HOW DO NORTON
FLOOR PADS STACK UP
AGAINST THE COMPETITION?

BETTER.

Thicker pad with open web structure for longer life and less loading. Manufacturing process efficiencies for increased tensile strength and uniform grain distribution. Breadth of line for broadest application coverage.

Contact us to see how Norton pads stack up for you.

NORTON FLOOR MAINTENANCE PADS FOR THE PROFESSIONAL CLEANING MARKET

NORTON FLOOR PAD APPLICATION RECOMMENDATION CHART

RPM	MACHINE	CHEMICAL/WET OR DRY	PAD RECOMMENDATION	RESULTS
Stripping

STRIPPING PADS

No matter how severe the floor is you are stripping, Norton has a pad that will work for you. Each stripping pad is durable, long lasting, and designed with open construction to allow finish and stripping solutions to flow through and to resist clogging.

Ultra Blue Stripper

For use on the most severe floors. This pad has extra heavy duty fibers, more abrasive grain and an open weave designed to strip floors quickly and effectively, reducing labor costs.

For all pads on pages 6 – 10:

9-1/2" DIAMETER AND SMALLER HAVE 2-3/4" REMOVABLE CENTERPIECE.

UNLESS OTHERWISE INDICATED, ALL OTHER DIAMETERS HAVE A 3-1/4" REMOVABLE CENTERPIECE.

For cost savings, pads can be cleaned and re-used. Clean by using a high pressure spray nozzle to remove fresh debris. Pads may be soaked in detergent or diluted stripping solution to dissolve heavy embedded soil or finish.

NS Non-Stock Item (5 case MOQ)
 * Also available as a non-stock item

SCRUBBING AND CLEANING PADS

For general scrubbing and cleaning applications, Norton offers two pads that will remove surface dirt and grime to get your floor back in shape before re-coating or buffing.

Green Super Scrub

A heavy-duty wet scrubbing pad that will remove the toughest scuff marks in heavily soiled traffic areas.

Blue Super Clean

For general duty scrubbing or heavy spray cleaning jobs.

For all pads on pages 6 – 10:

9-1/2" DIAMETER AND SMALLER HAVE 2-3/4" REMOVABLE CENTERPIECE.

UNLESS OTHERWISE INDICATED, ALL OTHER DIAMETERS HAVE A 3-1/4" REMOVABLE CENTERPIECE.

NS Non-Stock Item (5 case MOQ)
* Also available as a non-stock item

BURNISHING PADS

Burnishing pads for light scuff removal to renewing that wet-look finish. Engineered with fibers that are durable enough to clean and use again, yet resilient enough to conform to the floor surface for better coverage. This pad-to-floor coverage equates to less labor time and overall performance use of the pad. These pads help to prolong re-coating applications and maintain a high facility image.

Pink "Topshine" Burnish

Multi-purpose pad for ultra high-speed machines. Revives gloss on dull floors in a single pass. This totally synthetic pad works best when floors have a good base coat of finish and can be substituted for natural hair pads in health care facilities. For hard finishes only.

Ultra Grizzly Bear

Special blend of synthetic and natural hair fibers with the highest hair content for more aggressive burnishing. Quickly removes scratches and marks to leave floors glistening.

Grizzly Bear

The perfect blend of fibers for jobs requiring additional lubrication to achieve a glossy shine. Additional pad flexibility and more aggressive than the Grizzly Lite Pad.

Grizzly Bear Lite

For a lighter blend of natural hair, the Grizzly Bear Lite produces an exceptional high luster to finishes, especially on soft and flexible surfaces. The natural and synthetic fibers combined with a soft resin, helps restore a high luster shine, quickly and easily.

BURNISHING PADS

Burnishing pads for light scuff removal to renewing that wet-look finish. Engineered with fibers that are durable enough to clean and use again, yet resilient enough to conform to the floor surface for better coverage. This pad-to-floor coverage equates to less labor time and overall performance use of the pad. These pads help to prolong re-coating applications and maintain a high facility image.

Aqua Ultra High Speed Burnish

Engineered to produce the "wet-look" shine on soft to medium hardness finishes. This pad is an excellent general purpose pad and works especially well on metal-free finishes.

