

1006 Electric Strike

Which HES electric strikes are outdoor rated?

We exposed our electric strikes to the elements, and they passed the test. They are the same great electric strikes you've been using for years, now with an outdoor rating from UL.

The following HES electric strike series are now rated suitable for outdoor use:

1006 Series

The strongest, most versatile electric strikes available.

- 1006 Electric Strike
- Complete Pacs
- 1006CS – Smart Strike™
- 1006CLB – Complete Latchbolt
- 1006CDB – Complete Deadbolt

5000 Series

The grade 1, low profile solution for all cylindrical locksets. Choose the 5000 or the Complete Pac 5000C which includes two faceplates and mounting hardware in a single package.

5000 Electric Strike

8000, 8300 and 8500 Electric Strikes

Concealed Electric Strikes

The concealed, no-cut solution for all cylindrical and mortise locksets.

- 8000 – The concealed solution for cylindrical locksets
- 8300 – The concealed, fire-rated solution for cylindrical locksets
- 8500 – The concealed, fire-rated solution for mortise locksets

We also offer the 8000C and the 8300C which come complete with faceplates and mounting hardware.

Surface Mounted Electric Strikes

Choose the 9400 slim-line electric strike for ½" rim exit devices. For ¾" rim exit devices choose the 9500 fire-rated electric strike or the 9600 windstorm rated version. The windstorm rated 9700 is designed to work with Corbin Russwin SecureBolt™ and Yale SquareBolt® exit devices.

9400, 9500, 9600 and 9700 Electric Strikes

HES | SECURITRON

ASSA ABLOY

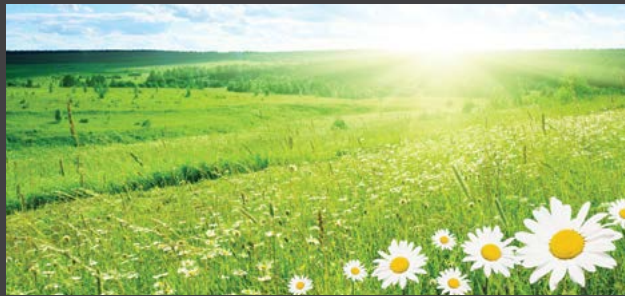

The global leader in door opening solutions

It's **What's**
on the
Outside
that **Counts**

Our products work
beautifully outdoors

HES | SECURITRON

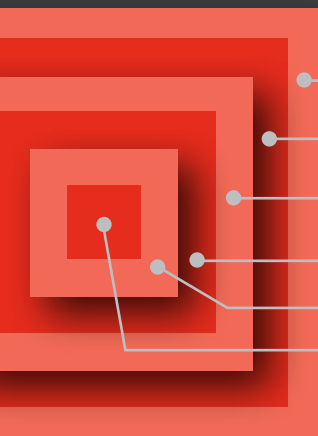

You already use HES and Securitron products to secure and control your facility's interior openings, but are you **thinking outside the box?**

Adding access control to building exteriors and gates provides a variety of challenges.

- What locking products will withstand the weather?
- How are you going to get power to a remote fence and gate?
- What card reader will work outdoors without the need to run wires?

Protect your business from outside threats with complete access control solutions from HES and Securitron.

- Perimeter Fences and Gates
- Solar Power Solutions
- Guard Shacks and Outbuildings
- Perimeter Doors
- Interior Doors
- Cabinets and Drawers

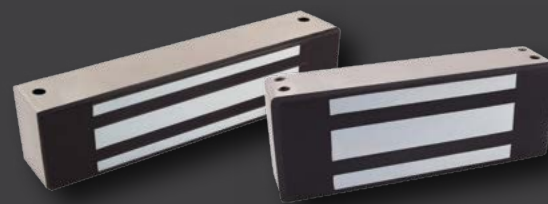

GL1 Gate Lock

Securing a vehicle or pedestrian gate?

The heavy duty Securitron GL1 Gate Lock, with 2,000 lbs holding force, functions equally well in both electrically and manually operated gate installations. Use for:

- Swinging Gates
- Sliding Gates
- Stock Cage Gates
- Other Applications

M32 and M62 Maglocks

What is the best maglock indoors and out?

The M32 and M62 Maglocks® are designed for traffic control in high-use areas within secured or monitored perimeters. They are fully sealed and conformal-coated for weatherproof operation. The M62FG-SASM is designed to protect gates with a special shock absorbing strike mount.

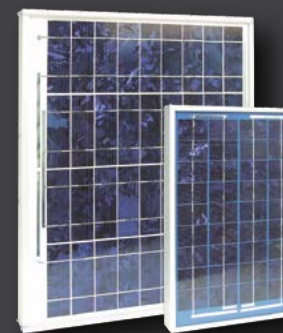

BPSS Solar Power Supply

Do you need high security gate locking capabilities but don't have convenient or affordable access to the electrical grid?

The BPSS Solar Power Supply from Securitron is capable of powering a variety of access control devices and fail-secure intermittent duty locking devices using sustainable solar and battery operated power. The 10 or 20 Watt BPSS is the only out-of-the-box solution specifically designed for remote access control.

The BPSS package includes:

- Solar Panel
- Solar Panel Mounting Bracket
- Solar Controller
- NEMA-3R Enclosure
- Pole Mounting Brackets
- Lead Acid Battery

20 Watt Solar Panel

10 Watt Solar Panel

R100 Wireless Reader

You're adding access control to an exterior opening or gate within 50 feet of your building. How do you install a card reader without running wires or adding a pedestal?

The Securitron R100 wireless reader solves this problem with a weather resistant, adhesive mountable reader that requires no drilling and has no visible wires. By shortening the installation time the R100 offers considerable savings to both retro-fit and new construction applications.

Are you looking for fully-weatherproof keypads?

Securitron offers the DK-26 and DK-37 stainless steel narrow stile keypads which are weatherproof and vandal resistant. The DK-26 is available as an easy-to-program system and the DK-37 is compatible with access control systems using standard Wiegand output.
