

Insulated Foam Cups, Containers, Bowls, & Lids

Dart is the world's leading manufacturer of foam foodservice products and coordinating lids. Foam preserves the integrity of food and beverages by maintaining proper serving temperatures, hot or cold. Whether it's fountain drinks, coffee, soups or ice cream, we have a style and stock print to fit your needs—and your budget.

Insulated Foam Buyer's Guide

J cup® Features

Fill line

Etched line inside mouth of cup that indicates level at which cup should be filled

Lip

Provides comfort while drinking and gives additional strength to cup

Print area

1/4" below lip and above pedestal-allows cup to become a promotional tool to increase sales and awareness of your business

Sidewall

Provides insulation, preserving beverage integrity

Lip stack

Allows easy separation and increases the speed of the operator

Pedestal

Raises bottom of cup to allow it to rest steadily on flat surface

Insulated Foam Buyer's Guide

Features

Clear, high dome
Increases impulse sales of pre-packaged items. Tops off sundaes, fruit salads, or other mounded desserts

Foam vented
Perfect for hot soup or frozen yogurt. Combine with a foam cup or container for an exceptionally insulated package

Cappuccino
Elevated platform reduces the chance of spills. Perfect upscale complement to carryout gourmet coffee

Insulated Foam Buyer's Guide

Optima® Reclosable Lid

Reclosable tab provides leak-resistant seal. The ideal solution for gourmet coffee on the go

Sip Thru® Cup Lid

No tearing or pulling; reduces chance of drips or spills. Allows easy sipping of soft drinks, coffee, tea, or juice

Dart® Dome Lid - Clear

Exceptional clarity provides excellent product visibility. Ideal for root beer floats, fruit smoothies, "slushie" style drinks, or iced coffee beverages with whipped cream

Lift 'n' Lock™ Cup Lid

Closing tab helps avoid spills. Great for coffee, soft drinks, shakes, juice, tea, or water

Foam Foodservice Products and the Environment

- Foam can be recycled
- Dart Container operates foam collection centers in North America, the UK, and Argentina and has capabilities to recycle 12 million pounds of post consumer foam #6 annually
- Foam foodservice products do not “clog” landfills. Polystyrene foam foodservice products constitute less than 1%, by both weight and volume, of landfill waste.
- Dart does not use chlorofluorocarbons (CFCs) in manufacturing foam cups, and never has

Visit www.dartcontainer.com/recycle to learn more about foam recycling.

Accessories

Get the most out of your foam cups! Consider Dart's line of foam cup accessories to add more convenience and efficiency to your operation.

- Plastic malt collars fit Dart 14, 16, and 20 oz foam cups and are compatible with most mixing systems
- Color-coded dessert sleeves are made of heavyweight plastic for maximum support when preparing soft serve treats
- Our white, plastic pitcher handle enhances the versatility of Dart foam cups

PRINTED ON RECYCLED PAPER

Enhance Your Image With Premium Insulated Cups

ThermoGlaze® Insulated Foam Cups

ThermoGlaze® insulated foam cups will help communicate your upscale image with each beverage served. The powerful combination of your distinctive logo printed on ThermoGlaze® cups reminds customers of the quality, value, and satisfaction gained from each visit.

It's no wonder you routinely see Dart® ThermoGlaze® cups in the nation's most visible dining establishments and other quality quick-serve operations.

ThermoGlaze®

Features

Portion control sizing

Based on flush fill volume - which controls beverage cost and increases profitability

Dual-use

For hot and cold

Printed with UV inks

For brighter colors and excellent print quality

Great lid program

5 cups use the same size lid—choose from 12 different designs

Comfortable external temperature

Cups remain comfortable to carry without the need for wraps, jackets, extra napkins or double cupping

Heavy duty single-piece construction

Means no leaky seams

ThermoGlaze® cups

PRINTED ON RECYCLED PAPER

Coca-Cola[®]

Brand Stock Printed
Foam Cups by Dart

Brand Stock Printed
Foam Cups by Dart

Serve it cold, keep it cold!

Dart® and Coca-Cola®

Dart foam cups and Coca-Cola®* are an unbeatable combination for delivering long-lasting, cool refreshment. Foam cups keep your favorite Coca-Cola® beverage ice cold and tasting great, with less condensation and longer lasting carbonation than paper cups.

Available in the most popular sizes, Coca-Cola® brand cups manufactured by Dart offer the flexibility of two lid sizes fitting five different cups. This versatility simplifies operations and reduces lid inventory requirements, while taking advantage of the popularity and profitability of larger beverage sizes.

Advantages of Foam

- Foam cups provide superior insulation vs. other drink packaging.
- Fountain beverages increase profitability.
- Five cup sizes use two lids.
- 32AJ20C and 44AJ32C are designed to fit in standard car cupholders.**
- Dart foam cups have never been manufactured with CFCs.
- Dart printed foam cups use UV inks for brighter colors and sharper print definition. UV inks emit no volatile organic compounds into the environment.

3 Cups/1 Lid Means Less Lid Inventory & Simplified Handling

PRINTED ON RECYCLED PAPER

HORIZON® Stock Printed Insulated Foam Cups

A colorful design to brighten your sales

Horizon's design adds a touch of color to any beverage service, while providing an economical alternative to custom print. Suited for hot or cold beverages, Horizon foam cups are color coded by size in attractive, contemporary colors. Lid interchange between the most popular sizes allows you to simplify your operation and minimize inventory requirements.

Horizon foam cups are printed with UV inks for brighter colors and sharper print definition. UV inks emit no volatile organic compounds into the environment.

- Color-coded by size for easy identification
- Ounce capacity is printed on most cups
- Dual use for hot or cold
- Full range of sizes from 8 oz. to 60 oz.
- Two lid programs—one lid four cups and one lid five cups
- Dart foam cups have never been manufactured with CFCs

One Lid Size Fits Four Different Cups

One Lid Size Fits Five Different Cups

UPTOWN™

Stock Printed
Foam Cups

Upgrade To Uptown

From bustling city streets to small town charm, Uptown is equally at home with its classic yet trendy design. Rich, bold colors accent the cup's subdued streetscape design, making it easy to distinguish between cup sizes for both customers and employees. Behind the print is premium Thermo-Glaze® quality, keeping beverages at their proper serving temperature longer than any alternative cup—critical for discerning coffee drinkers.

Uptown printed cups are available in five sizes and satisfy a full array of beverage options including coffee, tea, and other specialty drinks. Upgrade to Uptown today!

- Combine Uptown with Dart's award winning Optima® lid for the perfect beverage package "to go"
- Available in 5 popular sizes from 8 oz. to 24 oz.
- Four cup sizes use the same lid size
- Color coding by size for easy product identification
- Dual use for hot and cold
- Now includes a printed environmental message to help promote the positive environmental aspects of foam cups to your customers

A single lid fits four different cups.

Impulse®

Stock Printed Foam
Cups & Containers

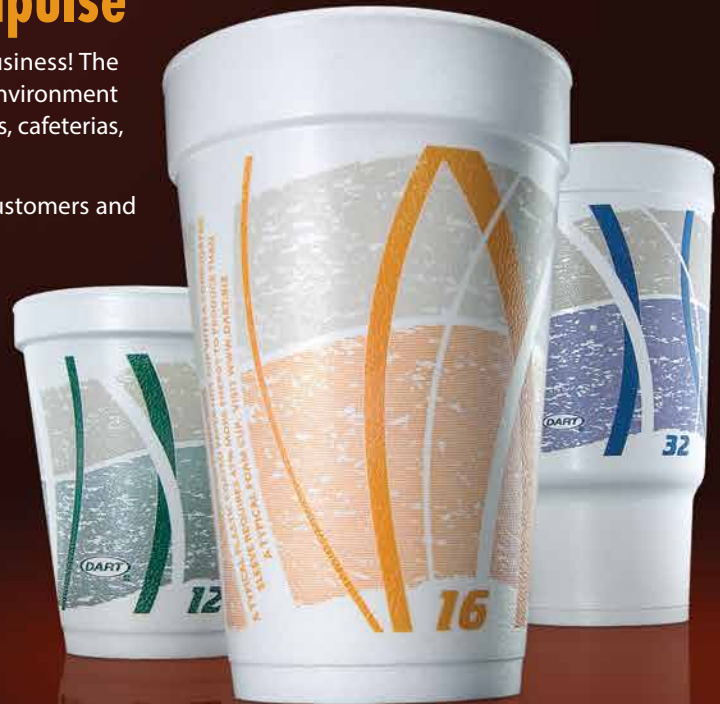

Profitable sales are made on Impulse

Dart's Impulse stock print is sure to increase impulse sales in your business! The updated design and colors were developed to fit comfortably in any environment where hot or cold food or beverages are served—in convenience stores, cafeterias, coffee shops, at special events, and more.

Each Impulse cup and container is color coded to make it easier for customers and employees to ensure the correct size is selected.

See what Impulse can do to energize food and beverage sales in your business.

