

# OMNIA

## *Commercial Solutions*

*Design • Reliability • Experience*

For fifty years, OMNIA has been a leader in supplying contract door hardware for commercial building projects. OMNIA has garnered a reputation for providing the building community with superior service and technical expertise. We take pride in delivering our products to our dealers promptly in order to keep projects on deadline. Our company's proven experience and quality product can benefit the bottom line and end result of any commercial project.

## Why Specify OMNIA?

### 1. Design

OMNIA currently offers a selection of over ninety knob and lever designs. Whether an installation calls for the classic tailoring of traditional designs or a contemporary accent that makes a striking statement, OMNIA has the hardware to meet the needs of any scale commercial project. All of our products are manufactured using state of the art production and finishing processes.

### 2. Proven Internal Mechanisms

Our lever latchsets come standard with a spring loaded cassette for lasting durability and ease of installation. OMNIA mortise locks are commercial grade, UL listed and fire-rated. The case that houses our mortise lock internal mechanisms is constructed of heavy wrought steel with zinc dichromate finish for corrosion resistance. Our mortise lockset is field reversible without disassembling the lock case.

### 3. Experience

OMNIA has established a proven record while supplying hardware for commercial jobs for five decades. In order to keep lead times down, we stock a large inventory of our most popular items. We acknowledge that projects often require expedited delivery and we are able to react quickly in those situations. Please refer to the box below for a list of the specialized services we offer.

### 4. National Dealer Network

The OMNIA line is available through the finest retail showrooms and wholesale distributors in the trade. While our primary customer base is in the United States, our products can be found in commercial installations all over the world.

### 5. Ease of Specification

To assist you with the specifying of our products, OMNIA has several specification forms available on our website, [www.OmniaIndustries.com](http://www.OmniaIndustries.com).

#### Specialized Services Available from OMNIA:

- Keying
- Engraving
- Our levers can be specified on certain entry card systems for hotel and other commercial applications.

# Functions for Mortise Lock

<p><b>Passage - N (ANSI# F01)</b> Latchbolt operates by knob or lever either side.</p>	
<p><b>Privacy - L (ANSI# F02)</b> Latchbolt operates by knob or lever either side. Deadbolt by turnpiece inside and emergency key outside. Turning of inside knob or lever will retract both deadbolt and latchbolt at the same time.</p>	
<p><b>Panic-Proof Entry - F (ANSI# F12)</b> Latchbolt operates by knob or lever either side except when outside trim is locked by stopworks. Deadbolt activated by key outside and turnpiece inside. Turning inside knob or lever will retract both deadbolt and latchbolt simultaneously.</p>	
<p><b>Storeroom - EW (ANSI# F07)</b> Latchbolt operates by knob or lever inside and by key outside. The outside knob or lever is rigid. Auxiliary latchbolt deadlocks latchbolt.</p>	
<p><b>Entry - B (ANSI# F21)</b> Latchbolt operates by knob or lever either side. Deadbolt by key outside and turnpiece inside. No locking rocker switch; hubs always operable.</p>	
<p><b>Classroom - J (ANSI# F05)</b> Latchbolt operates by knob or lever either side except when outside knob or lever is locked or unlocked by key in the cylinder. Auxiliary latchbolt deadlocks latchbolt.</p>	
<p><b>Dormitory - FW (ANSI# F13)</b> Latchbolt operates by knob or lever either side except that outside knob or lever is locked when deadbolt is projected. Deadbolt by key outside and turnpiece inside. Turning inside knob will retract latchbolt and deadbolt simultaneously, which automatically unlocks outside knob or lever. When deadbolt is projected, latchbolt is deadlocked.</p>	
<p><b>Standard Entry - A (ANSI# F08)</b> Latchbolt operates by knob or lever either side except when outside trim is locked by stopworks; then opens by key outside, by knob or lever inside. Deadbolt activated by key outside and turnpiece inside.</p>	
<p><b>Office - E (ANSI# F04)</b> Latchbolt operates by knob or lever either side except when outside trim is locked by stopworks; then opens by key outside. Auxiliary latchbolt deadlocks latchbolt.</p>	
<p><b>Vestibule - G (ANSI# F09)</b> Latchbolt operates by knob or lever either side except when outside trim is locked by key in the inside cylinder; then opens by key outside. Auxiliary latchbolt deadlocks latchbolt.</p>	
<p><b>Electrified Locksets</b> 17-177 Fail-Safe Same function as Storeroom - EW, but power off unlocks outside knob. 24 volts AC/DC. 17-178 Fail-Secure Same function as Storeroom - EW, but outside trim unlocked by electric switch. 24 volts AC/DC.</p>	

*Other functions available upon request.*
