STANLEY Commercial Hardware

About the Company

Our History

When you trace it all the way back, it comes down to three individuals: Frederick Stanley, Duncan Black and Alonzo Decker.

For more than 175 years, we're proud to continue their legacies and we're proud to carry their names forward.

In 1843, Frederick Stanley started a small shop in New Britain, Connecticut to manufacture bolts, hinges, and other hardware from wrought iron. With superior quality, consistent innovation, and rigorous operational improvement, Stanley's company defined excellence, and so did his products.

In 1910, S. Duncan Black and Alonzo G. Decker started their shop, similar in size at first, in Baltimore, Maryland. Six years later they changed the world by obtaining the world's first patent for a portable power tool, and the company they built has been changing the world ever since.

Both companies grew in parallel over the ensuing decades, amassing an unparalleled family of brands and products and an even more impressive wealth of industry expertise.

In 2010, the two companies combined to form Stanley Black & Decker, Inc. to deliver the tools and solutions that industrial companies, professionals, and consumers count on to be successful when it really matters.

Just as it was in 1843, our passion for excellence is seen around the world in our disciplined operations, purposeful business growth and loyal customer relationships.

Terms and Conditions of Sale

The terms and conditions contained herein shall govern the sale of all Stanley products located in the Stanley price catalog and/or offered for sale by Stanley Security Solutions, Inc., except for those products as set forth under separate Stanley Value Added Reseller Agreements. The acceptance of any order is expressly made conditional upon your assent to these Terms and Conditions of Sale.

PRICES: Stanley reserves the right, in its sole discretion, to change or amend its price list (including, but not limited to, adding or removing Products from the price list), and standard terms and conditions of sale as contained in its catalogs, price list or published sales policies, without incurring any liability whatsoever to its Customer or others. All orders will be filled at the Stanley List Price in effect at the time of order placement. All prices are subject to change without notice and are not guaranteed.

TAXES: List prices do not include federal, state or local taxes.

ORDERS: No order for Products shall be deemed to have been accepted by Stanley until written notice of its acceptance is received by the Customer from Stanley via an order acknowledgement. Stanley reserves the right, in its sole discretion, to decline to accept any order. Purchase Orders will bind Stanley only to the extent accepted by Stanley's written confirmation or delivery.

Stanley will attempt to fill orders in the order in which they are received, subject to prior orders. However, Stanley reserves the right to allocate orders or fill an order or orders ahead of prior orders, if, in its judgment, the facts warrant such a change.

Any additional provisions in a Purchase Order, including any pre-printed terms, shall be void and not binding on Stanley, unless expressly accepted by Stanley. For greater certainty, the acceptance by Stanley of a Purchase Order shall not be deemed acceptance of the additional terms of such Purchase Order.

Stanley will accept orders via phone, email, fax or courier. Stanley will send out an order acknowledgement for all orders received via email, phone or fax.

Note: Receipt or possession of this price catalog does not grant approval to quote or purchase Stanley products. Please contact your Stanley Sales Representative for further details.

KEYING SYSTEM ORDERS: All orders of keying systems specifying delayed fulfillment must be fulfilled within twelve (12) months of the order date. Said request for fulfillment must include complete keying instructions for the order to be acknowledged with an estimated delivery date. Failure to properly request fulfillment of the order within twelve (12) months of the order date will make the order void and nonrefundable.

SPECIAL ORDERS: Any modification to a standard product configuration is considered a special order. No credits will be issued for returned special orders unless authorized by Stanley Customer Service.

INCOMPLETE ORDERS: An incomplete order is one that is not fully specified according to the appropriate nomenclature required for that product. Any incomplete order will not be entered and will be referred to the appropriate Stanley Sales Representative for resolution.

SAMPLES: Please contact your local Stanley Sales Representative for sample requests.

MINIMUM CHARGE: The expense of handling an order necessitates a minimum charge of \$50.00 net per invoice.

CREDIT LIMITS: Stanley's policy is to extend Net 30-day terms/open account combined with a credit line based on financial capacity. For all accounts Stanley requires a Credit Application and Sales Tax Exempt Certificate (if applicable). Stanley evaluates traditional sources of credit information: D&B, trade and bank references, financial information, and business plans. The supply of credit herein shall be at the discretion of Stanley. If available information and/or financial circumstances will not support open accounts terms, Stanley offers Cash in Advance and Credit Card (MasterCard or VISA) terms. Stanley performs periodic reviews of credit lines and terms of payment and may request updated financial information.

Stanley reserves the right to withhold delivery of Product if Customer does not meet Stanley's credit requirements for the amount of Product ordered, or the amount of Product which remains unpaid (whether or not overdue) exceeds the limit established by Stanley for Customer. Customer shall provide, at Stanley's request, an acceptable letter of credit or guarantee or security in a form and amount determined by Stanley.