- Dual use – one cup or container for both hot and cold
- Easy identification – color coded design with capacity printed on most sizes
- Pedestal-style car cups available – for big drinks on-the-go
- Promotes environmental benefits of foam – a message is printed on each cup and container

PRINTED ON RECYCLED PAPER

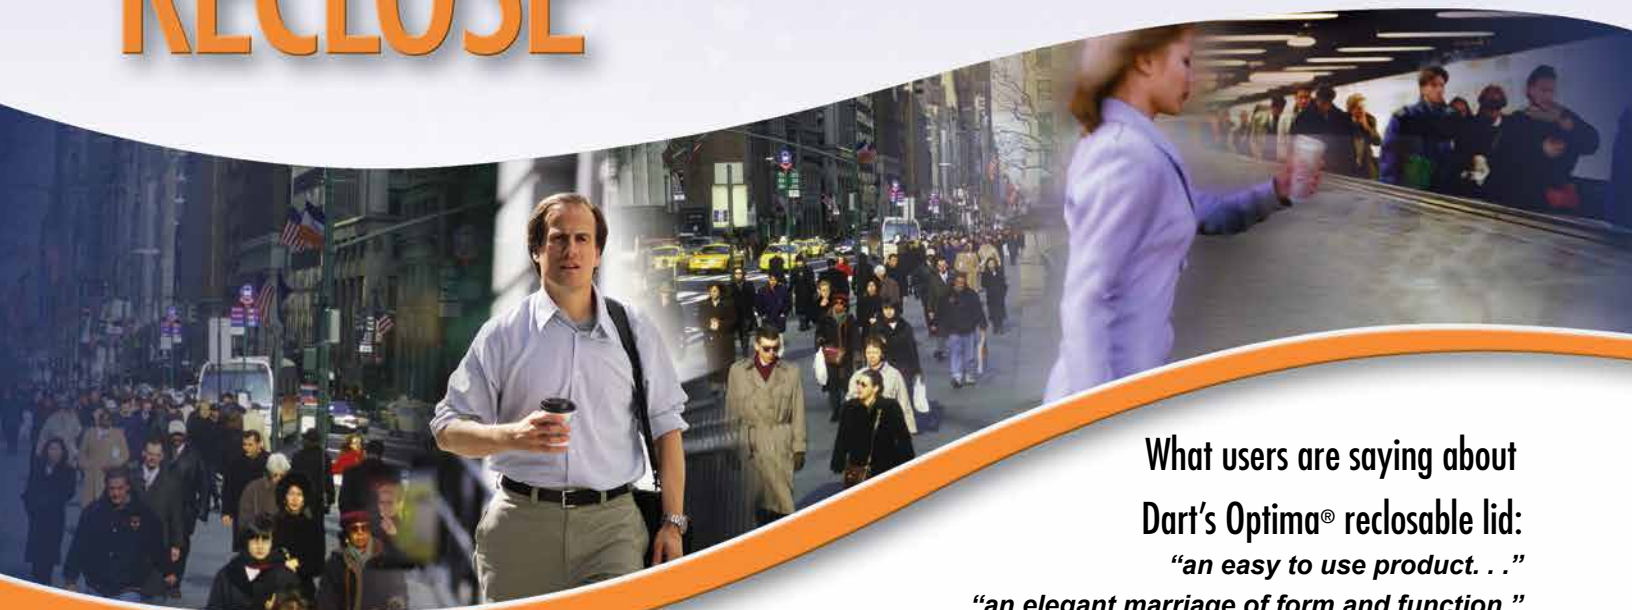

OPTIMA[®]

RECLOSABLE LID

The solution for people with active lives!

LIFT LOCK & RECLOSE

What users are saying about
Dart's Optima[®] reclosable lid:

"an easy to use product. . ."

"an elegant marriage of form and function."

"a startlingly superior to-go coffee lid . . . A++"

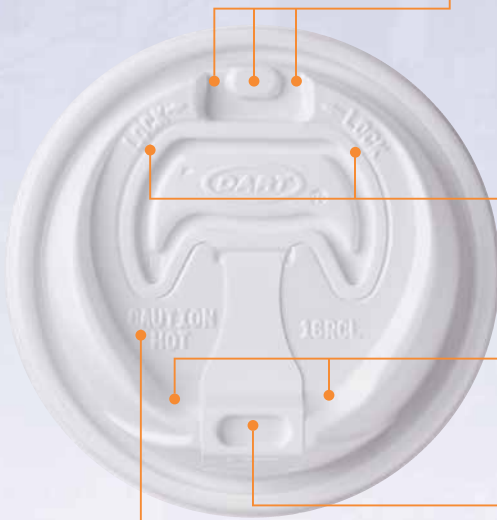

The solution for people with active lives!

Optima® offers coffee drinkers a new level of convenience not found in any other cup lid. What makes the Optima lid unique? To start, it provides users with a completely sealed beverage—no open drink hole means less chance of spilling or leaking. When ready to drink, just pull the tab open and lock it back out of the way.

Most notable about Optima, however, is the ability to securely reclose the lid until ready to resume drinking. Not just once, but again and again. Give it a try and we're certain you and your customers will quickly realize that no other lid provides the security, convenience, and quality of the innovative Optima lid from Dart.

Locking Post with Side Latches

Secures tab in the open position

Lock Statement

Identifies where to lock tab in the open position

Contoured Drinking Area

Ergonomically designed drinking spout provides drinking comfort

Drink Well Plug™ on Tab

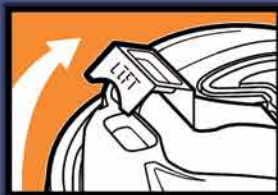

Provides a leak-resistant seal

Precautionary Statement

Creates beverage temperature awareness

Custom Print

- Insulated Foam Cups, Bowls, & Containers · Clear Plastic Cups ·
- Transparent Plastic Cups · Translucent Plastic Cups ·
- White Plastic Cups · Plastic Deli Containers & Lids ·

Customize your food and beverage program!

Custom Print

Increase your name recognition with brilliant color!

Dart custom print can boost your sales and profits by increasing the exposure of your business name and message. The quality of Dart products upholds the image of your business, while custom print increases your market visibility.

An added benefit of custom printing is a coordinated look with your other branded items such as menus and signs. Your business will present a unified look which further reinforces your company identity.

Available on both foam and plastic products, Dart custom printing will add color and style to your foodservice program.

Take advantage of these Custom Print features provided by Dart:

- **Ultraviolet inks** for brighter colors and sharper print definition (uv inks emit no volatile organic compounds into the environment)
- **Pantone® color coordination** with other printed items in your business
- Printing available in **up to four spot colors** on foam cups, translucent cold cups, and deli containers
- Printing available in **up to six spot colors** on all clear, transparent, and white plastic cups
- **Low minimum order quantities**

Superb graphics and superior insulation

Graphically-Enhanced Insulated Cups

Fusion® cups offer an excellent solution for your upscale, gourmet beverage program. With the most appealing and inviting gourmet beverage package available today, these cups are certain to increase customer satisfaction as well as enhance your business image.

Gourmet coffee customers will appreciate the comfort of using Fusion cups thanks to its unique ThermoThin™ core. ThermoThin offers superior insulation over paper hot cups, creating a cup that isn't too hot to hold. ThermoThin also means less waste and cost by eliminating the need for double-cupping or cup sleeves.

Features

ThermoThin™ Core

Maintains hot and cold beverage serving temperature and taste while keeping cup sidewall comfortable to the touch

Strong Sidewall

Reinforces cup durability and prevents seeps, thereby reducing customer complaints and increasing operator repeat business

4 Cups/1 Lid Size

Stock one lid size to accommodate 4 different Fusion® cups; pair with our award winning Optima® reclosable lid for exceptional performance and style

Molded Rolled Lip

Provides for comfortable drinking and secure lidding

Fotofinish®

Magazine-quality print surface allows for detailed graphics, top-to-bottom coverage, and amazing process printing unlike any other hot cup

Two Attractive Stock Prints

Stock printed designs include a positive environmental message along with "Caution - May Be Hot!" statement in English, French, and Spanish

Foot Stack

Allows for easy one-hand separation of stacked cups

A colorful design to
increase your sales!

Horizon Stock Printed Cups

Horizon LX foam cups stand above all others in customer appeal. The upscale flared lip styling, smooth cup wall, and high luster finish are an unbeatable combination. The Horizon stock printed design adds a touch of color to any beverage service, while providing an economical alternative to custom printing.

Impulse LX

Stock Printed Foam
Cups & Containers

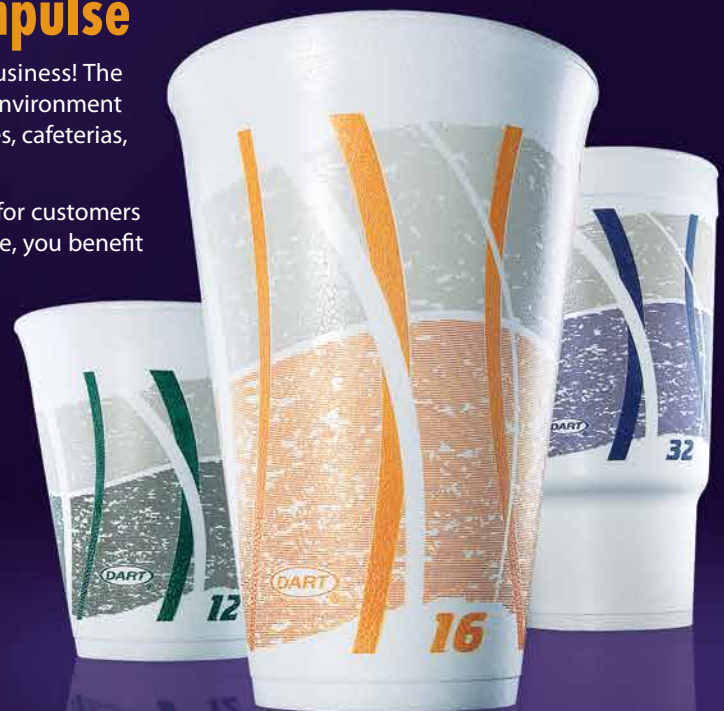

Profitable sales are made on Impulse

Dart's Impulse stock print is sure to increase impulse sales in your business! The updated design and colors were developed to fit comfortably in any environment where hot or cold food or beverages are served—in convenience stores, cafeterias, coffee shops, at special events, and more.

