

# COMFORT ZONE<sup>®</sup>

AMERICA'S HEATING & COOLING CHOICE

## Fans

2015 CATALOG

## Personal Fans

Personal fans are the perfect choice for small spaces. These fans are quiet and compact yet have powerful airflow and multiple speeds. Options with unique features such as convenient clamps and interchangeable bases offer a versatile selection.

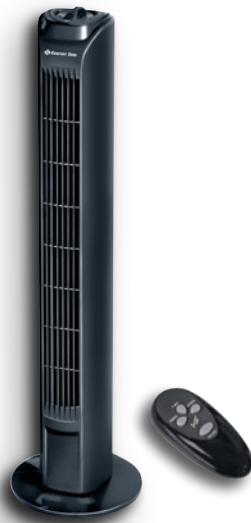

## Table Fans

Table fans are small enough for small spaces yet they are powerful enough to cool a much larger space. With features like wide area oscillation and adjustable tilt, the cooling effect is expanded to reach all parts of the room. These portable and convenient fans are energy efficient too only costing ½ cent per hour to operate.

## Pedestal Fans

Pedestal fans are full size, upright fans that have powerful airflow to cool an entire room with ease. Only Comfort Zone® has the patented Quad Pod® quick folding base for the ultimate in convenience. With additional features like full functioning remote controls, adjustable height and tilt, this energy efficient fan can be used all year round.

## Tower Fans

Tower fans are designed with style and cooling in mind. The sleek and modern shape plus the powerful airflow cools even a large room with style. On select models, there are convenient features like remote control and electronic countdown timer. The wide area oscillation plus the convenient built in carry handle make the space saving fan both effective and portable.

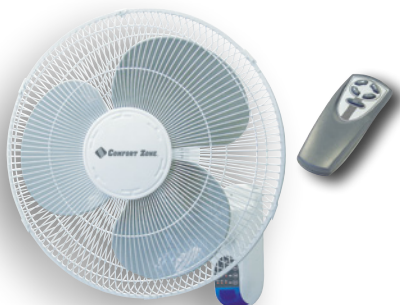

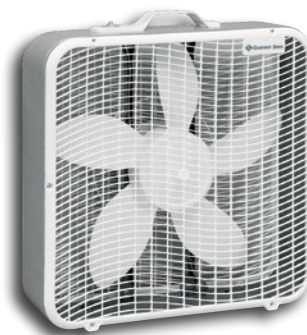

## Window Fans

Window fans bring the fresh air in and take the stale air out. The reversible fan direction feature allows for air intake or air exhaust. The universal design fits most windows and the accordion expanders create a tight seal for maximum efficiency. These fans provide whole house cooling and some models feature remote controls for the ultimate convenience.

## Box Fans

Box fans are the most common fans, and with full force air circulation it can cool a large space with ease. These fans are made in the U.S.A. and feature a 3 speed control dial conveniently located on the top of the fan. These energy efficient fans can save money by reducing energy consumption.

## Wall-Mount Fans

Wall mount fans can be strategically placed to keep the warm air from rising with its powerful airflow and wide area oscillation. It also features convenient pull cords, adjustable tilt and quiet operation.

## High Velocity Fans

High velocity fans come in a variety of sizes and styles each with maximum airflow and sturdy all-metal construction. From personal fans to large industrial fans, high velocity fans will cool hot spaces like shops, gymnasiums and offices. The speed and output of these fans will be noticed right away.

**F**or the better part of the last decade, Comfort Zone® branded heaters and fans have grown to become a recognized leader in the home environment category. Comfort Zone® offers a full range of products for every customer with a wide array of price points and features.

All Comfort Zone® products are quiet and efficient and some can save your customers on their energy bills by circulating warm air in the winter and assisting air conditioners in the summer. Careful consideration was made to ensure that you can merchandise Comfort Zone® Products across the whole range of popular retail price points. The full line of products includes:

- **Heaters:** Quartz/Infra-Red, Quartz Radiant, Halogen Radiant, Ceramic/PTC, Oil-Filled Convection, and Fan Forced models
- **Fans:** Personal, Table, Pedestal, Tower, Window, Box, Wall Mount and High Velocity models. Plus patented features like the Quad-Pod® pre-assembled base technology, delivering marketable features and exceptional value.

All of these features are backed by Comfort Zone's® quality assurance program. From the product design and engineering in the United States to strict global production performance standards, **Comfort Zone's® consistent quality earns recognition and repeat customers!** All Comfort Zone® products are designed and tested to exceed UL®, ETL®, SAA, CE, NOM and other global marks for quality. Plus they are manufactured under the supervision of our U.S. and China based Engineering and Technical Staff.