Mint Soft Burnish

The ultimate pad for top dressing floors to maintain the high luster "wet-look". Works exceptionally well for daily burnishing soft to medium floors in traffic areas.

Lite Blue Burnish

Flexible fibers and soft binders allow the pad to follow the contour of the floor, producing a high luster shine on soft to medium finishes.

Champagne Polish and Burnish

Soft binders combined with fine fibers create the highest gloss of any pad on the market. Use on machines 1500-2000 rpm on soft to medium finishes.

UNLESS OTHERWISE INDICATED, ALL OTHER DIAMETERS HAVE A 3-1/4" REMOVABLE CENTERPIECE.

NS Non-Stock Item (5 case MOQ)
* Also available as a non-stock item

TECHtip

Swirling and powdering are the result of a floor pad that is too aggressive for the floor finish. Move to a softer, less aggressive floor pad. If scuff marks and scratches are not being removed, move to a more aggressive pad.

CONDITIONING PADS

These 1/4" thick pads are manufactured with the finest fibers, resins and abrasives to allow multiple levels of surface blending of water-based urethanes on hardwood floors.

Maroon Heavy Duty Pad

Aggressive pad designed for surface smoothing of wood fibers raised by water-based sealers and finishes.

Dark Maroon General Purpose Pad

Designed for deburring, smoothing, cleaning and general surface conditioning of wood floor surfaces between coats of water-based or solvent-based finishes.

Gray Light Buffing Pad

Ultra fine for cleaning and light conditioning prior to final coating.

White Super 54 Pad

A non-abrasive pad used as a general purpose driver pad on orbital sanders, usually with PSA sanding sheets or screens. Due to the softness of the pad, abrasive products leave less of a scratch pattern.

P Perforated Pads

Perforated Pads

Available in our Dark Maroon Conditioning pads. Get more with this perforated pad. The 7" disc is easily removed for use on a edger machine or simply as a hand pad, while the 16" pad is used on standard floor machines.

MAROON ENVIRO STRIPPING PADS

These 1/4" pads are designed with a flexible web allowing more pad-to-surface contact. The high-quality abrasive grain provides a uniform cut to remove old finish with minimal work. This fiber and abrasive combination, when used with only water, creates the perfect green solution to stripping applications.

Strips with Water

Resilient construction, with a uniform web for consistent strip pattern. Premium aluminum oxide grain lasts longer and cuts faster. Ideal for residential and institutional areas concerned with use of conventional toxic chemical strippers.

MERIT FLOOR MAINTENANCE PADS

Merit floor pads represent our "Good" tier of Norton maintenance pads for the professional cleaning market. Designed for the professional in the institutional, government and commercial floor cleaning market, Merit floor pads complement the existing Norton premium floor pad line providing the contractor with solutions in all tiers to meet all job requirements.

Merit floor maintenance pads feature a full line of stock products for the most common applications of stripping, cleaning and high-speed burnishing. Competitively priced, these pads are value engineered for great performance that meet any end-user needs and are available in the most common standard sizes and colors.

STRIPPING PADS

*N/A available upon request

Offer a variety of aggressiveness to tackle even the most difficult of stripping jobs.

Ultra Stripper

Contains extra heavy duty fibers, more grain and an extra open weave to strip the toughest floor coatings quickly and effectively.

Hi-Pro Black Stripper

Made with more porous construction it quickly cuts away old finishes and works well on floors with extreme wax build up.

Black Super Strip

Thick Pad with heavy duty fibers provides durability and consistently aggressive performance in wet applications.

SCRUBBING, CLEANING AND POLISHING PADS

Offer excellent performance from heavily soiled floors to spray buffing to final glossy finish.

Green Scrubbing Pad

Heavy duty scrubbing pad removes the toughest scuff marks in heavily soiled high traffic areas.

Blue Cleaning Pad

A general duty pad for scrubbing and heavy spray cleaning jobs.

Red Buffing Pad

A general performance pad that is used where a high gloss is desired when dry or spray buffing. Also suitable for light cleaning applications.

White Polishing Pad

A non-abrasive pad that is used dry or with a fine spray mist to yield a high gloss shine.