Each Impulse cup and container is now color coded to make it easier for customers and employees to ensure the correct size is selected. And, with Impulse, you benefit from low minimum order requirements and quick turnaround times, as well as a cost savings when compared to custom printed products.

See what Impulse can do to energize food and beverage sales in your business.

- Dual use – one cup or container for both hot and cold
- Easy identification – color coded design with capacity printed on each size
- Pedestal-style car cups available – for big drinks on-the-go
- Promotes environmental benefits of foam – a message is printed on each cup and container

One Lid Size Fits Four Different Cups

Insulated Foam Cup

Increase patient satisfaction while improving efficiencies

- **Graduation lines** (CC's, ML's, and ounces) help nurses save time charting I's and O's
- **Insulated foam** keeps hot and cold beverages at the proper serving temperature; reduces ice melt and sidewall condensation, minimizes refill trips, and increases overall patient satisfaction
- **Single use cup**, provides an economical and sterile solution to minimize cross contamination
- **Top off with a straw-slot lid and flexible straw (Graduated Sip System)** to provide patients with an easy, no-pour drinking vessel, and minimize spills

A single cup solution for hot and cold beverages

Trophy® Plus™ Dual Temperature Insulated Cups

- **Cost control** – the efficiency of two cups in one and a common lid streamlines inventory
- **Case and space management** – compact cups nest tightly so more fit in a stack, reducing the frequency of dispenser refills, and a smaller case cube makes transportation more efficient, freeing up storage space
- **Upscale graphics** – top-to-bottom print capability and a glossy finish creates a billboard for custom graphics and branded messaging
- **Built to perform** – a rolled rim tightly secures the lid, increased rigidity provides added strength, and Cozy® Touch™ insulation ensures customer comfort

Made with a Minimum of 20%
Post-Consumer Recycled PET

Bare® by Solo® Eco-Forward® RPET Clear Cups

Post-consumer recycled PET is comprised mostly of PET beverage bottles. Each case of Bare® by Solo® cold cups contain an amount of post-consumer recycled PET equal to approximately the following number of 16.9 fl oz water bottles*:

- 9oz cups - 174 bottles/case
- 10oz cups - 194 bottles/case
- 12oz cups - 236 bottles/case
- 16oz cups - 294 bottles/case
- 20oz cups - 222 bottles/case
- 24oz cups - 232 bottles/case

* Based on average weight of 16.9 fl oz water bottles = 10.97 grams.

Solo® Paper Hot Cups

Hot cups that heat up sales!

Solo® Paper Hot cups

Lid interchangeability - 5 cups, 1 lid solution for sizes 10oz-24oz reduces storage requirements and increases operational efficiencies

Smooth, rolled rim - Gives rigidity to the cup and ensures secure leak-resistant lid fit

Sustainable alternative - Made with at least 90% plant-based renewable resources. We source fibers under the SFI® chain of custody

Eye-catching graphics - Matte finish and top-to-bottom coverage offers excellent printability for a variety of stock designs or custom graphics to match any decor

Solo® Paper Hot Cups

Features

Rolled rim

Gives rigidity to the cup and ensures secure leak-resistant lid fit

Top-to-bottom graphics

provides more space for custom printing to showcase your brand

Handled hot cups

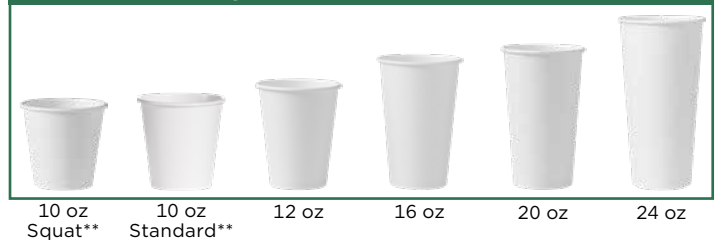

Available in 4, 6, and 8 oz sizes

Moisture barrier

Cup lined with polyethylene to help prevent leaking

One lid fits 5 cup sizes

Solo® DSP Paper Cold Cups

The standard in cold cups — and not without reason. With superior water resistance, improved portion control, and excellent graphic capabilities, Solo® double-sided polyethylene-coated paper cold cups deliver performance foodservice professionals can count on.

Solo cups offer lid interchangeability with a **single-lid solution for 7 popular sizes** that minimizes storage space while increasing operational efficiencies.

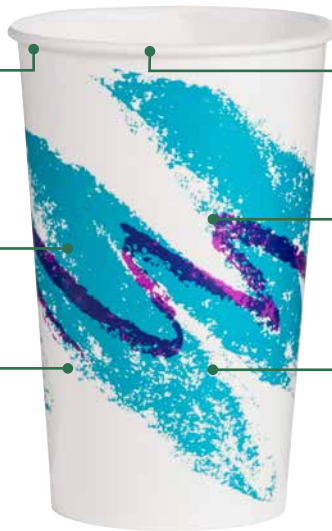

DSP Paper Cold Cups

Features

Lid interchangeability
single-lid solution for 7 most popular sizes minimizes storage space while increasing operational efficiencies

Custom printing
available in up to six spot colors

Double-sided polyethylene (DSP) coating
provides superior moisture resistance and protects the cup walls from weakening

Smooth rolled rim
provides additional strength to cup and allows for a tight lid fit

Glossy sidewall finish
offers superior printing for advertising your brand

Stock prints
available in 4 stock printed designs

Duo Shield®
Insulated Paper Hot Cups

KEEP THE HEAT. LOSE THE SLEEVE.

- **Air Pocket Insulation** — Eliminates the need for sleeves or double cupping, which reduces serving time and operating expenses for increased operational efficiency
- **Get a Grip!** — Matte finish on overwrap offers superior non-slip grip and better hand-hold feel
- **Top-to-Bottom Graphics** — Print area spans entire length of cup, allowing maximum space for customization to showcase operator brand/logo

Duo Shield® Insulated Paper Hot Cups

KEEP THE HEAT. LOSE THE SLEEVE.

Duo Shield® insulated paper hot cups provide air pocket insulation to keep beverages hot and hands at a comfortable temperature, eliminating the need to add a sleeve or double cup beverages. A poly lining on the inside of the cup acts as a moisture barrier to keep liquid inside the cup and prevent leaking. This dual layer product is made with 95% plant-based renewable resources and is the ideal solution for specialty coffee, lodging, travel, and leisure operations.

Air Pocket Insulation
For perfect hand-hold temperature without a sleeve

Superior Grip
Matte finish surface for non-slip grip

Top-to-Bottom Graphics
Provides more space to showcase your brand

Sustainability Alternative
Made with 95% plant-based renewable resources

Variety
Available in multiple sizes and stock designs

Lock it open to enjoy a sip,
and then reclose it for a safer trip

TraveLock® Reclosable Dome Lid

Conveniently take hot beverages on-the-go with Solo®'s new TraveLock® reclosable dome lids! The perforated tab reduces the chance of liquid splashing out of the cup and helps keep the beverage warm prior to consumption. Once opened, the tab can be locked back into drinking position or it can be pushed through the sip hole again to act as a cover, avoiding splashing during transport. An elevated surface provides more lip room and comfort, enhancing the drinking experience! One lid fits the five most popular hot cup sizes, reducing storage requirements and increasing operational efficiencies — a plus for any business owner!