If Customer shall become overdue on its account or otherwise defaults in any payment to Stanley or if its financial condition shall at any time appear inadequate to warranty further shipment on an open account basis, Stanley shall have the right, without liability, to refuse to accept any or all orders, to cancel any and all orders, to delay shipments, or to require advance payment before accepting or shipping any orders. All orders and all shipments are subject to approval by the Stanley Credit Department.

PAYMENT TERMS: Stanley standard payment terms are 2% 15, net 30 days from date of invoice.

Effective September 28, 2014, a \$45.00 convenience fee will apply to all payments made by Credit Card towards open invoices on your account. You may choose to pay by credit card by reaching out to your Credit Analyst directly in order to process payment. You can avoid paying the \$45.00 convenience fee by enrolling and paying open invoices via Billtrust Invoice Gateway (<https://secure.billtrust.com/stanleymechnical/ig/signin>) with an ACH Payment (bank transfer from checking or savings account) free of charge. Payments by check, or money order should continue to be sent directly to the remit-to address noted on invoices.

Stanley shall be entitled to charge and Customer shall pay interest on overdue invoices at the rate of two percent (2%) per month calculated from the date of the invoice to the date of payment, including any attorney fees incurred by Stanley resulting from the collection of such overdue payment. Customer shall pay all sums owing to Stanley without any deduction or abatement and Customer shall have no right of set-off.

In the event that Customer disputes any portion of the payment due, Customer shall be obligated to pay the balance which is not the subject of dispute.

Without limiting any other rights it may have under these terms of sale and applicable law, all of Stanley's obligations under this Agreement, including obligations of supply, or any Purchase Order, can be suspended or cancelled should Customer be delinquent in making payment for previously shipped Products.

STANLEY MASTERKEY CODE AND MASTERKEY SERVICE POLICY

I. DISTRIBUTOR MASTERKEY SERVICES

All Stanley Authorized Distributors, Aftermarket Wholesalers, and Locksmiths ("Authorized Distributors") can create, modify or extend masterkey codes for the benefit of their end user customers ("End Users") for Stanley non-patented masterkey systems; provided, however, the services must be performed in line with industry standards. With the express written permission of Stanley, select Authorized Distributors can create, modify or extend masterkey codes for the benefit of End Users for a Stanley Patented Masterkey System (pursuant to the terms and conditions of Section C below). Authorized Distributor's failure to comply with the terms of this policy could result in Stanley's termination of its Distributor Agreement as well as Stanley's pursuit of any remedies available at law.

A. END USER INFORMATION AND CODE RELEASE:

All masterkey codes (both patented and non-patented) previously generated by Stanley are available for distribution to End Users (and/or their designated Authorized Distributor, if applicable) via the End User Web Portal at <http://customerservice.stanleysecuritysolutions.com/mcp/>. For a hard copy of the End User Information and Code Release Form, please contact your Stanley End User Consultant. End user codes will be distributed solely to those Authorized Distributors (a) identified by the End User on a fully executed End User Information and Code Release Form received by Stanley, and (b) for the release of Stanley Patented Masterkey Codes, the Authorized Distributor is authorized by Stanley to receive and process Stanley Patented Masterkey Codes (as more fully described in Section C below.) No exceptions will be made to this policy.

B. STANLEY NON-PATENTED MASTERKEY SYSTEM

Effective September 4, 2012 Stanley will no longer require a Security Authorization Form to be signed by the End User prior to Stanley and/or its Authorized Distributor accepting core and key orders for non-patented keying systems. All valid End User communications for orders related to non-patented keying systems will be fulfilled at the End User's liability.

C. STANLEY PATENTED MASTERKEY SYSTEM

The Stanley Patented Masterkey System provides a higher level of protection against unauthorized key duplication and crossovers and, in order to maintain the quality of a Stanley Patented Masterkey System, the following terms and conditions of this policy shall apply to any and all Authorized Distributors with access to Stanley Patented Masterkey Systems. For the purpose of this policy, "Stanley Patented Product" shall mean the Stanley Best Cormax (including cores and keys), as well as any and all future product Stanley designates as patented product for the purpose of this policy. "Stanley Patented Masterkey Systems" and "Stanley Patented Masterkey Codes" shall mean the respective masterkey system or codes of any Stanley Patented Masterkey Product.

Sale of Stanley Patented Product: As further described in this C, only those Authorized Distributors meeting certain necessary qualifications and standards shall be selected by Stanley to sell Stanley Patented Product. Selection shall be at the sole discretion of Stanley and shall be evidenced in writing via the Distributor Agreement or its select addendums.

