## DECORATIVE INTERIOR

# Barn Door Hardware

Decorative barn doors are a contemporary and space-saving solution that quickly adds character and interest to a room. Because they maximize floor space better than swinging doors and can be retrofitted with less effort and expense than pocket doors, barn doors are a practical and creative solution to today's space and design challenges.

Ultra Hardware™ Decorative Barn Door Kits are made of high quality materials to exacting specifications for perfect sliding door installation. Available in Bronze, Stainless Steel or Black in Straight Strap and Bent Strap, you're sure to find a style and finish to match your application.

Installers Note: For door openings up to 36" wide, it is best to use the 78-3/4" kits, while for door openings up to 46" wide, the 96" kits are suggested. Wider openings using double doors will require two kits along with a joiner plate.

BRONZE

STAINLESS  
STEEL