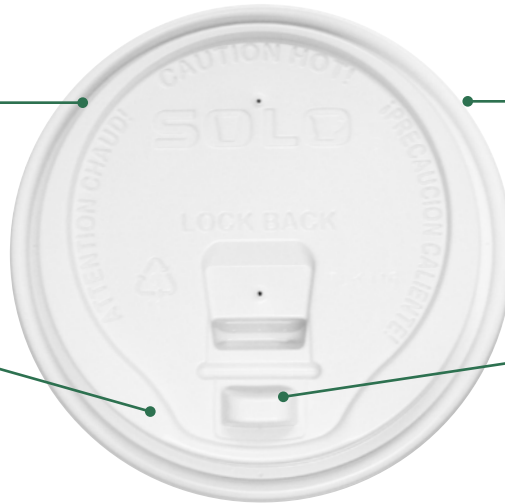

Features

Dome-style

Accommodates gourmet beverage toppings

Elevated rise design around sip hole

Provides more surface area for the lower lip to enhance drinking comfort

One lid size fits 5 cup sizes

One lid fits the 5 most popular cup sizes for operational efficiency

Reclosable

Reduces the chance of liquid splashing out of the sip hole

ASEGÚRELA EN POSICIÓN ABIERTA PARA DISFRUTAR DE UN SORBITO, Y VUELVA A CERRARLA PARA MAYOR SEGURIDAD AL ANDAR

- **¡Lleve su bebida vaya donde vaya!** Tapón/orificio para beber resellable reduce los derrames y salpicaduras y mantiene las bebidas calientes
- **¡Diseñado para mayor comodidad al beber!** Superficie elevada adyacente al orificio para beber brinda más espacio para el labio inferior
- **¡Una tapa funciona para cinco tamaños de vasos!** La intercambiabilidad de la tapa reduce los requisitos de almacenamiento y aumenta la eficiencia operativa
- **¡Llénelo!** La tapa estilo domo brinda espacio adicional para agregar espuma u otros ingredientes a bebidas gourmet

TravelLock™

Tapa “Abre/Cierra Seguro” para vasos de papel para bebidas calientes

ASEGÚRELA EN POSICIÓN ABIERTA PARA DISFRUTAR DE UN SORBITO, Y VUELVA A CERRARLA PARA MAYOR SEGURIDAD AL ANDAR

¡Lleve bebidas calientes convenientemente vaya donde vaya con la nueva tapa TravelLock “Abre/Cierra Seguro” de Solo para vasos de papel para bebidas calientes! La solapa perforada disminuye la posibilidad de que el líquido salpique fuera del vaso y ayuda a mantener la bebida caliente antes de ser consumida. Una vez abierta, la solapa puede ser asegurada en posición para beber o puede ser nuevamente insertada en el orificio para beber para actuar como un tapón, evitando salpicaduras durante su transporte. ¡La superficie elevada brinda más espacio para los labios y mayor comodidad, optimizando su experiencia! Una misma tapa funciona para los cinco tamaños de vasos para bebidas calientes más usados frecuentemente, reduciendo los requisitos de almacenamiento y aumentando la eficiencia operativa... ¡una ventaja para todo propietario de negocio!

Abre/Cierra Seguro
Disminuye la posibilidad de que el líquido salpique a través del orificio para beber

Diseño de superficie más alta
Proporciona una superficie de mayor tamaño para el labio inferior, brindando mayor comodidad al beber

Una tapa funciona para 5 tamaños de vasos
Con fines de eficiencia operativa, una tapa funciona para los 5 tamaños de vasos más usados frecuentemente

Estilo domo
Brinda espacio para ingredientes adicionales de bebidas gourmet

An Eco-Forward Thinking Cup

Bare® by Solo® Eco-Forward® PCF Paper Hot Cups

- **Recycled content** — This innovative, first-ever FDA-compliant, PCF paper hot cup contains recycled content that comes from paper collected from school or office recycling programs after consumer use. Less virgin material is used to make PCF paper hot cups, reducing the impact on valuable natural resources
- **Sustainability alternative** — Made from 90% plant-based renewable resources and a minimum of 10% post-consumer recycled fiber. We source fibers certified under the SFI® chain of custody
- **Lid interchangeability** — Four cup, one lid solution for sizes 10 ounce squat–20 ounce reduces storage requirements and increases operational efficiencies
- **Smooth rolled rim** — Gives rigidity to the cup and ensures secure leak-resistant lid fit

Features

Sustainability alternative

Made from 90% plant-based renewable resources and a minimum of 10% post-consumer recycled fiber

Lid interchangeability

One lid fits four popular cup sizes (10 sq – 20 oz) for operational efficiency

Rolled rim

Gives rigidity to the cup and ensures secure, leak-resistant lid fit

Customized design available

Customize with the Bare® co-logo print or custom print to showcase operators' branding and logos

PRINTED ON RECYCLED PAPER

Bare[®] by Solo[®]
Eco-Forward[®] SSPLA Paper Hot Cups

PLANT MADE. PLANET APPROVED.

- **Compostable in a commercial compost facility** - Appropriate commercial composting facilities may not exist in your community. Please check with your local municipality. Not suitable for backyard composting.
- **Plant-based lining** - cup lined with PLA (polylactic acid), a plant-based resin, acting as a moisture barrier to prevent leaking and replacing the petroleum-based lining typically found in paper hot cups
- **Sustainability alternative** - made from 100% plant-based renewable resources and made with SFI certified paperboard.
- **Third party certifications** - meets the ASTM D6868 standard and certified by the Biodegradable Products Institute (BPI) as compostable in a commercial composting facility

Bare® by Solo® Eco-Forward® SSPLA Paper Hot Cups

PLANT MADE. PLANET APPROVED.

For some food packaging applications, a commercially compostable product is the most environmentally responsible option. Solo's® Bare® SSPLA-lined hot cups are compostable in a commercial compost facility. Appropriate commercial composting facilities may not exist in your community. Please check with your local municipality. Not suitable for backyard composting.

Commercially compostable* paper hot cups made from plant-based renewable resources

PRINTED ON RECYCLED PAPER

Optima®

Tapa "Abre/Cierra Seguro" para vasos de papel para bebidas calientes

¡EXCLUSIVAMENTE DISEÑADA PARA USO CON

VASOS DE PAPEL PARA BEBIDAS CALIENTES DE **SOLO!**

LEVÁNTELA · ASEGÚRELA · VUÉLVALA A CERRAR ¡LA SOLUCIÓN PARA GENTE EN MOVIMIENTO!

- **Solución portátil totalmente resellable** - El tapón para sellar crea un cierre resistente a goteos para reducir derrames y salpicaduras durante el transporte
- **Una tamaño de tapa para cinco tamaños de vaso (10 bajo - 24 oz)** - La intercambiabilidad de la tapa reduce las necesidades de espacio de almacenaje y aumenta la eficiencia operativa
- **Protector de bebida** - El tapón para sellar sirve como una barrera protectora para prevenir la contaminación del orificio para beber y de la bebida dentro del vaso, reduciendo las preocupaciones en cuanto a higiene
- **Realzador de imagen** - ¡Eleva su programa de café con la tapa Optima "Abre/Cierra Seguro" de Dart en conjunción con un vaso de papel para bebidas calientes de Solo! Ninguna otra combinación de vaso/tapa ofrece este tipo de seguridad, excelente calidad y originalidad

Optima®

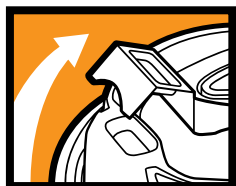

Tapa "Abre/Cierra Seguro" para vasos de papel para bebidas calientes*

¡LA SOLUCIÓN PARA GENTE EN MOVIMIENTO!

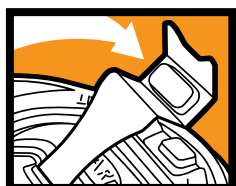

Optima ofrece a los bebedores de café un nuevo nivel de conveniencia que no se encuentra en ninguna otra tapa para vasos. ¿Qué es lo que hace única a la tapa Optima? Para empezar, brinda a los usuarios una bebida completamente sellada; al no tener un orificio para beber abierto hay menos oportunidades para derrames. Cuando esté listo para beber, simplemente levante la solapa y asegúrela al poste.

Lo más notable de Optima es la capacidad de volver a cerrar la tapa con seguridad hasta que esté listo para volver a beber. No solo una vez, sino una y otra vez. Pruébela y estamos seguros que usted y sus clientes rápidamente se darán cuenta de que ninguna otra tapa brinda la seguridad, conveniencia y calidad de la nueva e innovadora tapa Optima de Dart.

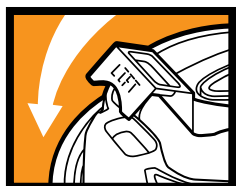

*DISEÑADA EXCLUSIVAMENTE para ser usada con vasos de papel para bebidas calientes de la marca Solo, 10 bajo-24 onzas.

LEVÁNTELA

ASEGÚRELA

VUÉLVALA A CERRAR

Poste para asegurar con enganches laterales

Asegura la solapa en la posición de abierto

Indicador de enganche

Identifica en dónde asegurar la solapa en la posición de abierto

Plataforma elevada

Brinda espacio adicional para espuma u otros ingredientes en bebidas gourmet

Superficie curvada para beber

Diseño ergonómico que provee comodidad al tomar

Faldón estriado

Brinda mayor resistencia para mantener la integridad del faldón

Tapón para sellar la solapa

Provee un sello resistente a derrames

Aviso de precaución bilingüe

Alerta al consumidor de la temperatura de la bebida

New from Dart!