Stanley Patented Security Authorization Form: It is a responsibility of the Authorized Distributor to ensure that Stanley Patented Product does not end up in the possession of unauthorized individuals or entities. The Authorized Distributor must ensure that the End User completes a Stanley Patented Masterkey System Security Authorization Form (the "Security Authorization Form") as outlined in this Section. The Security Authorization Form designates those individuals within the End User's organization that are authorized to place orders with the Authorized Distributor for Stanley Patented Product. The Security Authorization Form must be completed and signed by the End User.

It is the Authorized Distributor's full responsibility to validate the End User's signature as identified on the Security Authorization Form prior to accepting any orders for Stanley Patented Product. In certain circumstances the Authorized Distributor selling the Stanley Patented Product will not contract directly with the End User. In these circumstances, the Authorized Distributor is required to work with its reseller to ultimately ensure that the End User submits a signed Security Authorization Form to Stanley. Stanley shall have the right to audit all Security Authorization Forms maintained by the Authorized Distributors for completeness, accuracy and compliance with this Policy.

Sale of Combined Stanley Patented Product through Distributor: Stanley may authorize select Authorized Distributor to purchase and resell to an End User Stanley Patented Product that has been combined by Stanley Personnel. In this instance, a Security Authorization Form must be completed and signed by the End User and provided by the Authorized Distributor to Stanley with each Stanley Patented Product order.

Stocking of Stanley Patented Product: Stanley may authorize select Authorized Distributors to purchase and stock Stanley Patented Product and have access to Stanley Patented Masterkey Codes by entering into a Stanley Patented Masterkey System Distributor Agreement Addendum (the "Authorized Stocking Distributor") As a condition to the Authorized Stocking Distributor's continued access to Stanley Patented Masterkey Codes, it must comply at all times with the Stanley Patented Key Systems Security Procedure. In addition, it is the responsibility of the Authorized Stocking Distributor to ensure that they have a completed Security Authorization Form on file for each End User that places an order with the Authorized Stocking Distributor for Stanley Patented product and that the Authorized Stocking Distributor authenticates the signature of each Stanley Patented Product order utilizing the Security Authorization Form.

In addition to any other recourse available under law, the unauthorized release of Stanley Patented Masterkey Codes by any Authorized Stocking Distributor shall result in immediate termination.

Stanley Patented Masterkey System Exclusive Keyways: Upon request from an End User to release Stanley Patented Masterkey Codes previously generated by Stanley that are on an exclusive keyway, Stanley will send a notification to the End User reminding them that their patented codes are on an exclusive keyway. Stanley will provide a copy of this notice to the Authorized Stocking Distributor.

To assist in reducing the possibility of duplication within an End User exclusive keying system and ensure security, all exclusive Stanley Patented Masterkey Codes must be created, modified and/or extended and recorded in Stanley's BESTCode masterkey code management tool.

Stanley, upon request and at its sole discretion, may provide select masterkey services to an Authorized Distributor for both non-patented masterkey systems and Stanley Patented Masterkey Systems. In order for an Authorized Distributor to place an order for the extension of, or modification to, a masterkey system

previously created or maintained by Stanley, the End User must have selected that Authorized Distributor as its authorized designee in the End User Information & Code Release Form received by Stanley. Complete keying instructions must be given before a Stanley order can be properly acknowledged with an estimated delivery date. Stanley reserves the right to charge for the service of a customized masterkey security solution with the purchase of a Stanley product. A masterkey service charge will be assessed for each order for cylinders or cores for use in non-Stanley manufactured locks for which Stanley has an equivalent product. Stanley Patented Masterkey System products shall not be provided without the associated masterkey services being provided by Stanley. All Masterkey Services provided by Stanley shall be subject to the terms and conditions of the Stanley Masterkey Service Order Acknowledgment which shall be provided upon acceptance of the order for Masterkey Services.

B. STANLEY BESTCODE:

Stanley may, in its sole discretion, make available its BESTCode masterkey code management tool to select Authorized Distributors that meet certain training and certification requirements. ED requires first time mechanical activation after which the push bar will continuously hold the push bar and latch retracted. When power is removed or interrupted from the device, the latch bolt will extend and push bar will release. Uses power supply 8Q00314 (on page 50)	732.00
QED __X	Request to Exit (X) is an SPDT (Single Pole Double Throw) switch which monitors the push bar of the exit device. The X switch can be used to activate a door alarm, control a magnetic locking device, shunt a door alarm or signal a control console when the push bar is depressed.	271.00
QED__LRX	Electrified Latch Retraction (LR) device with a Request to Exit (X) switch. Requires the use of power supply 8Q00312 or 8Q00313.	1054.00
QED__EDX	Electrified Dogging (ED) device with a Request to Exit (X) switch. Uses power supply 8Q00314 (on page 50)	938.00

Email: product_request@sbdinc.com

Upon receipt of a special order request, Stanley will review the configuration and determine if Stanley is capable of making the special order product and will provide a response to the customer. If Stanley is able to make the special order product, Stanley will provide a specific sku/configuration to the customer for the special order product.