BURNISHING PADS

Offer a quality performance and glossy shine at an economical price.

Natural Pad

Blended natural hair and synthetic fibers with the highest hair content provide aggressive burnishing to remove scratches and other marks leaving a high gloss shine.

Natural Lite Pad

Blended pad of synthetic and natural fibers with a lower hair content works well on softer finishes to produce exceptionally high luster quickly and easily.

Aqua Pad

Developed to produce the "wet-look" shine on soft to medium finishes. Works best on metal free coatings.

Light Blue

Soft flexible fibers and binders let this pad follow floor contours to produce a high shine on soft to medium hard coatings.

Top Shine

A multi-purpose pad revives gloss on dull floors in a single pass. This completely synthetic pad works on floors with a thicker base coat of finish and can be substituted for all-natural hair pads in healthcare facilities.

NON-WOVEN HAND AND UTILITY PADS

A complete offering from non-abrasive polishing pads to aggressive, heavy duty cleaning pads. Hand and utility pads are made from a non-woven, nylon fiber web that can be surface coated or completely impregnated with abrasive grain and bonded with synthetic resins. The unique manufacturing process produces a uniform dispersement of abrasive grain throughout the web for consistent coverage.

Tough and resilient, Norton utility pads resist snagging or tearing and will not shred. Additionally, they can be used wet or dry, will not rust, oxidize or cause metal contamination.

Hand Pad Holder

PART #	DESCRIPTION	QTY/CASE
Hand Pad Holder		
662610 47583	Holder	10

White: 98/456 Cleaning Pad / Light Duty

The mildest acting, non-abrasive pad for cleaning sinks, tubs, showers, porcelain bowls, countertops, vinyl and plastic upholstery.

Green: 96/668 Clean and Scour / General Purpose

A medium grade pad used for scouring pots, pans, broilers and ovens; removing rust and corrosion; and cleaning persistent marks from walls and baseboards.

Dark Green: 86/616 Clean and Scour / Heavy Duty

Excellent coarse grade pad for removing excessive grease and burned-on foods from pots, pans, ovens and broilers, as well as removing rust and corrosion.

Black: 614 Stripping Pad / Heavy Duty

Extremely aggressive coarse grade pad ideal for baseboard cleaning of wax build-up. Also good for cleaning griddles and other heavy duty jobs.

Maroon: 707 General Duty

Heavy-duty fine grade pad used when industrial solvents are needed when cleaning, i.e. MEK.

For very aggressive stripping in less time

MICRO-FIBER PRODUCTS

Use the micro-fiber products dry for general cleaning. To remove spills, stains or grime, lightly dampen the product for best results. All micro-fiber products can be used with or without chemicals.

Micro-fiber products can be washed up to 300+ times without losing cleaning and trapping abilities. Micro-fiber products save you labor time and additional costs of multiple cleaning products and chemicals.

Cleaning Cloth (Blue)

Used for general wet or dry applications. Works best when sprayed with a light water mist to deep clean.

PART #	SIZE	QTY
Cleaning Cloth (Blue) 076607 05300	16" x 16"	20

Dry Tack / Dusting Cloth (Red)

Low profile to resist snagging and help pick up embedded debris. This cloth is used in a dry dusting application.

PART #	SIZE	QTY
Dry Tack Cloth (Red) 076607 06038	16" x 16"	12
076607 04025	16" x 16"	20

Polishing Cloth (Yellow)

Streak-free cleaning of mirrors, optical lens and high polishing items.

PART #	SIZE	QTY
Polishing Cloth (Yellow) 076607 05301	16" x 16"	20

Micro-fiber is a single fiber with a thickness less than a human hair that has been split 16 times and woven into various products. The surface area of the micro-fiber product is increased over 15 times, creating millions of spaces between the fibers which trap dirt, grime or liquids, making this product one of the most absorbent materials.

These "V" shape splits, while less than a micron in size, have edges that collect debris as opposed to pushing debris away. The particles are trapped in between the fibers and can be rinsed or machine washed to release heavily embedded particles.

MICRO-FIBER CLOTHS

CONVENTIONAL FIBER

TECHtip

Micro-fiber is virtually scratch resistant but may pick up debris that can scratch. Clean micro-fiber products often for best results.