Perfect Pak®

Bare® by Solo® Eco-Forward® Recycled Content (PCF) Paper Hot Cups

Good things come in small paks!

| Operator/End-User Challenges | Perfect Pak® Solutions | Office Channel | Cash & Carry | Small Business |
|---|--|----------------|--------------|----------------|
| Limited storage space | Perfect Pak® cases are designed under 21" in height in order to fit in small areas/cabinets in breakrooms and on a retail shelf | X | X | X |
| Breaking cases often necessary for operators to sell smaller quantities | Perfect Pak® reduced case counts eliminate the need for operators to break cases and allow operators to 'turn and earn' | X | X | |
| End users cannot meet distributor minimums as they use less volume in single-use products | Perfect Pak® case counts are up to 50-70% less than standard case counts and are available for purchase in channels such as office and cash & carry where there are no minimum-purchase requirements | X | X | X |
| Need retail-ready packaging | PCF Perfect Pak® cases have attractive four-color outer-case graphics that are eye-catching on the shelf | X | | |
| Reduced cost per case of inventory | Perfect Pak® has a lower price point per case than a standard foodservice pack size | X | X | X |

New SOLO® Traveler® Lid

Traveler® Cappuccino-Style Dome Lids

Now available in polypropylene!*

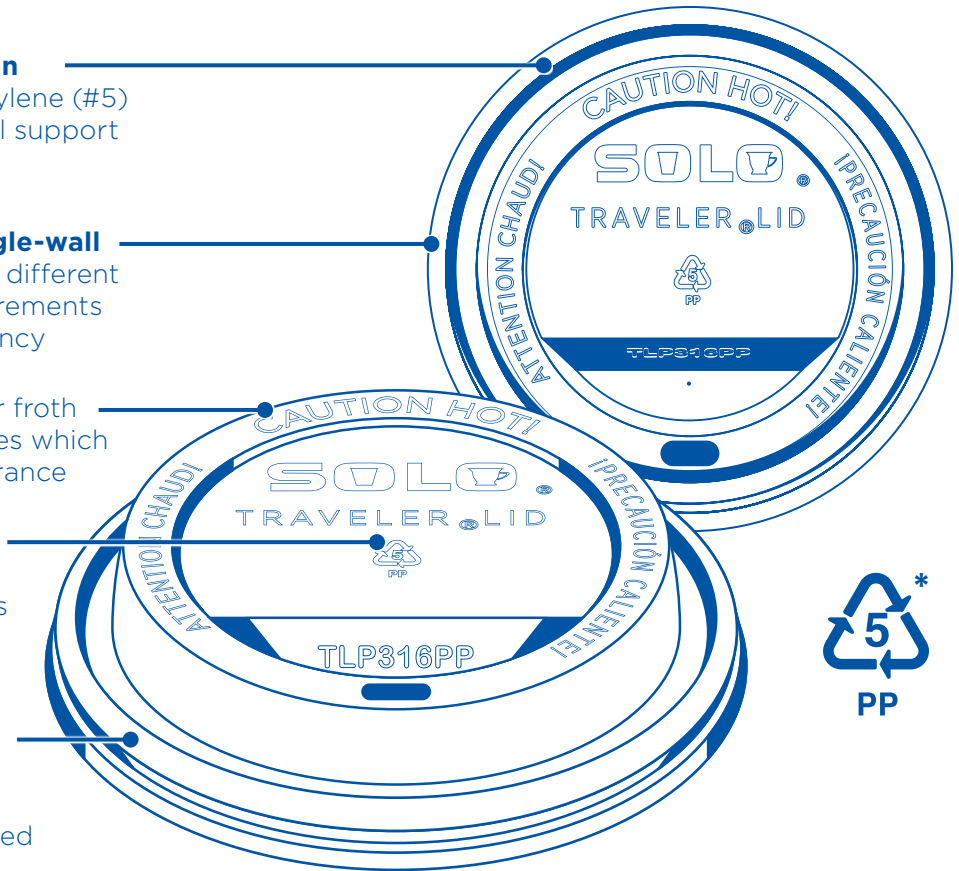

Same iconic lid design, offered in recyclable* material — polypropylene (#5) is a recyclable* material which will support customers' sustainability goals

Fits Solo® 10 oz squat-24 oz single-wall paper hot cups — one lid fits five different cup sizes, reducing storage requirements and increasing operational efficiency

Dome lid — allows extra room for froth or toppings on gourmet beverages which communicates an upscale appearance

Polystyrene alternative — in communities that will not allow solid polystyrene, this lid provides a fully-functional alternative to standard polystyrene (#6) lids

Partial plug lid fit — seals inside and out, creating a leak-resistant package which will decrease the likelihood of spillage and associated customer complaints

| Stock Number | Description | Sleeve | Case Pack | Case Cube (ft ³) | Case Weight (lbs) |
|--------------|---|--------|-----------|------------------------------|-------------------|
| TLP316PP | Traveler® Polypropylene Cappuccino-Style Dome Lid | 100 | 1000 | 1.6 | 9.4 |

* This product is made with polypropylene resin. Check with your local community to see if it is accepted for recycling.

ThermoGuard™ Insulated Paper Hot Cups

- **Custom print only** — customize your cups with your own logo to increase visibility and brand recognition of your business
- **4 Cup/1 Lid program** — ThermoGuard™ sets the industry standard by offering 1 lid that fits 12, 16, 20, and 24 oz cups. Choose from our iconic Traveler® lid, or the one-of-a-kind, fully reclosable Optima® lid
- **“ThermoTouch” insulation** — eliminates the need for a cardboard cup sleeve or wasteful double-cupping, thus saving you money
- **“Full-length” print coverage** — print area fully covers the entire height of the cup, allowing you to make the most of your custom print
- **Made with renewable resources** — ThermoGuard™ is made with renewable resources, which helps to support your customer’s green initiatives

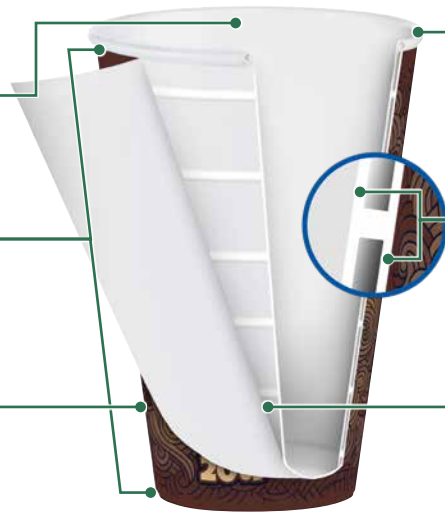

Features

Polyethylene lining
Acts as a moisture barrier keeping contents from leaking

“Full length” print coverage
Allows the customer to use the full length of the sidewall for their custom graphics

Matte sidewall
Offers excellent printability on uncoated sidewalls

Rolled rim
Provides additional strength to cup and allows for tight lid fit

Double wall construction
Eliminates the need for a cardboard cup sleeve or double-cupping

Insulating air channels
Reduces heat transfer keeping the sidewall cool to the touch

BEVERAGE

HOT CUPS & LIDS

Solo's hot cup offering features single-sided poly paper, insulated and Eco-Forward® options deliver durability and performance in a convenient pack size for operators with space challenges. All Solo hot cups are well engineered with strong sidewalls and smooth, rolled rims for comfort, safety and optimal lid fit.

SINGLE-SIDED POLY (SSP) PAPER HOT CUPS

- Polyethylene lining provides a barrier to liquid penetration
- Available in popular Bistro® design

BARE® ECO-FORWARD® SINGLE SIDED RECYCLED CONTENT (PCF) HOT CUPS

- First-ever, FDA-compliant, PCF paper hot cup
- Made with a minimum of 10% post-consumer recycled fiber
- Made with at least 90% plant-based renewable resources
- Less virgin material used to make PCF hot Cups, reducing the impact on valuable natural resources

TRAVELER® LIDS - Use with SSP or PCF Paper Hot Cups

- Leading-edge design provides optimal fit on Solo paper hot cups
- Inner ring ensures better, tighter fit to reduce dribble, leakage and pop-offs

TROPHY® INSULATED HOT/COLD FOAM CUPS

- Versatile two-cups-in-one are ideal for hot or cold beverages
- Provides superior insulation over paper
- Rolled rim offers a more secure lid fit versus flat foam

INSULATED HOT CUP & LID COMBO PACKS

Comes with cups and lids in one attractive retail pack!

- Trophy® Insulated Foam Cups with The Gourmet Lid® - an upscale option providing superior insulation and lid fit for hot beverages
- Duo Shield® Insulated Hot Cups with Traveler® Lid - premium paper solution that provides air-pocket insulation to help keep drinks hot longer

COLD CUPS

GALAXY® POLYSTYRENE COLD CUPS

- Ideal option for cold beverages
- Double sidewall ridges provide strength and durability to help prevent spills

Up to 70% less than Solo's standard case count, Perfect Pak® by Solo is ideal for limited storage space and lower-volume turnover of single-use products. Solo presents a wide selection to meet operators' specific needs.

Bare® Eco-Forward® products make it easy to provide environmentally responsible dinnerware. Convenient pack size for catered meals.

BARE® ECO-FORWARD® PAPER DINNERWARE

- Compostable in a commercial compost facility. Appropriate commercial composting facilities may not exist in your community. Please check with your local municipality. Not suitable for backyard composting
- Certified compostable by the Biodegradable Products Institute (BPI)
- Made from plant-based renewable resources
- Strong and soak-through resistant

TAKEOUT

TAKEOUT CONTAINERS

Creative Carryouts® hinged packages are designed for hot or cold meals, side dishes and salads to ensure food remains in place during handling and transport. This versatile packaging features clear lids and is microwaveable.

