Mop Chart

FIBERS:

Cotton Mops—Basic Cleaning Needs!

The cut-end is the standard, most popular and MOST economical (in the beginning) mop style. Great for absorbing liquids. Used for spills, and basic floor cleaning at the lowest cost. They are a disposable item since they cannot be laundered and are not recommended for use with laying finish as they absorb too much liquid. Cotton mops need a break in period due to the natural oils in the fiber.

Rayon Mops—Great for Finish!

Rayon mops lint much less than cotton mops and have a slower absorption rate making this a cost effective mop to lay finish. Rayon mops need no break in period and can be used for basic cleaning needs.

Blended Mops—Commercial Use!

Blended mops offer the best combination of water retention/strength and performance. These are the choice of healthcare/commercial users.

STYLES:

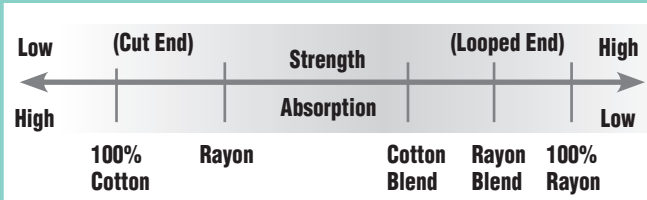

Cut-End Mops—Lowest Cost!

Low initial cost, but not long lasting. Poor coverage area and tends to lint leaving yarn on floors. Tangles frequently due to the loose fibers.

Looped Mops—Improved Performance!

Looped-end mops perform better and last longer. They have a better coverage area than cut end mops and lint much less.

Bath Waste & Overflow

Different manufacturers use different thread names to describe their bath drain inserts. No matter what the manufacturer calls it, they are still the same thing. Some measure it from the inside of the threads and some measure it from the outside of the threads.

Common Sizes: There are Two Main Sizes That Make Up Most of the Bath Drains in the USA. They are:

- 1) 1-1/2" Diameter x 11-1/2 TPI*
 - a. This is Sometimes Called 1-7/8" Diameter x 11-1/2 TPI.
 - b. This is Also Sometimes Called "Course Thread".
- 2) 1-3/8" Diameter x 16 TPI*
 - a. This is Sometimes Called 1-1/2" Diameter x 16 TPI.
 - b. This is Also Sometimes Called "Fine Thread".

Specialty Sizes:

There are Two Other Sizes That are Found in the Market, but They are Not as Common. They are:

- 1) 1-1/2" Diameter x 16 TPI*
 - a. This Primarily Fits Some Sayco® and Briggs® Bath Wastes.
- 2) 2-1/8" Diameter x 16 TPI*
 - a. This is Sometimes Called 2" Diameter x 16 TPI.
 - b. This Primarily Fits Some Kohler® Bath Wastes.

AquaPlumb® Stainless Steel Connectors

AquaPlumb® offers the highest quality supply lines in the market

AquaPlumb's stainless steel braided connectors are designed to be used in both residential and commercial applications. Their braided design gives them excellent protection from bursting and vibration. Additionally they can be coiled and bent for offset installations. Different end configurations are available for virtually any installation.

Working Pressure – 250 PSI
 Burst Pressure – 880 PSI
 Maximum Working Temperature – 180°F (82°C)

Tubing:
 Body – Reinforced PVC
 Jacket – Stainless Steel Braid
 Fittings – Brass, except Plastic Ballcock Nut

Celcon/POM
 Inserts – Brass
 Seals – Cone Style Rubber Washer

Meets Approvals:
 UPC
 ASME A112.18.6-2009
 CSA B125.6-09

AquaPlumb's Special Features:

- Unlike some products on the market that have just a plain rubber non-reinforced tube, all of the AquaPlumb lines have a reinforced PVC inner liner.
 - The reinforced PVC can hold the pressure even without the stainless steel reinforcement. If the Stainless Steel wears down, all that is left in the competitors line is the inner tube. A plain rubber tube will burst right away under pressure.
 - Rubber breaks down sooner and faster than PVC, especially at high temperatures.
 - The black rubber will not meet NSF61.
- All AquaPlumb lines designed to carry potable water and meets California AB1953 and Federal S.3874 for ultra-low lead.
- The ballcock models have many additional features.
 - The AquaPlumb Nylon nut is 3/32" deeper than standard nuts. 22/32" vs 25/32". This provides more threads on the shaft of the ballcock.
 - The base of the AquaPlumb ballcock nut is significantly thicker than standard nuts - .117" vs .149". If a nut is going to break when over tightened, this will be one of the spots. The extra thickness is important.
 - The heel is the weakest part of the ballcock nut. The AquaPlumb nut's heel has been reinforced and is thicker than standard nuts - .153" vs .180". Additionally the heel is rounded to add additional strength and support.
 - AquaPlumb nuts use a Nylon material that is not brittle. It will not crack or split. The standard nut found on some other models is a cheaper, more brittle, material that snaps when stressed

INTRODUCING

PipeBite® Push-On Fittings — Brass

No-Leak Connections

Fittings feature a durable o-ring seal and a guide to keep the pipe straight against the o-ring.

One Piece Construction

One piece construction for long lasting Durability

Full-Flow

These fittings have no restriction. They seal from the outside of the pipe so you will get FULL FLOW.

Code Approved

Code approved for use behind walls or in concealed applications.

Swivel Capabilities

Pipe can swivel inside the fittings making installation much easier. Even under pressure!!

Works with Multiple Types of Pipe

Any copper-tube-size pipe will work with PipeBite fittings. Including Copper, CPVC, PEX and Polybutyle.

No Tools for Installation

Just clean the pipe and push it in!!

Removable

Can be removed from pipe without damage. Fitting can then be reused.

For more than 40 years, HBC Home & Hardware Products has been filling your needs with the widest assortment of products—stocking your aisles with hardware, tools, electrical supplies, plumbing, paint sundries, and much more.

This catalog contains more than 8,500 branded and proprietary, owned-brand products spanning 20 categories. Our products rival nationally branded items in quality and offer significantly higher profit margins.

We stock nearly \$100 million of inventory in five U.S. locations.

That's more than 1.2 million square feet of warehouse space, which is why our products are consistently in stock, and how we're able to offer overnight delivery in many areas. We ship by the box or pallet, packing mixed assortments to save you time, money, and space. Plus, you'll soon be able to order online.

Call now and speak with one of our local sales professionals. They'll answer questions, give product and merchandising advice, and as always, get you the products you need, when you need them. At HBC, we're delivering simplicity, and facilitating your success.