SPONGE PADS

Made with patented hydrophilic polyester foam, these sponges have antimicrobial agents built into the foam that continuously inhibit the growth of odor-causing bacteria, mold and mildew. Unlike traditional cellulose sponge of the same size these hold up to 22 grams of water, will not shrink or crack and stay odor free.

#63/875 Clean 'N Sponge Light Duty

Cellulose sponge carries water or cleaning solution to the job and later wipes up residue. Excellent for cleaning vitreous china sinks, tubs, toilets, ceramic, plastic and rubber, tile countertops, desks, screens, etc. Non-woven material has gentle cleaning action.

PART #	SIZE	COLOR	PADS/CASE
662610 59402	3-1/4" x 6-1/4" x 1"	White	40 (4 boxes of 10)

#74/893 Scour 'N Sponge General Purpose

Cellulose sponge carries water or detergent to the job surface. Extra strong non-woven material scours, scrubs and cleans the area. Sponge carries residue away. Excellent for cleaning stoves, counters, cooking utensils, ceilings and walls.

PART #	SIZE	COLOR	PADS/CASE
662610 59403	3-1/4" x 6-1/4" x 1"	Green	40 (4 boxes of 10)

Heavy Duty Pot and Pan Scrubber 881

The pot and pan scrubber utilizes heavy fibers and an open weave to help create an aggressive pad for cleaning stubborn baked-on messes.

PART #	SIZE	PADS/CASE
662610 55388	3-1/2" x 5"	40

Stainless Steel Scrubber SS50G

A #300 series scrubber of the longest lasting stainless steel that will not rust or splinter.

PART #	SIZE	PADS/CASE
662610 16505	3" Diameter	72

Easy Cleaner Sponge 340

Plastic coated sponge with mildly aggressive scrubbing action for cleaning non-stick pans, sinks and appliances.

PART #	SIZE	PADS/CASE
662610 17182	3" x 4-3/4"	24

Grill/Griddle Screen, Pad and Holder Open Mesh Griddle Screen

Ideal for use during heavy-duty cleaning of burnt on grease and food build-up.

Heat-Resistant Holder

Designed specifically for use with the griddle screen and polishing pad.

PART #	SIZE	PADS/CASE
Grill/Griddle Screen		
076607 03201	4" x 5-1/2"	100
Grill/Griddle Screen Holder		
662610 47583	3-1/4" x 5-1/2"	10

LARGE DIAMETER SCREEN DISCS

Screen products can be used on a variety of surfaces such as hardwood floors, natural stone surfaces, and concrete. They may be used wet or dry and are recommended for use on low speed machines which operate at 175 – 350 RPM. The uniform open mesh construction of our screen products combined with our superior coating and bonding technologies, helps produce an exceptional finished product with long life and better performance.

FEATURES & BENEFITS

- Tough screen backing
- Extremely fast cut rate and long life
- Coarse grits available in 80 to 150 grits
- Can use both sides of disc – rinse and reuse until worn.

SCREEN DISC PERFORMANCE GUIDE

PRODUCT	PERFORMANCE
Durite	Better choice for superior performance at conventional market price
Silicon Carbide	Good choice for quality and value with consistent performance and low initial price

Norton Durite

Durite abrasive is bonded to an inter-woven polyester knit backing provides increased durability and life. Full resin bond provides excellent grain retention.

Silicon Carbide

Silicon carbide abrasive in a cost-effective design offers outstanding combination of performance and value.

TECHtip

Screens can be rinsed and reused to prolong sanding life. Rinsing the screens removes any debris or build up in the screen, exposing a fresh cutting surface.

LARGE DIAMETER FLOOR PADS

Our patent-pending design allows you to smooth and prep the surface of the floor to properly accept the next coat of finish without the risk of nasty swirl marks. We offer four grits: coarse, medium, fine and very fine to accommodate any application. The foam backing pad allows the product to abrade the surface without penetrating deep into the finish, resulting in a smoother overall floor.