OCTAVIEW® HINGED OCTAGON CARRYOUT PACKAGES

- Keeps operation running efficiently with leak-resistant, attached lid
- Visual attraction turns into customer satisfaction driving impulse sales

| Operator/End-User Challenges | Perfect Pak® Solutions | Office Channel | Cash & Carry | Small Business |
|---|--|----------------|--------------|----------------|
| Limited storage space | Perfect Pak® cases are designed to be under 21" in height in order to fit in small areas/cabinets in breakrooms and on a retail shelf | X | X | X |
| Breaking cases often necessary for operators to sell smaller quantities | Perfect Pak® reduced case counts eliminate the need for operators to break cases and allow operators to "turn and earn" | X | X | |
| End users cannot meet distributor minimums as they use less volume in single-use products | Perfect Pak® case counts are up to 50-70% less than standard case counts and are available for purchase in channels such as office and cash and carry where there are no minimum-purchase requirements | X | X | X |
| Need retail-ready packaging | Most Perfect Pak® cases have attractive, four-color outer-case graphics that are eye-catching on the shelf | X | | |
| Need for convenient grab-n-go, single-use products | Perfect Pak® Combo Packs includes a smaller quantity of cups and lids in one shrink-wrapped retail-ready package | X | | X |
| Reduce cost per case of inventory | Perfect Pak® has a lower price point per case than a standard foodservice pack size | X | X | X |

PERFECT SIZE WHEN SPACE IS AT A PREMIUM

- Reduce size and increase turns
- Cases are under 21" in height to accommodate storage space constraints and fit on a retail shelf
- Retail-ready, attractive outer-case packaging
- Takeout offering features trendy carryout containers that boost grab-n-go sales and increase impulse purchases

Foam Hinged Lid Containers

with **PERFORMER** perforated hinge

Many popular sizes
also available in black

Convenience doesn't have to be a compromise

- Removable lid
- Superior insulation
- Vented to preserve food longer
- Stackable
- Shareable

Foam Hinged Lid Containers

with **PERFORMER** perforated hinge

Hinged Containers with a Removable Lid

The **PERFORMER** is a patented perforated hinge that allows the container's lid to be removed.

The result is a less cluttered dining experience and an additional plate for meal sharing.

1. Grab the lid
2. Hold the base
3. Gently pull apart

Performer's Unrivaled Convenience

In the car

In a crunch, when you are rushed for time, the Performer is the answer. No more cumbersome lid to deal with. Simply tear the lid off and enjoy!

At the office

Can't get away for lunch? The Performer will free up needed space so you can be more productive and still enjoy your meal.

Sharing

At home or in social settings, the versatility of the Performer allows you to "tear and share." Use the lid as an extra plate to make meal sharing convenient anywhere.

Foam Hinged Lid Containers

with **PERFORMER** perforated hinge

Features

Vented to Preserve Food Quality Longer

Vent holes on sidewalls of the lid preserve food quality (i.e. crispiness) by allowing steam to escape. The vented containers come with the Performer perforated hinge.

Secure Closure

These containers feature either a double lock closure or a "knuckle" locking tab intended to prevent accidental openings.

When closed, a perimeter seal keeps food secure, reducing leaks.

Tabs on base ensure containers stay closed when picked up by the lid.

Superior Insulation

All Dart foam hinged lid containers have high insulation properties to keep hot foods hot and cold foods cold. Maintaining proper temperature inside the container keeps food at the right serving temperature, preserving product quality.

Stacking

The recessed lid and platform base increase the stability of multiple stacked containers, allowing for stable and convenient transport.

Present Your Food With Style

Black Foam Hinged Containers are available in many popular sizes and are ideal for a variety of hot and cold foods.

They provide an upscale packaging alternative to enhance the image of any food application, while still providing the performance benefits of traditional Dart Foam Hinged Containers.

CLEARPAC®
SAFESEAL

 PETE packaging

Tamper-Resistant, Tamper-Evident Containers

- Specifically designed to inhibit tampering, eliminating the need for shrink bands and wrap labels
- Shrink Band Elimination Spurs Savings!

2¢ - 4¢ per Shrink Band

\$60 - \$140 per Heat Gun

\$2,000 - \$16,000 per Heat Tunnel

\$1,000 - \$1,200/yr in Utility Costs

Look what customers are saying about **SafeSeal**

"We use 16oz ClearPac SafeSeal containers

for black eyed peas and a vented 12oz ClearPac SafeSeal container for sprouted green peas and mung beans. The vented container is perfectly designed to allow the sprouts and mung beans to breathe, thereby **maximizing their shelf life**. ClearPac SafeSeal containers are also **quick and easy to close and effectively showcase our produce.**" - Lee Ewing, President, Sunny Creek Farm

"Using the **Safe-Seal line** of plastic tamper-evident, tamper-resistant containers from Dart has allowed us to offer the same quality bulk candies to our customers, but in a much more **professional, safe** and **attractive** presentation. The **'stackability'** and **clear design** of these containers has allowed us to **profit upon the impulse driven sales** of the retail world, as well as keep our candy **fresher, longer.**" - Matt Costea, Buyer, Somerset Candy

TamperAlert™

Hinge protrudes outward when torn, alerting the customer that the container has been opened. Hinge remains attached to the container, meaning no loose plastic pieces and therefore no littering.

EASY TO CLOSE

Press down on the lid with two hands for an easy ONE STEP closure!

EASY TO OPEN

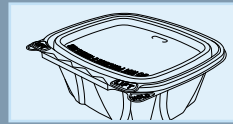

Pull apart the "Lift" and "Hold" tabs to tear the perforated hinge completely across.

EASY TO RECLOSE

Once the hinge is torn, the container becomes a LEAK RESISTANT two-piece package!

ASK YOUR DART SALES REPRESENTATIVE ABOUT:

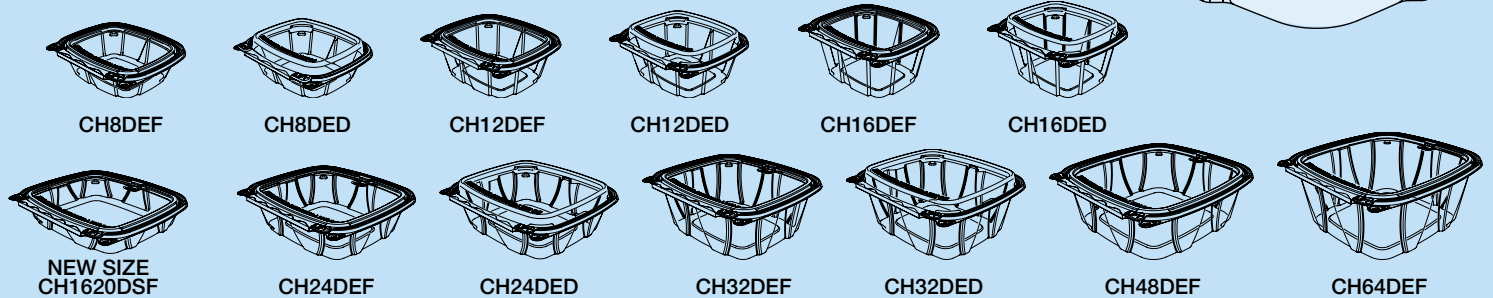

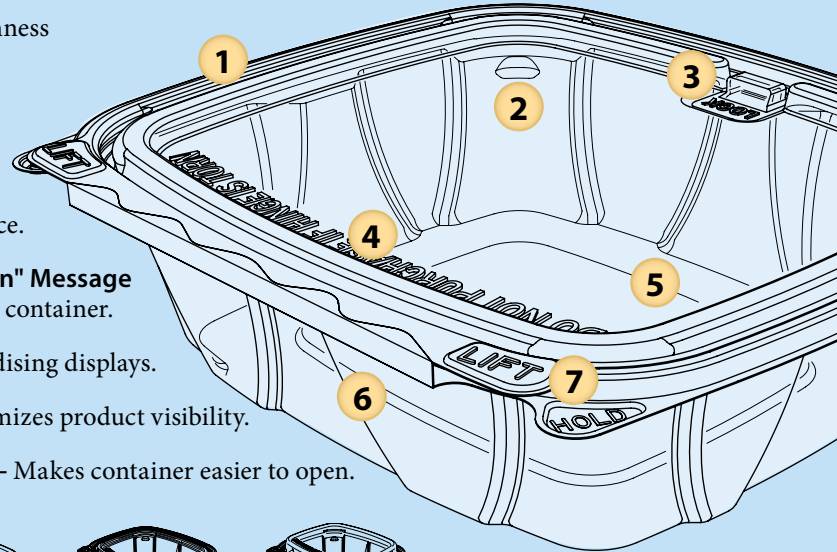

Vented SafeSeal
Minimum order quantity requirements.

Auto Closure Equipment

Made of crack-resistant PET, ClearPac SafeSeal performs exceptionally in cold temperatures and accommodates freezing down to -22°F.

- 1 Leak-Resistant Perimeter Seal** — Maximizes product freshness and prevents messy spills.
- 2 Separation Lugs** — Allows for easy, one-hand separation of nested containers.
- 3 Tamper-Resistant Locking Post on 24oz–64oz Flat Lid Containers** — Further reinforces container tamper-resistance.
- 4 TamperAlert Hinge and "Do Not Purchase If Hinge Is Torn" Message on the Lid** — Alerts the customer to the signs of a tampered container.
- 5 Stacking Platform** — Provides greater stability of merchandising displays.
- 6 Clear Packaging with Minimal Sidewall Ribbing** — Maximizes product visibility.
- 7 Offset Opening Tabs with "Lift" and "Hold" Embossing** — Makes container easier to open.

