Units/Case	Unit Dimensions	Case Dimensions
05067	pail	5 gallon	1	13.75" H x 11.25" W x 11.25" D	13.75" H x 11.25" W x 11.25" D

Bräkleen® – Non-Chlorinated

BRAKE PARTS CLEANER

CRC® Bräkleen® Non-Chlorinated Brake Parts Cleaner quickly removes brake dust, brake fluid, grease and other contaminants from all types of brake systems. Use on all related brake parts including rotors, cylinders, drums, linings brake shoes, calipers, clutch discs and disc brake pads. Safe for ABS, disc and drum brakes. ATTENTION: This product is recommended for hand cleaning or as a dip for parts listed above.