Screen Driver Pads

Designed specifically for driving sanding screens. Unique design prevents slippage for improved product life, cut, and finish. Minimizes dish out of soft grain. Use the pad by itself to buff on stain under a rotary buffer as the pad will hold and disperse stain evenly over the floor without slinging.

SandDollar Pads

Norton SandDollar pads have a long life (approximately 1500 sf/pad) and are extremely durable and tear resistant. The aluminum oxide grain bonded to the foam backing allows the pad to properly abrade the finish while still producing a very fine scratch pattern.

BETWEEN COATS

Don't over use your abrasive product when abrading between coats of finish. A worn out abrasive will still dull the surface, but it may not be putting the proper scratch into the finish to get a good mechanical bond for the next coat of finish. If the surface isn't abraded properly, you can wind up with finish peeling, flaking and chipping. It's a lot less expensive to use a few more abrasive products on the job than to go and re-sand a job because of finish failure.

TECHtip

BUFFING ON STAIN

Buffing on stain is a technique that is gaining in popularity due to the time savings over traditional method sand and the use of fewer materials, like rags and stain.

Our screen driver pads in tandem with our maroon conditioning pads create the perfect system for applying stain with a rotary buffer. The unique design of the screen driver pad allows it to hold and apply stain evenly on the floor without slinging.

The maroon pad (with 7" center removed) is placed on top of the screen driver pad. This center hole creates a "trough" where the stain is poured. This system is then driven with either a screen driver or maroon pad on the buffer drive plate. The screen driver and maroon pad remain on the floor during the process. The operator only needs to tip back the buffer to add more stain to the "trough." This makes for less mess.

Typical Process

- Edges are cut in and wiped off by hand in appropriate size section of floor
- Stain is applied to main section of floor with buffer
- A clean screen driver pad is put on the buffer to buff off excess stain left on floor
- Move to next section of floor

Note:

- Not all stain can be applied with this method, check with stain manufacturer
- Do not work to large of an area to avoid lap marks
- Dispose of used pads properly, they are flammable

THE NEW STANDARD IN SPORT FLOOR FINISHES

A superior, high gloss, single component finish created exclusively for use on gymnasiums and other hardwood sport floors. Formulated to achieve outstanding mar, scratch, and slip resistance with less than 95 g/L VOCs, offering uncompromising performance and durability.

A true game changer, it is approved by the Maple Flooring Manufacturers Association, contains no carcinogens, has a neutral odor and lets a gym floor be refinished in as little as a day without having to vacate the building.

PolyWhey® MVP Sport Floor Sealer

PolyWhey MVP Sport Floor Sealer uses the power of natural whey protein to create a professional strength clear sanding sealer. PolyWhey MVP Sport Floor Sealer is easy to apply, dries clear and quickly, and minimizes both grain raise and tannin pull.

Redefining floor finishing with exceptional workability, durability and safety through sustainable practices.

PolyWhey started as a collaboration among farmers, furniture makers, and University of Vermont scientists to expand the value of Vermont's agriculture and forest industries. What began as an interest in whey, as a possible ingredient in woodworking projects, has emerged as a revolutionary new science.

PolyWhey is the next generation of water-based polyurethane, a truly unique finish that is naturally durable, safe and easy-to-use. The PolyWhey formula uses whey protein, a by-product in cheese manufacturing, to displace the toxic ingredients traditionally used in wood finish by functioning as a co-binder and co-solvent. The result is a new category of wood floor finishes with all the durability of oil-based finish and the application advantages of waterborne finish minus the negatives associated with each.

The Norton brand's rich history of product innovation, R&D excellence, application expertise and high-quality standards make a perfect alliance to Vermont Natural Coatings in the floor care market. We believe our values closely align to deliver a new industry standard without compromising performance and lasting results.

FLOOR DIAMOND MAINTENANCE PADS

Offer a variety of uses on concrete and natural stone floors. From deep cleaning to regular maintenance cleaning, these pads are the answer to your floor finishing issues. Made with a robust interlocking web, they are designed to withstand the harsh applications of concrete and natural stone floor maintenance. Available in a wide grit range permitting light maintenance to a final shine for most routine maintenance programs on all machine types. High quality diamond and a supreme bonding system allow the pads to take a dull floor and pop a mirror gloss shine.