PresentaBowls Pro® Square Bowls

Dart's PresentaBowls Pro® bowl line offers incredible versatility for users with its wide array of sizes and ability to accommodate both hot and cold food applications. Made from polypropylene, the bowls resist cracking and breaking and are fully microwaveable. The upscale appearance and crystal-like design enhances the image of food applications.

Features

Polypropylene and PET Lids Available

One base, two lids for maximum versatility

Crystal-Like Design

Gives upscale, table-ready appearance

Microwaveable

Polypropylene base when used with polypropylene lid makes container completely microwaveable

Leak-Resistant Perimeter Seal

Keeps liquids in, reducing customer complaints

Self-Aligning Offset Opening Tabs

Lid fits no matter what direction it's applied

Stackability

Base fits snugly into recessed platform on lids for greater merchandising and stability

Provides greater stability of merchandising displays

Superior Product Visibility

Show off baked goods, sandwiches, salads, frozen foods and more. Both OPS (Oriented Polystyrene) and PET (Polyethylene Terephthalate) have crystal clarity

Opening Tabs

Makes container easy to open

Label Window

For placement of a tamper evident seal

Bowtie Bar Locks

Provides an audible snap and excellent closure multiple times

Chamfered Corners

Provides extra strength at the corners

The clear way to go green

Bare® by Solo® Eco-Forward® RPET Deli Containers

Dart's premium Bare® by Solo® RPET deli containers and lids are made with 20% post-consumer recycled content, delivering a sustainable option that environmentally-conscious customers prefer. The superb clarity of the container enhances product appearance and impulse sales. For streamlined operations, a common lid fits five convenient sizes that are easily stackable to reduce storage space.

Features

One lid fits five container sizes

Lid interchangeability reduces storage requirements and increases operational efficiencies

Customized design available

Up to 6 colors on all containers and up to 4 colors on the recessed lids (LG8R and LG8RB only)

Sustainability alternative

Made with a minimum of 20% post-consumer recycled material sourced from recycled soda and water bottles

Built to perform

Made with crack-resistant RPET, a material that holds up well to high-acid and oily foods and has a temperature range of -22–151°F

Clear view

Excellent crystal clarity to enhance product appearance, stimulating impulse sales

🌱 = Bare* by Solo* Eco-Forward* Product

* Lower temperatures make the product more brittle. The minimum use temperatures (-22°F/-30°C) are based on the product receiving no impact from shipping, storage and handling during use. If the product is subjected to impact under conditions of use, the minimum use temperature will be higher than the values indicated. Customers should test the product under their conditions of use to confirm it meets their performance requirement.

PRINTED ON RECYCLED PAPER

FROM FRIDGE TO MICROWAVE

- **Dual Temperature Usage** - Versatile polypropylene material allows for broad temperature range (32°F - 240°F) to go from refrigerator to microwave
- **One Lid Fits Five Container Sizes** - Lid interchangeability reduces storage requirements and increases operational efficiencies
- **The Eyes Have It** - Excellent contact clarity for exceptional food visibility to increase sales of pre-packaged foods
- **White Sidewall Option** - Minimizes ultra-violet light exposure to keep container contents fresh and extend shelf life

MicroGourmet® Plastic Deli Containers

FROM FRIDGE TO MICROWAVE

Busy operations will appreciate how this versatile line of deli containers allows pre-packaged foods to be refrigerated and microwave-reheated in the same container. Five different container sizes use one common recessed lid to help streamline inventory. Available in contact clear for excellent food visibility or in white to minimize ultra-violet light exposure to keep container contents fresh and extend shelf life. Custom print available on containers only.

Versatile Applications
Serves hot or cold foods

Fridge to Microwave Reheat
Versatile material allows for broad temperature range (32°F - 240°F)

Customized Design Available
Up to 6 colors on all containers

Lid Interchangeability
One recessed lid fits 5 container sizes (8 - 32 oz)

Variety
Available in contact or clear or white

Recessed Tight Fitting Lid
Prevents leaking during transport and handling

Stock Prints

SOLO Specialty Paper & Popcorn Containers

WHICH WOULD YOU RATHER OFFER TO YOUR CUSTOMERS?

This operator sells fries in a 1 pound paper food tray

- Each tray costs 2 cents
- Each tray holds about 6oz of fries and each ounce of fries costs about 6 cents (6oz * \$0.06 = \$0.36 per portion)
- 100 orders x 2 cents per tray = \$2 per day in paper tray costs
- 100 orders x 36 cents per portion = \$36 per day in fry costs
- \$2 + \$36 = \$38 per day in total costs
- Weekly Cost = \$266
- Monthly Cost = \$1,155

Yearly Cost = \$13,860*

This operator switches to a 5.5oz Solo® Scoop Cups

- Each Solo® scoop cup costs 9 cents
- Each Solo® scoop cup holds 4.2oz of fries and each ounce of fries costs about 6 cents (4.2oz * \$0.06 = \$0.25 per portion)
- 100 orders x 9 cents per Solo® scoop cup = \$9 per day in Solo® scoop cup costs
- 100 orders x 25 cents per portion = \$25 per day in fry costs
- \$9 + \$25 = \$34 per day in total costs
- Weekly Cost = \$238
- Monthly Cost = \$1,034

Yearly Cost = \$12,410*
Total yearly savings using Solo® Scoop Cups instead of paper food trays = \$1,450

*Figures based on average market pricing and may vary.

PRINTED ON RECYCLED PAPER

Bare[®] by Solo[®] Eco-Forward[®] Commercially Compostable VS SSPLA Paper Food Containers

PLANT MADE. PLANET APPROVED.

- **Compostable in a Commercial Compost Facility** – Appropriate commercial composting facilities may not exist in your community. Please check with your local municipality. Not suitable for backyard composting.
- **Plant-Based Lining** – Container lined with PLA (poly-lactic acid), a plant-based resin that acts as a moisture barrier to prevent leaking, replacing the petroleum-based lining typically found in paper food containers.
- **Sustainability Alternative** – Made from 100% plant-based renewable resources and made with fibers certified under the SFI[®] chain of custody.
- **Third Party Certifications** – Meets the ASTM standard D6868 for compostability by the Biodegradable Products Institute (BPI).

Bare® Eco-Forward® Commercially Compostable VS SSPLA Paper Food Containers

PLANT MADE. PLANET APPROVED.

Bare® by Solo® Eco-Forward® VS Single Sided PLA lined food containers are perfect for holding hot foods (with a maximum temperature of 205°F). These versatile containers can also be used with cold food for immediate consumption. The PLA lining on the inside of the container acts as a moisture barrier to prevent leaking, while the matte finish on the outside of the container conducts less heat to your fingertips. The squat profile and wide mouth make this product easy for operators to fill and easy for customers to eat from. These containers are compostable in a commercial composting facility which may not exist in your community. Please check with your local municipality. Not suitable for backyard composting.

Rolled Rim

Gives rigidity to the container and ensures secure leak-resistant lid fit

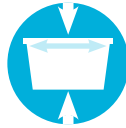

Versatile Applications

Serves hot or cold foods

Moisture Barrier

Container lined with polylactic acid on the inside to prevent leaking

Wide Mouth and Squat Profile

Easy to serve, easy to eat

Sustainability Alternative

Commercially compostable containers made from 100% plant-based renewable resources and made with SFI-certified paperboard

Variety

Containers available in multiple sizes with multiple lid styles made with different materials

PRINTED ON RECYCLED PAPER

Flexstyle® DSP Paper Food Containers and Lids

DURABILITY WITH VERSATILITY

- **Wide-Formed Rim** – Gives excellent rigidity to the container making it durable for heavier foods such as hard-packed ice cream
- **Dual-Temperature Usage** – Multi-purpose, double-sided poly container that can be used for both hot and cold applications with a maximum temperature of 205°F
- **Eye-Catching Graphics** – High-gloss polyethylene coating on the outside of the container allows for exceptional print quality and a smudge-free surface
- **Portion Control** – Flush fill capacity on all sizes, except the 32 oz, to reduce food costs and increase profits
- **Sustainability Alternative** – Made with at least 85% plant-based renewable resources and made with fibers certified under the SFI® chain of custody

Flexstyle® DSP Paper Food Containers and Lids

DURABILITY WITH VERSATILITY

Flexstyle containers are just that – flexible! These durable containers are made with a double-sided polyethylene material so they can be used for either hot or cold food applications! Perfect for hot take-out items like soup or for storing ice cream in the freezer, this multi-purpose container offers something for everyone! Our only paper food container line available with spiral wound paper lids, and in combo packs, for a comprehensive paper solution.

Solo® VS DSP Paper Food Containers

Ready to Serve

The squat profile and wide mouth of our Solo® VS DSP paper food containers makes this product easy for operators to fill and easy for customers to eat! These containers are ideal for cold foods due to the polyethylene coating on the outside of the container which reduces condensation, but can also be used for hot foods due to the temperature maximum of 205°F. A high-gloss finish ensures a smudge-free surface for your stock or custom print to stand out!

