Terms:

Net 30 Days on established credit.

Prices:

Prices are subject to change without prior notice. All prices listed are in U.S. funds.

Minimum Order:

There is no minimum order quantity.

Shipping:

Emtek assembles all products to order in City of Industry, California. Orders typically ship within two business days. For shipments to customers located in the U.S. or Canada, Emtek ships freight prepaid via 3 day service. For shipments to customers located in Mexico, Emtek ships freight prepaid via UPS ground. For shipments to customers located outside of North America, Emtek ships freight prepaid to the U.S. location of the customer's freight forwarder via 3 day service.

If a reduced transit time is needed, shipments can be upgraded to 2nd Day Service or Next Day Service for a fee. Orders not shipping to the customer's place of business must ship via 2nd Day or Next Day Service, and additional charges will apply for shipments to a residential address. Emtek cannot use a customer's freight account for shipping charges.

Returned Goods:

For your convenience, dealers can now process returns directly from the Emtek website. Go to www.emtek.com, click on "Dealer Site", and then select "Return Goods". Fill out the RGA form, and follow the link to generate a UPS call tag (terms and conditions apply – see the website for details). A completed RGA form must accompany all packages for returned goods. Returns can only be accepted from, and any refunds made to, the Emtek dealer who originally purchased the product being returned. All returned goods are subject to a minimum 25% handling charge.

Living Finishes:

Unlacquered Brass and Bronze Patina finishes will gracefully age and evolve in appearance over time. Because of this characteristic, no finish warranty is offered on these products.

**Minimum Advertised Price Policy
Effective February 6, 2017**

Emtek has determined that in order to better compete against existing competitors it must exercise a greater degree of control over the distribution of its products. Therefore, all sales of Emtek products will be subject to this Policy. This Policy has been unilaterally adopted and will be enforced strictly and uniformly.

Although resellers remain free to establish their own resale prices, to the extent that any customer elects to advertise products of Emtek in any manner, that is in print, in electronic media, on its website, etc., and provides price information for such products, that price information must be no less than List Price less 20%, this is the Minimum Advertised Price (MAP). Advertisements and offers to sell that do not include a particular price, but require further action that implies a price that is lower than the Minimum Advertised Price violate the MAP Policy. Examples of such unauthorized advertisements include "drop in cart" pricing, "add to cart" pricing, "click to see" pricing, and discount coupon pricing. Also prohibited are advertisements that indicate that discounts may be available when a customer takes specific action that goes beyond buying the product, such as "special price option" or "name your price."

To assure fair business practices, we will strictly enforce this policy. Violations of this MAP Policy will include termination of our business relationship with a customer. On the first offense there will be a written notice counseling any customer that disregards this policy. Any customer who violates the policy a second time, within one year of receiving a written notice of a first violation, will be terminated.

Emtek will not discuss any conditions of acceptance related to this Policy, as it is non-negotiable and will not be altered for any dealer. In addition, Emtek neither solicits, nor will it accept, any assurance of compliance with this Policy. Nothing in this Policy shall constitute an agreement between Emtek and any reseller that the reseller will comply with this Policy.

Determining handing for door hardware is different than determining handing for carpentry (ordering and hanging doors). If you follow the standard carpentry rules for handing door hardware, instead of following the diagram below, there is good chance you may end up with a lock that is handed incorrectly. Please refer to the diagram below and if you have any questions, call Customer Service at (800) 356-2741.

HANDING OF DOOR IS ALWAYS DETERMINED FROM THE OUTSIDE

- The outside of an exterior door is the street or entrance side.
- The outside of a room door is the hall side.
- The outside of a closet door is the room or hall side.
- The outside of a single communicating door is the side from which the hinges are not visible when the door is closed.

Exterior

Profile

Interior

Double sided handlesets, also known as grip by grip, have a full length trim on both the interior and exterior sides of the door. They are available in three functions: single cylinder, double cylinder, and dummy. The single cylinder configuration has a thumbturn which unlocks the door from the inside; while the double cylinder has keyed cylinders on both sides of the door. The dummy does not include a thumbturn, instead it only features matching trim on either side of the door with no locking functionality.

Grip by Grip is a custom function made to order and requires an additional 2-3 day lead time. Also available in Brass handlesets, see page 48-55 for styles - Please call for pricing.