Coarse

Perfect for cleaning and resurfacing concrete or natural stone floors. Works very well on floors that are very dirty with light surface scratches. The coarse grit pad should be followed by the medium pad.

PART #	SIZE	QTY
701846 43513	7"	2
701846 43517	13"	2
701846 41575	17"	2
701846 41579	20"	2
701846 44146	27"	2

Medium

The second step to resurfacing a natural stone or concrete floor following the coarse pad. It can also be the starting pad if the floor is slightly dirty with faint surface scratches.

PART #	SIZE	QTY
701846 43514	7"	2

MEDIUM	6 hrs 50 min	48,589 sq. ft
FINE	9 hrs 10 min	64,777 sq. ft
VERY FINE	9 hrs 10 min	64,777 sq. ft

Internal Testing performed on a polished concrete floor.

Assorted Packs

Perfect for applications where only a few pads are needed to get the job done. Available in the two most popular sizes, the assorted packs contain one each of the grit types; coarse, medium, fine and very fine.

PART #	SIZE	QTY
701846 41589	17"	4
701846 41590	20"	4

SURFACE STRIP AND PREP PAD

This floor pad is specifically designed for removing existing finishes or creating a "bite" surface for a new sealer. A specialized manufacturing process allows the abrasive grain and bond to be evenly dispersed throughout the web, enhancing pad life under extreme conditions of hard floor surface cleaning. The self-cleaning high quality abrasive grain combination allows the pad to evenly clean and strip while producing a floor surface that is ready for specified finish. Increase production by using in conjunction with diluted stripping products.

Surface Strip and Prep Pad

Tough web construction for removal of heavy grime or light surface grinding with lower overall cost compared to normal floor pad usage and performance. Can be used wet or dry. For use on concrete only.

These pads are ideal for marble and terrazzo for both deep cleaning/ renovating and standard maintenance to keep the shine. However, these pads are not recommended for granite.

PROLONGING THE LIFE OF YOUR FLOORS WHILE PROTECTING THE ENVIRONMENT

The Norton Natural Stone Care line of premium floor coatings conforms to “Green Leaf/LEED Qualifying” with each product containing less than 50g/L of V.O.C.s. They are environmentally-friendly and require no special or hazardous disposal methods. Each unique formula configuration provides a finish that protects against stains and surface wear, prolonging the life of the floor.

Impregnator (HD)

Hardener/Densifier for use in the grinding and polishing process (metal/resin bonded abrasives) of concrete and terrazzo surfaces. Ideal for repolishing and restoring worn and damaged surfaces.

PART #	DESCRIPTION	QTY
701846 30564	1 Gallon	1
701846 30565	5 Gallon	1

Protector/Restorer

Advanced, high gloss stain and wear protection that delivers rapid shine development with increased abrasion and stain protection. Restores the “wet” look to polished or finished concrete, factory-finished and terrazzo floors.

PART #	DESCRIPTION	QTY
701846 30574	1 Gallon	1
701846 30575	5 Gallon	1

TECHtip

Coatings need to be applied in thin even layers on the floor surface. Depending on coverage area, you may want to apply coating with pump up or low pressure sprayer. We recommend that once the coating is sprayed on to the floor, that a pre dampened micro-fiber pad is used to ensure that the surface is completely covered and coating is spread consistently and evenly on floor surface.

Enviro Stripping Pads

Strips with Just Water!

Quality abrasive grain provides uniform cut for removal of finishes with minimal work and no use of harmful chemicals.

Diamond Floor Maintenance Pads

Superior Shine

Withstands the harsh cleaning and maintenance of concrete and natural stone to provide a high shine.

Floor Pads

The Right Pad for the Job

Tough, quality floor pads are manufactured to be thicker, with an open web structure for longer life and less loading. Each pad is designed for specific application needs.

Norton SandDollar

Strip Away Old Ideas

A unique between coats/surface prep disc that replaces PSA strips and maroon pads.

VNC MVP Sport Floor Finish

Ultimate Protection

A superior, high gloss, single component finish created exclusively for use on gymnasiums and other hardwood sport floors. VOC compliant and approved by the Maple Flooring Manufacturers Association.