Solo® VS DSP Paper Food Containers

Features

Purposeful design

Wide mouth and squat profile make it easier to fill and eat from the container

Rolled rim

Gives rigidity to the container and ensures secure leak-resistant lid fit

Dual-temperature usage

Multi-purpose, double-sided polyethylene-coated container that can be used for both hot and cold applications with a maximum temperature of 205°F

Put a lid on it!

Multiple plastic lid options available in multiple materials to cover all customer needs

Sustainable alternative

Made with at least 85% plant-based renewable resources; we source fibers certified under the SFI® chain of custody

Eye-catching graphics

High-gloss polyethylene coating on the outside of the container allows for exceptional print quality and a smudge-free surface

PRINTED ON RECYCLED PAPER

Solo® VS SSP Paper Food Containers

SERVE IT UP, AND GO!

- **Rolled Rim** – Gives rigidity to the container and ensures leak-resistant lid fit
- **Purposeful Design** – Wide mouth and squat profile make it easier to fill and eat from the container
- **Prevents Leaking** – Single-sided poly coating on the inside of the container acts as a moisture barrier to keep liquid inside
- **Dual-Temperature Usage** – Multi-purpose, single-sided poly container that can be used for both hot and cold applications with a maximum temperature of 205°F
- **Put A Lid On It!** – Multiple plastic lid options available in multiple materials to cover all customer needs

Solo® VS SSP Paper Food Containers

SERVE IT UP AND GO!

A unique offering in our food container line up, Solo® VS SSP paper food containers are perfect for holding hot foods up to 205°F due to the poly coating on the inside of the container, which acts as a moisture barrier to prevent leaking, and the matte finish on the outside of the container, which conducts less heat on your fingertips. These versatile containers can also be used for cold foods with immediate consumption. The squat profile and wide mouth makes this product easy for operators to fill and easy for customers to eat!

Buyer's Guide

*foam and impact plastic
dinnerware with dome covers*

DART CONTAINER CORPORATION

THE INDUSTRY STANDARD OF EXCELLENCE

Foam Plastic Dinnerware

The attractive design of Dart foam dinnerware is lightweight yet strong enough to hold a full portion of food without bending. Superior insulation makes it perfect for serving both hot and cold foods. Quiet Classic dinnerware lines are laminated for extra strength and gloss. Our Concorde dinnerware line offers the same Dart quality in a non-laminated version.

Impact Plastic Dinnerware

Add elegance to any meal with Dart Famous Service impact plastic dinnerware. The glossy, china-like finish and rigid construction enhance food presentation. The non-absorbent, cut-resistant surface keeps sauces from soaking through. Decorative, yet functional, the rim design offers a sophisticated accent while providing for easy product separation. Famous Service also nests more closely than foam or conventional dinnerware, saving you money by reducing storage requirements.

Dome Covers for Dinnerware

Dart dome covers are the ideal complement to our dinnerware lines. A secure seal protects and preserves the freshness of your food while allowing for maximum visual appeal. They're perfect for merchandising pre-packaged salads, sandwiches, and desserts or keeping an entire meal under cover for carryout applications.

Heavy Laminated Foam Dinnerware

Heavy laminated foam provides excellent insulation and is the perfect alternative to permanentware. Its thick, yet elegant, high-gloss top laminate creates a strong cutting surface which supports more substantial food applications. Silent Service® is ideal for the most upscale of foodservice environments.

Features

Black color

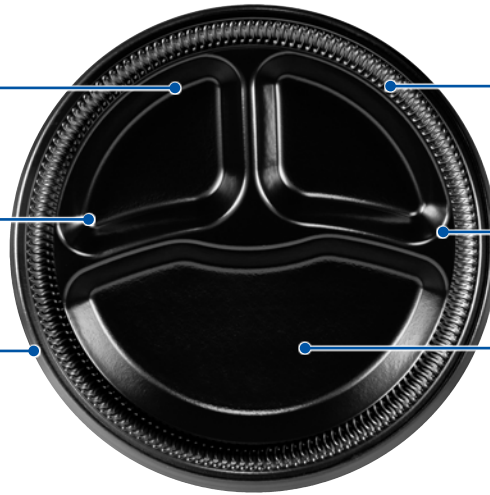

Provides contrast for food improving overall presentation

Deep shoulders on plate

Helps keep food and sauces on the plate

Skid-resistant surface on base

Helps prevent sliding on tray or tables

Glossy finish

Provides upscale, high-quality look

Strong and sturdy design

Helps support heavy foods

Cut-resistant heavy-laminated surface

Makes it difficult to cut through

PRINTED ON RECYCLED PAPER

CONCORDE

Non-Laminated Foam Dinnerware

Lightweight and Sturdy

Our economical, non-laminated foam dinnerware is strong enough to handle a variety of applications. The superior insulation suits both hot and cold foods making this is a perfect choice for casual dining environments.

Features

White Color

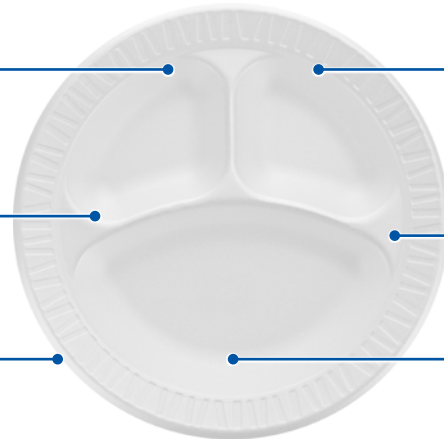

Provides contrast for food improving overall presentation.

Deep Shoulders on Plate

Helps keep food and sauces on the plate.

Skid-Resistant Surface on Base

Helps prevent sliding on tray or tables.

Matte Finish

Provides upscale, high-quality look.

Compartment Anchor

Provides additional plate strength.

Non-Laminated Surface

Economical and sturdy alternative.

Impact Plastic Dinnerware

Elegant and Functional

Our impact plastic dinnerware has a glossy, "china-like" finish, and rigid construction. The non-absorbent, cut-resistant surface keeps sauces from soaking through. These features enhance food presentation and keep customers coming back for more.

Impact Plastic Dinnerware

FAMOUS SERVICE

Crystal cap layer

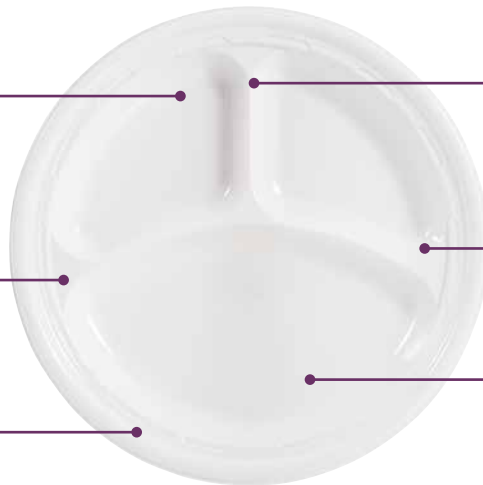

Provides a glossy, "china-like" finish

Non-absorbent

Prevents liquids from soaking through

Separation lugs

Allows for easy plate separation

Compartment anchors

Flared divider at the end of the compartments provides additional plate strength

Deep shoulders on plate

Helps keep food and sauces on the plate

Cut-Resistant surface

Makes it difficult to cut through

Party Plastic

Premium plastic

Delivers strength and elegance in a superior plate

Crystal cap layer

Provides a glossy, "china-like" finish

Non-absorbent

Prevents liquids from soaking through

Decorative rim pattern

Allows for easy plate separation

Deep shoulders on plate

Help keep food and sauces on the plate

Cut-resistant surface

Makes it difficult to cut through

Solo's strongest paper dinnerware yet!

Solo® Paper Dinnerware

Using paper dinnerware shouldn't limit what types of food are served. Durable and reliable, Dart® provides a variety of offerings and three unique geometries that target specific applications. Serving meals with the appropriate geometry helps reduce spills and waste from product doubling.

Features

Available in 3 unique geometries for a variety of applications

Shallow
Ideal for light foods like sandwiches

Good Value

Standard
Perfect for oversized meals like pizza and salads

Better Value

Deep well
Great for heavy or saucy foods like steak and pasta

Best Value

Deep well geometry

At least 50% stronger than a standard 9" plate and provides added security against spills

Nonabsorbent coating

Helps keep sauces and liquids from soaking into products, reducing customer complaints

Renewable resources

Made with 99% plant-based renewable resources and made with either SFI or FSC certified paperboard

Compostability

Meets ASTM D5338 standard for compostability*

Third-party certified

On the Cedar Grove list of accepted products

Show off your sweet and saucy side!

Sauces, Sides & Sweets™ Plastic Containers and Lids

Sauces, Sides & Sweets™ portion containers are great for use with everything from chips and wings, to fruits and desserts. Featuring a wide-mouth opening that is perfect for dipping and scooping, the low-profile design of these containers presents a more upscale look to showcase signature menu items. Pair with one of the five leak-resistant lid options to keep dipping sauces, side dishes, and tasty treats safe when on-the-go.

Sauces, Sides & Sweets™

Features

Flat and dome lids available in heat-resistant polypropylene or clear PET

Shallow design and wide mouth perfect for sauce, sides, dipping, and dessert presentation

Mix-and-match a wide assortment of containers and lids with limitless applications

Strong lid closure to resist spilling

Spoonable base allows all food or sauce in the container to be captured
