WHO WE ARE...

Prime-Line Products has been supplying repair and replacement parts for windows and doors since 1978. Over 30 years of business acumen has led Prime-Line to the top of its trade. The worldwide need for residential maintenance has motivated our company to develop over 18,000 unique items for our customers. We service the professional trades with repair solutions throughout North America and abroad.

We also provide products to the Do-It-Yourself industry through home centers, hardware stores and lumber yards, with a wide variety of specialized repair parts that fit various individual and regional demands. We currently supply many manufacturers with OEM components that are in wide demand.

PRIME-LINE®

Sentry SUPPLY LLC

Sentry Supply LLC was originally established in 1975. Providing toilet partition hardware for over 30 years, Sentry has expanded its production capabilities to offer one of the most comprehensive inventory listings for all makes of partition hardware. Sentry proudly boasts its quick response time to customer needs and provides timely shipment, fast quotes and diligent sourcing for those "hard-to-find" items. A local distribution center allows us to dramatically improve service and lower costs to West coast locations. Committed to customer satisfaction, Sentry will provide you with the item you need, when you need it.

The Prime-Line facilities are ready to fulfill any large capacity order. With over 600,000 sq. ft. of warehouse and office space, we can take your order from inception to completion in stride.

PRECISION® Screen & Security Products A Division of Prime-Line

Precision Screen and Security Products offers a selection of door and window products that answers our customer's demands for innovative, high quality designs that combines the convenience of global accessibility with a local neighborhood attitude. We pride ourselves on outstanding customer service that covers all aspects of our products.

UTILITY Hardware

Keep dangerous chemicals and important items locked up for safety and peace of mind. Cam locks, panel locks and mailbox locks can provide security in these overlooked areas. Useful in the home or garage, these devices are also easily installed.

**Defender[®]
Security**

SEGAL Hardware

The original SEGAL lock was developed in 1912 by Samuel Segal, a New York police officer, who saw the need to protect residents from thieves "jimmying" or spreading the door frame to gain entry. Improvements over the years have changed the original design and made the Segal Vertical Deadbolt one of the strongest locking devices available through the retail channels.

Made from cast bronze material and equipped with a drop forged bolt and solid brass cylinder with a 5-pin tumbler, Segal Locks are some of the strongest locking devices on the market today.

SE-70007 | Cylinder

- » Solid brass with brushed brass finish
- » 5-pin tumbler cylinder

SE-15361 | Jimmy-resistant Deadlock

- » Includes tamper resistant shutter guard
- » 5-pin tumbler cylinder

SE-19361 | Jimmy-resistant Deadlock

- » Double cylinder
- » Includes tamper resistant shutter guard
- » 5-pin tumbler cylinder

SE-14326 | Slam Lock

- » Includes tamper resistant shutter guard
- » 5-pin tumbler cylinder

E-2232 | Latch Strike

- » Brass plated steel strike with adjustable tab
- » Replaces most residential interior & exterior strikes

E-2299 | "T" Strike

- » Solid brass, stainless steel finish
- » Used on wood or metal jambs with most grade 2 locksets

U-9426 | Security Latch Strike

- » Brass plated steel
- » Strengthens or repairs wood jambs

E-2235 | Deadbolt Strike

- » Brass plated steel
- » Replaces most deadbolt strikes for increased security

SECURITY STRIKES

Over half of all burglaries are initiated by forced entry. A majority of these are accomplished by kicking in a door. High security strikes help prevent door kick in attacks. A secure metal barrier prevents jimmy tools from destroying jambs and trim. There are also several designs and finishes available to complement your existing door hardware, with most including 3" security screws to anchor into the wall stud.

**Defender[®]
Security**

U-9481 | Door Protector

- » Used on inswing or outswing doors
- » Secures against forced entry
- » 6" overall length
- » Extruded aluminum

LATCH SHIELDS

Secure your door latch or bolt against forced entry with these latch shields. Available for both inswing and outswinging doors. Suitable for residential or commercial use on wood or metal doors.

U-9512 | Latch Shield

- » Used on inswinging doors
- » Interlocking brackets protect against forced entry
- » 6" overall length
- » Steel

U-9500 | Latch Shield

- » Used on outswinging doors
- » Secures against forced entry
- » 7" overall length
- » Steel

**Defender[®]
Security**

U-9547 | Door & Lock Reinforcer

- » Solid brass
- » For 2-3/8" backset
- » For 1-3/8" thick doors
- » Assists in preventing forced entry

U-10893 | Door Jamb Reinforcement Kit

- » Wraps around existing door jamb to reinforce latch strike area
- » For 2-3/8" backset
- » For 1-3/4" thick doors

U-9567 | Door Edge Reinforcer

- » Solid brass
- » For 1-3/4" thick doors
- » Assists in preventing forced entry

REINFORCERS

Over half of all burglaries are initiated by forced entry. A majority of these are accomplished by kicking in a door. Lock & door reinforcers help prevent door kick in attacks. A secure metal barrier prevents jimmy tools from destroying jambs. Lock & door reinforcers are available to fit most door thickness and backset configurations. There are also several designs and finishes available to complement your existing door hardware.

Our facilities also include roll formers that can be configured to make any size or shape screen frame lineal.

MAKE 2 FIT

GIB CLOSER

Gibcloser provides three different products to the residential, commercial and industrial building markets. We also cater to the specialty manufacturing sectors such as cabinet and case work manufacturers, transaction hardware manufacturers, children's furniture designers and builders of all kinds.

The Gibcloser products are designed and tested to perform trouble free for many years. Our products have been in continuous use in some cases since 1926. All of our door closers are Underwriters Laboratory (UL & cUL) approved, and approved for 1/2 hour fire rated doors. They require no maintenance and are simple to install.

Gibcloser®

E-2400 | Re-Keying Kit

» For Kwikset 5-pin locksets

RE-KEY A LOCK

Our Re-Key A Lock system provides homeowners and apartment managers with an easy-to-use re-keying system. The kit includes all the necessary tools, 3 keys and enough pins to re-key up to six locks or deadbolts.

Re-Key A Lock kits are designed for all major lock types including: Kwikset, Titan, Schlage, and Weiser. Kits include tweezers for easy pin insertion. Color-coded pins for easy re-keying.

Will not detract from in-store re-keying services. Most homeowners do not bring in locksets from their home for re-keying.

FLAG POLE HOLDERS

Prime-Line banner and flag pole holders are the perfect choice for the retail marketer. Colorful, space-saving packaging allows easy product identification and consumer appeal. 21 different products in one category offers the widest selection in the industry.

Fixed angle and multi-position mounts allow a full range of consumer applications. Weather-resistance provides greater consumer satisfaction. Multiple finishes for wider decorative appeal.
